\*Instrument details are provided in Annexure-I

# Rationale

The ratings reaffirmation for Godrej Properties Limited (GPL) factors in the strong operating performance in 9M FY2024 as reflected by healthy growth in sales, collections and cash flow from operations (CFO). The same is expected to sustain in Q4 FY2024 and FY2025, driven by robust project launch pipeline, likely healthy sales velocity in the upcoming launches, backed by continued end-user demand. In 9M FY2024, GPL's sales increased by 59% YoY to Rs. 13,008 crore and collections by 19% to Rs. 7,185 crore<sup>1</sup>, aided by new launches and healthy progress in the ongoing projects. Consequently, the cash flow from operations increased by 48% in 9M FY2024. For the ongoing projects, the cash flow adequacy cover<sup>2</sup> remained healthy at 68% as of September 2023 (65% as of March 2023). GPL has strong business development plans for supporting its growth momentum. ICRA estimates the collections to remain healthy in excess of Rs. 10,000 crore in FY2024 and grow by 12-14% in FY2025. The ratings continue to draw strength from GPL's robust market position, strong parentage by virtue of being a part of the Godrej Group with exceptional financial flexibility and access to the land holdings of the Group entities.

ICRA notes that the company's consolidated gross debt is estimated to increase to ~Rs. 11,000 crore by March 2024 from Rs. 6,412 crore as of March 2023 due to the expected land/approval-related investments of around Rs. 6,700 crore in FY2024 (Rs. 4,214 crore in 9M FY2024). With rise in debt levels, GPL's leverage measured by net debt/CFO is likely to increase to 2.8 – 2.9 times as of March 2024<sup>3</sup> from 1.8 times as of March 2023. However, with expected improvement in cash flow from operations in FY2025, supported by adequate committed sales and a healthy launch pipeline of upcoming projects, ICRA expects the Net Debt/CFO to reduce to below to 2.40 times as of March 2025. The company has free cash and liquid investments of Rs. 2,837 crore as of December 2023. A major portion of the same is earmarked for growth/investments. Nonetheless, its liquidity position would continue to be strong even after the deployment of these earmarked funds.

<sup>&</sup>lt;sup>1</sup> Excluding collections from DM projects and after adjustment for JV projects

<sup>&</sup>lt;sup>2</sup> Cash flow adequacy cover is computed as committed receivables/ (pending cost + total debt outstanding)

<sup>&</sup>lt;sup>3</sup> Total Debt/CFO is estimated at 3.7 times as of March 2024

The ratings are, however, constrained by the cyclical nature of the real estate industry and exposure to execution and market risks arising from its growth plans. GPL has launched around 13.5 msf of area in 9M FY2024 and plans to launch another 7.5 msf of new projects and new phases in the existing projects in Q4 FY2024. The company's ability to ramp-up the execution and deliveries in line with the proposed expansion of the portfolio will remain a key monitorable. Nevertheless, ICRA expects GPL to benefit from its strong brand and the favourable demand environment in the residential real estate market. ICRA takes note of the high proportion of short-term debt in the company's total debt. While this helped to achieve low cost of borrowing at 7.81% as of December 2023, GPL remains exposed to refinancing risk. The risk is mitigated to a large extent by the healthy liquidity as well as the financial flexibility enjoyed by the company as a Godrej Group entity.

The Stable outlook on the rating reflects ICRA's opinion that GPL will continue to benefit from its reputed brand, maintain healthy sales and collections, backed by a strong launch pipeline, resulting in healthy growth in cash flows from operations, liquidity and comfortable leverage metrics.

The rating has been reaffirmed and withdrawn for Rs. 1,000 crore of redeemed NCD.

# Key rating drivers and their description

# **Credit strengths**

**Strong parentage with access to land holdings of Group entities; exceptional financial flexibility** – The company enjoys exceptional financial flexibility as a part of the Godrej Group, which infused equity worth Rs. 1,000 crore in FY2019, Rs. 2,100 crore in FY2020 and Rs. 3,750 crore in FY2021 through private placement/QIP, thereby supporting portfolio growth. It has access to large land banks of the Group entities, which provides additional visibility to the project launch pipeline. In the past, GPL has entered into agreements with various Group companies for developing land parcels in and around Mumbai.

**Robust collections and sales; strong project pipeline** – In 9M FY2024, GPL's sales increased by 59% YoY to Rs. 13,008 crore and collections by 19% to Rs. 7,185 crore<sup>4</sup>, driven by new launches and healthy progress in the ongoing projects. Consequently, the cash flow from operations increased by 48% in 9M FY2024. ICRA estimates the collections to remain healthy in excess of Rs. 10,000 crore in FY2024 and grow by 12-14% in FY2025. GPL has strong business development plans for supporting its growth momentum.

**Healthy cash flow cover** – Healthy sales from new launches as well as the existing projects has translated into adequate operating cash inflows, while rendering visibility to future collections from the pending receivables. The cash flow adequacy ratio for the ongoing projects stood at 68% of the balance construction cost of around Rs. 18,500 crore and total debt outstanding of Rs. 10,295 crore as of September 2023 (65% as of March 2023).

**Leading real estate developer with long track record, strong market position and diversified portfolio** – GPL has a long track record of more than 30 years, with strong project execution capabilities. It is a leading player in India's residential real estate market. The company has developed around 32 msf of real estate space during the last five years that ended on March 31, 2023. It generates revenue primarily from the sale of residential and commercial projects.

# **Credit challenges**

**Exposure to execution and market risks** – GPL would expand its ongoing portfolio at a faster pace over the medium term, supported by the available growth capital. It has launched around 13.5 msf of area in 9M FY2024 and plans to launch another 7.5 msf of new projects and new phases in the existing projects in Q4 FY2024. The company's ability to ramp-up the execution and deliveries in line with the proposed expansion of the portfolio will remain a key monitorable. Nevertheless, ICRA expects GPL to benefit from its strong brand and the favourable demand environment in the residential real estate market.

<sup>&</sup>lt;sup>4</sup> Excluding collections from DM projects and adjustment for JV projects

**Increase in gross debt; refinancing risk** –The company's consolidated gross debt is estimated to increase to ~Rs. 11,000 crore by March 2024 from Rs. 6,412 crore as of March 2023. With rise in debt levels, GPL's leverage measured by net debt/CFO is likely to increase to 2.8 – 2.9 times as of March 2024<sup>5</sup> from 1.8 times as of March 2023. However, with expected improvement in cash flow from operations in FY2025, supported by adequate committed sales and a healthy launch pipeline of upcoming projects, ICRA expects the Net Debt/CFO to reduce to below to 2.40 times as of March 2025. ICRA notes the presence of high proportion of short-term debt in its total debt. While it has helped the company to achieve low cost of borrowing at 7.81% as of December 2023, GPL remains exposed to refinancing risk. The risk is mitigated, to a large extent, by the healthy liquidity as well as the financial flexibility enjoyed by the company as a Godrej Group entity.

**Exposure to cyclicality inherent in real estate business** – The real estate sector is cyclical and has a highly fragmented market structure because of the presence of a large number of regional players. In addition, being a cyclical industry, the real estate sector is highly dependent on macro-economic factors, which exposes the company's sales to any downturn in demand.

# **Environmental and social risks**

The real estate segment is exposed to risks of increasing environmental norms impacting operating costs, including higher cost of compliance with pollution control regulations. Environmental clearances are required for commencement of projects and lack of timely approvals can affect its business operations. Impact of changing environmental regulations on licences taken for property development could create credit risks. In terms of social risks, the trend post pandemic has been favourable to residential real estate developers as demand for quality home with good social infrastructure has increased. Further, rapid urbanisation and a high proportion of workforce population (aged 25-44 years) will support long-term demand for the real estate sector in India.

# Liquidity position: Strong

GPL's liquidity is strong with Rs. 2,837 crore free cash and liquid investments as of December 2023. ICRA expects the liquidity position to remain strong in the medium term, given the healthy cash flow from operations. There are no scheduled debt repayments for Q4 FY2024 and FY2025.

# **Rating sensitivities**

**Positive factors** – The ratings may be upgraded in case of significant and sustained growth in sales and collections in GPL's project portfolio, along with greater business diversification, resulting in robust and sustainable improvement in cash flows and liquidity. Additionally, reduction in debt levels leading to an improvement in leverage metrics may trigger a rating upgrade.

**Negative factors** – Any substantial weakening in sales velocity and collections in the ongoing and new projects and/or significant debt-funded investments in new projects resulting in deterioration in leverage and coverage metrics, on a prolonged basis, may trigger a rating downgrade. Specific trigger resulting in a rating downgrade would be Net Debt/CFO of above 2.5 times on a sustained basis.

<sup>&</sup>lt;sup>5</sup> Total Debt/CFO is estimated at 3.7 times as of March 2024

# **Analytical approach**

| Consolidation/Standalone        | Consolidation: ICRA has considered the consolidated financials of GPL along with its operational subsidiaries, JVs and associate entities (mentioned in Annexure II) on account of the strong business and financial linkages between these entities. |

# About the company

Godrej Properties Limited (GPL) is the real estate venture of the Godrej Group, which is involved in diverse business segments spanning home appliances, FMCG, consumer products, industrial products (process plant and equipment), chemicals, animal feed, real estate development and oil palm plantation through various Group companies. It was incorporated as Sea Breeze Constructions and Investments Private Limited on February 8, 1985 by Mr. Mohan Khubchand Thakur and Mrs. Desiree Mohan Thakur. In 1987, it became a part of the Godrej Group and in 1989, it became a subsidiary of Godrej Industries Limited (erstwhile Godrej Soaps Limited), which holds 47.3% of the company's equity share capital as on March 31, 2023. At present, GPL is present in 11 cities in India and focuses mostly on residential real estate development. It has delivered ~41 msf of real estate projects since FY2018 and has around 215 msf of total developable area as on February 06, 2024.

# **Complexity level of the rated instruments**

| Instrument                                 | Complexity Indicator |
|--------------------------------------------|----------------------|
| Long-term – Fund-based/CC                  | Simple               |
| Long-term – Non-fund based limits          | Very Simple          |
| Long-term/ Short-term – Unallocated limits | Not applicable       |
| Commercial paper (CP) programme            | Very Simple          |
| Non-convertible debenture (NCD) programme  | Simple               |

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: <u>Click Here.</u>

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA, however, has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents.
