Rationale

ICRA has removed its earlier rating assigned to the bank facilities of Catasynt Speciality Chemicals Private Limited (CSCPL) from the 'Issuer Not-Cooperating' category as the company has now started cooperating based on the fee and has withdrawn the rating assigned to the bank facilities at the request of the company and based on the no-objection certificate (NOC) received from the bankers, in accordance with ICRA's policy on withdrawal of credit ratings. ICRA does not have information to suggest that the credit risk has changed since the time the rating was last reviewed.

The key rating drivers and their description, liquidity position, rating sensitivities have not been captured as the rated instruments are being withdrawn. The previous detailed rating rationale is available at the following link: [Click here](#).
