Jindal Steel & Power Limited: Update on Entity

Summary of rating(s) outstanding

Instrument*	Previous Rated Amount (Rs. crore)	Current Rated Amount (Rs. crore)	Rating Outstanding
Long-term fund-based bank facilities	17,200.85	17,200.85	[ICRA]A(Stable)
Long-term non-fund-based bank facilities	2,381.94	2,381.94	[ICRA]A(Stable)
Short-term non-fund-based bank facilities	5,586.86	5,586.86	[ICRA]A1
Total Bank Facilities	25,169.65	25,169.65	
Non-convertible Debentures (NCD)	12.40	12.40	[ICRA]A(Stable)

*Instrument details are provided in Annexure-1

Rationale

On April 27, 2021, Jindal Steel & Power Limited (JSPL) announced its board approval for divestment of its entire 96.42% equity stake in its subsidiary, Jindal Power Limited (JPL), to Worldone Private Limited (a promoter group company and a related party to JSPL) for a consideration of Rs. 3,015 crore. The proposed sale is subject to approvals from shareholders and lenders of the company, lenders of JPL, besides other necessary contractual and regulatory approvals. The long stop date for completion of the proposed sale is 12 months, which may be mutually extended by the parties, failing which the proposed sale shall terminate. As part of the transaction, the capital advances/inter-corporate deposits of Rs. 4,386 crore extended by JPL to JSPL will be converted into interest-bearing unsecured loans with a defined repayment schedule.

For arriving at JSPL's ratings, ICRA considers the consolidated financials of JSPL. As per audited financials for FY2020, JPL accounted for ~11% of JSPL's consolidated operating income, ~16% of its consolidated operating profits and ~20% of the group's external borrowings.

The ratings for JSPL remain unchanged at the earlier ratings of [ICRA]A(Stable)/[ICRA]A1, as the proposed deal is not expected to materially impact the credit profile of the company.

The consummation of the deal is expected to result in a cash inflow of Rs. 3,015 crore for JSPL, with the proceeds likely to be used towards paring debt and augmenting steel capacities in Angul (Odisha), in line with its aim to strengthen focus on its core steel operations. While the detailed plan for the said capital expenditure is yet to be charted out, the capex outgo is likely to be phased out and partially debt funded. In addition, while the stake sale will facilitate reduction in consolidated external debt by about Rs. 6,500 crore (JPL's estimated external borrowings as on March 31, 2021), decline in consolidated debt outstanding for JSPL is expected to be lower at around Rs. 2,000 crore, owing to an amount of Rs. 4,386 crore (interest-bearing) it owes to JPL. In a nutshell, reduction in JSPL's consolidated debt, from JPL's divestment and scheduled amortisation of its term borrowings, is expected to be partially offset by the incremental borrowings for its proposed capital expenditure programme. ICRA, however, expects the company's capital structure and debt coverage metrics after the divestment to remain healthy and commensurate with the rating category.

Any materially higher-than-envisaged debt-funded capex and/or investment that affects the company's capitalisation and coverage metrics would continue to be a rating sensitivity. ICRA will continue to monitor developments in these respects and assess their impact on the company's credit profile.

Please refer to the following link for the previous detailed rationale that captures key rating drivers and their description, the liquidity position, rating sensitivities, and key financial indicators: [Click here](#)

Analytical approach

Analytical Approach	Comments
Applicable Rating Methodologies	Corporate Credit Rating Methodology Rating Methodology for Entities in the Ferrous Metals Industry
Parent/Group Support	Not applicable
Consolidation/Standalone	For arriving at the ratings, ICRA considers the consolidated financials of JSPL. As on March 31, 2020, the company had nine subsidiaries, 80 stepdown subsidiaries, two associates and three joint ventures, which are all enlisted in Annexure-2. These included JSIS Oman and JPL (and their subsidiaries). In light of recent developments for divestment of stake in JSIS Oman and JPL, ICRA has relied on consolidated projected estimates for JSPL, excluding these entities.

About the company

JSPL is one of India's leading primary steel producers with a significant presence in power generation and mining. Its domestic manufacturing units are situated in Raigarh (Chhattisgarh), Angul (Odisha), Barbil (Odisha) and Patratu (Jharkhand). JSPL's integrated operations in India encompass production capacities of 8.45 mtpa of iron, 9.0 mtpa of pellets, 8.6 mtpa of liquid steel and 6.55 mtpa of finished steel. JSPL's product range includes TMT bars, plates, coils, parallel flange beams and columns, rails, angles and channels, wire rods, and fabricated sections, among other finished and semi-finished products. While about 63% of JSPL's domestic iron manufacturing capacity (~5.33 mtpa) is through the blast furnace route, the balance (~3.12 mtpa) is achieved through direct-reduced iron (DRI).

JSPL also has a captive thermal power generation capacity of about 1,634 MW at its Raigarh and Angul plants. Besides, Jindal Power Ltd. (JPL), a 96.43% subsidiary of JSPL, which is an independent power producer, has an installed thermal power capacity of 3,400 MW. As per a recent announcement, JSPL's board has approved divestment of its entire equity stake in JPL, subject to receipt of requisite approvals.

In addition to steel-manufacturing capacities, JSPL's international operations include interests in coking coal mining assets in Australia, thermal/coking coal mining assets in Mozambique and anthracite coal mining assets in South Africa.

Complexity level of the rated instrument

Instrument	Complexity Indicator
Long-term fund-based bank facilities	Simple
Long-term non-fund-based bank facilities	Very Simple
Short-term non-fund-based bank facilities	Very Simple
Non-convertible Debentures (NCD)	Very Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments, is available on ICRA's website: www.icra.in

* On April 27, 2021, JSPL announced on stock exchanges that its Board has approved divestment of its entire equity stake in JPL, subject to receipt of requisite approvals.

** Indicate stake in Jindal Shaded Iron and Steel LLC and its subsidiaries as on March 31, 2020. In June 2020, JSPL had accepted a binding offer from Templar Investments Limited (a Mauritius-based, promoter group entity) to divest its entire stake in JSIS Oman. Subsequently, on September 2, 2020, the company announced the sale of ~48.99% of JSPLML's stake in JSIS Oman to Vulcan Steel, a subsidiary of Templar Investments Ltd., in the first tranche. On April 16, 2021, the company announced the sale of balance ~51% stake held by JSPML in JSIS Oman, to Vulcan Steel, in the second and final tranche. With this, JSIS Oman and its subsidiaries cease to be subsidiaries of JSPL.

Note: ICRA has relied on consolidated financial estimates, after factoring in the above-mentioned divestment transactions.
