### Rationale

For arriving at its ratings, ICRA has considered the combined the business and financial risk profiles of Tata Capital Limited and its key subsidiary Tata Capital Housing Finance Limited (TCHFL) (together referred to as Tata Capital Limited (TCL) group), as these entities have significant operational and management linkages and operate under the common Tata Capital brand.

The ratings factor in the Group's diverse product mix, the improving share of the retail loan book, the strong liquidity position, the diversified funding profile and the financial flexibility arising from being a part of the Tata Group. ICRA also favourably notes the good asset quality indicators (consolidated gross stage 3 (GS3) and net stage 3 (NS3) of 1.5% and 0.4%, respectively, as on March 31, 2024) and the healthy provision cover (74% as on March 31, 2024). ICRA has also taken note of the group's return healthy indicators with a consolidated return on adjusted<sup>1</sup> average managed assets (RoMA) of 2.1% for FY2024 (1.9% for FY2023), though the sustainability of the same would be important.

The ratings also factor in the relatively moderate, albeit improving, capitalisation profile (consolidated gearing of ~6.0 times as on March 31, 2024), aided by good internal accruals and capital support from Tata Sons Limited (TSL). ICRA believes that a prudent capitalisation level is one of the key mitigants against delinquencies and the other credit risks associated with the lending business and expects that support from TSL, if required, would be forthcoming considering the growth plans of TCL. Overall, the TCL's ability to manage recoveries or mitigate losses through the enforcement of security, while arresting fresh slippages and thus keeping a check on the credit costs, will have a bearing on its overall earnings profile. The ratings for TCL group continue to draw significant strength from its parentage, Tata Sons Limited (TSL; rated [ICRA]AAA (Stable)/[ICRA]A1+), which owned 94.6% of TCL's equity shares on March 31, 2024, and the strategic importance of the financial services business to the Tata Group. The Stable outlook reflects ICRA's expectation that Tata Capital group will continue to remain strategically

<sup>1</sup> Adjusted for one-time gain Rs. 729 crore in FY2023

important to the parent. It also reflects ICRA's expectation that the company will continue to report good asset quality while maintain a diverse product and funding mix and comfortable liquidity profile.

The one notch lower rating assigned to the company's perpetual debt programme compared to the [ICRA]AAA rating for the other long-term debt programmes reflects the specific features of these instruments wherein the debt servicing is additionally linked to meeting the regulatory norms on capitalisation and reported profitability. The domestic regulatory norms for hybrid debt capital instruments include regulatory approvals from the Reserve Bank of India (RBI) for debt servicing (including principal repayments) if the company reports a loss and is not liable to service the debt if it breaches the minimum regulatory capitalisation norms.

ICRA has withdrawn the rating assigned to the Rs. 500-crore non-convertible debenture programme no amount outstanding against the rated instrument. The withdrawal is in accordance with ICRA's policy on withdrawal of credit ratings.

## Key rating drivers and their description

### Credit strengths

**Strong parentage and strategic importance to the Group; supports financial flexibility** – TCL is a majority-owned subsidiary of TSL. It enjoys strong financial and operational support from TSL, which, in the past, has included access to capital, management and systems, and supervision by a strong board. TCL also enjoys strong commitment from TSL as it (through its subsidiaries) is the primary financial services lending arm for the Tata Group. TCL group enjoys good financial flexibility, being a part of the Tata Group, with access to funds at competitive rates of interest from various sources. TCL group's consolidated funding profile is fairly diversified with a mix of non-convertible debentures (NCDs), bank borrowings, and commercial paper. Given the importance of the financial services business to the Tata Group and TSL's stated intent to keep TCL adequately capitalised on a consolidated basis, ICRA expects TSL to continue to provide financial support to help TCL maintain a comfortable capitalisation and liquidity profile.

ICRA also expects TSL to maintain significant ownership and management control in TCL. The demonstrated support to the TCL Group from TSL is also highlighted by the Rs. 2,500-crore capital infusion in FY2019, Rs. 1,000 crore in Q3 FY2020 and Rs. 594 crore in FY2023 and ~Rs. 2,000 crore in FY2024 by subscribing to the rights issue of equity of TCL. A significant dilution in TSL's stake in TCL or in the likelihood of support from TSL or a change in TSL's credit profile could warrant a rating review for TCL.

**Diverse product mix; higher share of retail portfolio** – The total lending book (on a combined basis for TCL+TCHFL) grew by ~34% y-o-y to Rs. 1,61,112 crore as on March 31, 2024 from Rs. 1,20,065 crore as on March 31, 2023 driven by growth in home loan and personal loan/business loan amongst other segments. Consequently, the share of retail loans increased to ~60% of the aggregate portfolio on March 31, 2024 from 57% on March 31, 2023. The loan book is fairly diversified across various products within the wholesale and the retail lending segments. The retail loan book comprises of home loans (19% of the total combined loan book as on March 31, 2024), personal/business loans (14%), home equity/loan against property (LAP; 13%), auto financing (6%), construction equipment financing (5%), loan against securities (2%) and microfinance (1%). The wholesale loan book comprises of corporate loans, lease, credit substitutes, equipment finance and builder loans (23% of the total combined loan book as on March 31, 2024), supply chain finance/factoring (8%), cleantech finance (9%). ICRA also notes the relatively lower credit concentration of large exposures within the wholesale book compared to its peers. The loan book is expected to continue to grow at a robust pace and remain well diversified across products and borrower/Group-level exposures.

**Good asset quality and healthy provision cover** – High loan book growth and controlled slippages resulted in improvement in the asset quality improved on a consolidated basis in FY2024 with the GS3 and the NS3 improving to 1.5% and 0.4%, respectively, as on March 31, 2024 from 1.7% and 0.4%, respectively, as on March 31, 2023 and provision cover at 74% on March 31, 2024 (77% as on March 31, 2023). ICRA expects the overall asset quality to remain comfortable and expects the company to maintain a healthy provision cover to protect the balance sheet against asset quality risks. Overall, TCL group's

ability to arrest fresh slippages while maintaining business volumes would have a bearing on its overall financial profile and would be a key monitorable.

**Adequate earnings profile** - TCL's net interest margins (NIMs) remained stable at 4.4% in FY2024 (4.5% in FY2023) due to commensurate increase in yields compared to increase in the cost of funds, however, better than the 5-year average of 4.3%. Further, decline in credit costs (0.4% of AMA<sup>2</sup> in FY2024 from 0.5% of ATA in FY2023) due to controlled slippages and increase in non-interest income non-interest income (1.2% of AMA in FY2024 from 0.8% in FY2023), despite marginal increase in operating expenses (2.3% of AMA in FY2024 and 2.2% in FY2023) primarily on account of branch expansion during the year resulted in adequate adjusted return on Managed Assets (RoMA) of 2.1% in FY2024 compared to 1.9% in FY2023. Going forward, increase in share of higher yielding retail segments could bode well for the profitability profile. TCL group's ability to grow the loan book while maintaining the improved profitability profile through controlled slippages and operating expenses will be a key rating monitorable.

### Credit challenges

**Maintaining adequate capital buffers key in view of growth plans; TSL's stated intent to keep TCL Group adequately capitalised provides comfort** - Capital infusion by TSL worth ~Rs. 2000 crore in FY2024 and ~Rs. 594 crore in FY2023 through rights issue, good internal accruals (supported by changes in fair value of investment in equities carried at fair value through Other Comprehensive Income) strengthened the net worth to Rs. 24,582 crore on March 31, 2024, from Rs. 18,149 as on March 31, 2023, consequently, despite the strong loan book growth in FY2024 the gearing declined to 6.0 times on March 31, 2024, from to 6.2 times as on March 31, 2023. Solvency (net stage 3/net worth) remain comfortable at 2.5% as on March 31, 2024. TCL on standalone basis reported CRAR of 16.73% (Tier-I – 11.87%) compared to regulatory requirements of 15% (Tier I - 10%). Nonetheless, the group may need external capital if the growth in portfolio is higher than the internal capital generation, to maintain prudent capitalisation levels. ICRA expects capital support from the parent to be forthcoming, as and when required, given TSL's stated intent to provide regular capital support to TCL to enable it to maintain an adequate capitalisation profile.

### Liquidity position: Strong

TCL's liquidity profile is strong at the consolidated level. As on March 31, 2024, the total combined (TCL+TCHFL) debt repayments<sup>3</sup> stood at Rs. 18,393 crore till June 30, 2024, of which the working capital demand loan (WCDL) of ~Rs. 4,500 crore is expected to roll over. As on March 31, 2024, the combined cash and liquid investments and unutilised bank facilities stood at ~Rs. 16,262 crore. ICRA takes comfort from the TCL Group's cash flow from its short-term assets, which augurs well for its liquidity profile. The TCL Group also enjoys good financial flexibility for mobilising long-term funding on the back of its established track record and strong parentage.

### Rating sensitivities

**Positive factors** – Not applicable

**Negative factors** – Pressure on the ratings could emerge because of a deterioration in TCL's consolidated capitalisation profile on a sustained basis and/or weakening of the asset quality leading to a deterioration in solvency (NS3/Net worth >20%) on a sustained basis. A significant change in the likelihood of support from the parent or a deterioration in the parent's credit profile could warrant a rating revision.

## About the company

TCL is a subsidiary of Tata Sons Limited, which holds 94.6% of TCL as on March 31, 2024. The balance shareholding of TCL is owned by Tata Investment Corporation Limited, TCL Employee Welfare Trust and others.

On a consolidated basis, TCL reported a PAT of Rs. 3,327 crore on total asset base of Rs. 176,694 crore in FY2024 compared to a PAT of Rs. 2,946 crore on total asset base of Rs. 135,626 crore in FY2023.

### Tata Sons Limited

Tata Sons Limited, founded in 1917 by the Tata Group's founder, Shri JN Tata, is the principal holding company for the Tata Group and owner of the Tata brand and associated trademark. Charitable trusts own most of Tata Sons' shareholding at 66%. While income from dividends and profits generated on sale of investments constitutes the principal revenue source for the company, it also includes royalty fees earned from the Group companies for using the Tata brand. Such fees, however, are largely spent on brand promotion. TCS, one of the largest software companies in India and the highest contributor to Tata Sons in terms of revenues and profits, was spun-off as a separate entity during FY2005. Currently, Tata Sons' equity investments are spread across seven major industry segments and include investments in flagship concerns like TCS, Tata Steel Limited, The Tata Power Company Limited, Tata Motors Limited, Tata Chemicals Limited, Titan Company Limited and Tata Consumer Products Limited, among others.

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analyzing an entity's financial, business, industry risks or complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments, is available on ICRA's website: [Click Here](#)
