## Kaynes Technology India Limited: Update on entity

### Summary of rating(s) outstanding

Instrument*	Previous rated amount (Rs. crore)	Current rated amount (Rs. crore)	Rating outstanding
Long-term Fund-based – Cash Credit	191.00	191.00	[ICRA]A-(Positive)
Long-term Fund-based – Packing Credit	25.00	25.00	[ICRA]A-(Positive)
<b>Total</b>	<b>216.00</b>	<b>216.00</b>	

\*Instrument details are provided in Annexure I

### Rationale

#### Material Event

On May 07, 2025, Kaynes Technology India Limited (KTIL, rated [ICRA]A- (Positive)) informed the stock exchanges that its board has approved execution of share purchase agreement (SPA) by KTIL, Kaynes Holding Pte. Ltd. (Kaynes Singapore) a wholly-owned subsidiary of the company, Kaynes Canada Ltd. (Kaynes Canada), a wholly-owned subsidiary of Kaynes Singapore with August Electronics Inc. (AE), AE's promoters/co-founders and their holding companies. The purpose of the share purchase agreement is to define and record the terms and conditions of purchase of a 100% stake in August Electronics Inc. by Kaynes Canada Ltd., which is indirectly a wholly-owned subsidiary of KTIL. The consideration for the proposed acquisition is Canadian dollar (CAD) 57 million.

#### Impact of Material Event

The acquisition of August Electronics (AE) aligns with KTIL's strategy to expand its geographical footprint in America and Europe. AE, based out of Canada, has a customer base spread across the US and Canada. AE is involved in the electronic manufacturing segment (EMS) sector with products across telecom, medicare, and industrial automation segments.

The total consideration of acquisition is ~\$41 million and the same is expected to be funded through a mix of debt and equity. ICRA understands that 75% of the overall consideration is to be paid upfront while the remaining balance will be paid over the next two years. The company is expected to fund the upfront payment through a mix of debt and internal accruals. The proposed debt will be availed by AE and is expected to be repaid through cash accruals of AE. The said acquisition is not anticipated to have any material impact on the consolidated financial and operational profiles of KTIL.

ICRA notes the aforementioned development and understands that the acquisition will support KTIL's plans to expand its geographical footprint across America and Europe. ICRA also notes that AE will retain its current leadership to ensure continuity for clients and its employees. ICRA has noted the event and will continue to monitor any development related to the same and take appropriate rating action, if necessary.

## Analytical approach

Analytical approach	Comments
Applicable rating methodologies	<a href="#">Corporate Credit Rating Methodology</a>
Parent/Group support	Not applicable
Consolidation/Standalone	For arriving at the ratings, ICRA has considered the consolidated financials of KTIL.

## About the company

Kaynes Technology India Limited (KTIL) offers electronic system design and manufacturing (ESDM) services to clients across various industries. The company is primarily involved in contract designing and manufacturing of printed circuit board (PCB) assemblies, circuit boards and electronic components. Established in 1988 as a sole proprietorship firm with a single unit in Mysore, KTIL was converted into a private limited company in 2008. In the recent years, the company has diversified its product portfolio and expanded beyond manufacturing to encompass product design and development, testing and after-sales services such as repair, remanufacturing, marketing, and product lifecycle management.

The company has ample manufacturing capabilities spread across the country. It has further enhanced its capacities at its existing facilities in Mysore and Manesar and has set up a new facility at Chamarajanagar. Besides, the company is setting up outsourced semiconductor assembly and test (OSAT) and PCB manufacturing plants.

## Key financial indicators (audited)

KTIL Consolidated	FY2023	FY2024	6MFY2025*

## Complexity level of the rated instrument

Instrument	Complexity indicator
Long-term fund-based – Cash credit	Simple
Long-term fund-based – Packing credit	Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click here](#)
