

# THE INDIAN HOSPITALITY INDUSTRY

Long weekend and Diwali light up occupancies

**OCTOBER 2025** 

## **Agenda**

### **Highlights**

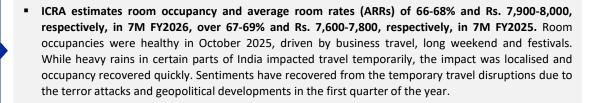

#### Click to see full report

Sustained demand and pricing power to support revenue growth for premium hotel segment in H2 FY2025. Business travel, however, may see some circumspection in the upcoming months especially in sectors vulnerable to the higher US tariffs.

GST reduction from 12% with input tax credit (ITC) to 5% without ITC for hotels with rooms rates less than Rs. 7,500 is expected to boost occupancy for budget hotels. Nevertheless, the inability to claim ITC is unlikely to impact margin, given the benefits of lower GST on input materials and services.

■ ICRA expects the Indian hospitality industry's revenues to grow by 6-8% YoY in FY2026, over the high base of FY2025. The growth is likely to be supported by domestic leisure travel, demand from MICE, including weddings, and business travel. ICRA expects the pan-India premium hotel occupancy to hold at 72-74% in FY2026, largely similar to 70-72% in FY2024 and FY2025. The ARRs for premium hotels are projected to rise to Rs. 8,200-8,500 in FY2026, after a healthy Rs. 8,000-8,200 in FY2025.

Higher business accruals have strengthened the industry's capital structure and debt metrics. The debt coverage metrics are likely to stabilise. Cost rationalisation measures, undertaken during the last few years, and operating leverage benefits led to a sharp expansion in margins over pre-Covid levels. ICRA's sample set of 13 large hotel entities is likely to report operating margins of 34-36% for FY2026, similar to 35.8% in FY2025, against 20-22% during the pre-Covid period.

■ The demand uptick has led to a rise in supply announcements and resumption of deferred projects over the past 24-30 months. However, supply growth is expected to lag demand in the next 12-18 months. ICRA's premium room inventory database (12 key cities) across the country reflects a CAGR of 5-6% in supplies during FY2025-FY2028 but is likely to grow at a higher rate, going forward, as execution of these projects gathers pace.
