Vivriti Capital Limited: Ratings confirmed as final for PTCs backed by unsecured personal and MSME loan receivables (originated under co-lending partnership) securitisation transaction

Summary of rating action

Trust name	Instrument*	Current rated amount (Rs. crore)	Rating action
Helios 03 2026	Series A1 PTCs	42.55	[ICRA]AA-(SO); provisional rating confirmed as final
	Series A2 PTCs	2.50	[ICRA]A-(SO); provisional rating confirmed as final

*Instrument details are provided in Annexure II

Rationale

ICRA had assigned provisional ratings to the pass-through certificates (PTC) issued by Helios 03 2026 under a securitisation transaction originated by Vivriti Capital Limited {VCL/Originator; rated [ICRA]A+ (Stable)¹. The PTCs are backed by a pool of unsecured personal loan receivables and unsecured micro, small and medium enterprise (MSME) loan receivables originated by VCL with an aggregate principal outstanding of Rs. 50.06 crore (pool receivables of Rs. 60.09 crore). VCL would also act as the servicer for the transaction.

Since the executed transaction documents are in line with the rating conditions and the legal opinion for the transaction has been provided to ICRA, the said rating has now been confirmed as final.

Pool performance summary

Parameter	Helios 03 2026
Payout month	May 2026
Months post securitisation	3
Pool amortisation	11.8%
Series A1 PTC amortisation	17.0%
Series A2 PTC amortisation	0.0%
Cumulative prepayment rate	1.5%
Cumulative collection efficiency ²	98.7%
Loss-cum-0+ days past due (dpd) ³	2.6%
Loss cum 30+ dpd ⁴	1.2%
Loss cum 90+ dpd ⁵	0.0%
Cumulative cash collateral (CC) utilisation	0.0%

¹ The current rating rationale of the originator, available at this [link](#), provides its detailed rating history and rating transitions.

² Cumulative collections till date including advance collections but excluding prepayments / Cumulative billings till date

³ Principal Outstanding (POS) on contracts aged 0+ dpd + Overdues / Initial POS on the pool

⁴ POS on contracts aged 30+ dpd + Overdues / Initial POS on the pool

⁵ POS on contracts aged 90+ dpd + Overdues / Initial POS on the pool

Transaction structure

As per the transaction structure, till Series A1 PTC are outstanding, the monthly cash flow schedule comprises the promised interest payout to Series A1 PTC. Series A1 PTC principal is expected to be paid on a monthly basis (100% of the pool principal billed) but is promised on the final maturity date. The interest payout to Series A2 PTC is also to be made on expected basis. Following the full redemption of Series A1 PTC, the monthly cash flow schedule will comprise the promised interest payout to Series A2 PTC. The Series A2 PTC principal is then expected to be paid on a monthly basis (100% of the pool principal billed) but is promised on the final maturity date.

Any prepayment in the pool would be used for the prepayment of Series A1 PTC principal, followed by Series A2 PTC principal. The residual cash flows from the pool, after meeting the promised and expected payouts, will be used for the prepayment of Series A1 PTC principal and, once Series A1 PTC is fully amortised, for the prepayment of Series A2 principal.

The credit enhancement available in the structure is in the form of (i) a cash collateral (CC) of 5.00% of the initial pool principal, amounting to Rs. 2.50 crore, provided by the Originator, (ii) subordination of 15.00% of the initial pool principal for Series A1 PTCs and 10.00% of the initial pool principal for Series A2 PTCs, and (iii) the excess interest spread (EIS) of 14.04% and 13.16% of the initial pool principal for Series A1 and A2 PTCs, respectively

Key rating drivers and their description

Credit strengths

Granular pool supported by presence of credit enhancement – The pool is granular, consisting of 5,175 contracts, with top 10 obligors forming only 2.50% of the pool principal, thereby reducing the exposure to any single borrower. Further, the credit enhancement available in the form of CC and EIS would absorb some of the losses in the pool and provide support in meeting the PTC payouts.

Seasoned contracts in the pool with no overdues – The pool has a weighted average seasoning of ~13 months with no delinquent contracts as on the cut-off date. Further, ~ 98% of the contracts in the pool have never been delinquent, thereby reflecting the borrowers' relatively better credit profile which is a credit positive.

Track record of co-lending operations – Vivriti has a record of over three years of co-lending in the unsecured personal loans and unsecured MSME/business loans category. The partners have adequate underwriting policies and collection procedures across a wide geography. The company has adequate processes for servicing the loan accounts in the securitised pools. The collections are carried out entirely in the digital mode which significantly reduces the comingling risk with the co-lending partners.

Credit challenges

High geographical concentration – The pool has high geographical concentration with the top three states, viz. West Bengal, Maharashtra and Odisha contributing ~42% to the initial pool principal. The pool's performance would thus be exposed to any state-wide disruption that may occur due to natural calamities, political events, etc.

Risks associated with lending business – The pool's performance would remain exposed to macro-economic shocks, business disruptions and natural calamities that may impact the income-generating capability of the borrowers and their ability to make timely repayments of their loans. The pool is exposed to the inherent credit risk associated with the unsecured nature of the asset class and that recovery from delinquent contracts tends to be lower.

Key rating assumptions

ICRA's cash flow modelling for rating securitisation transactions involves the simulation of potential losses, delinquencies and prepayments in the pool. The losses and prepayments are assumed to follow a log-normal distribution. The assumptions for the losses and the coefficient of variation are considered on the basis of the values observed from the analysis of the past

performance of the Originator’s loan portfolio as well as the characteristics of the specific pool being evaluated. The resulting collections from the pool, after incorporating the impact of the losses and prepayments, are accounted for in ICRA’s cash flow model, in accordance with the cash flow waterfall of the transaction.

For the current pool, ICRA has estimated the shortfall in the pool principal collection during its tenure at 7.50% with certain variability around it. The average prepayment rate for the underlying pool is modelled in the range of 4.8% to 18% per annum. Various possible scenarios have been simulated at stressed loss levels and prepayment rates and the incidences of default to the investor as well as the extent of losses are measured after factoring in the credit enhancement to arrive at the final ratings for the instruments.

Details of key counterparties

The key counterparties in the rated transaction are as follows:

Transaction Name	Helios 03 2026
Originator	Vivriti Capital Limited
Servicer	Vivriti Capital Limited
Trustee	Catalyst Trusteeship Limited
CC holding Bank	DCB Bank Limited
Collection and payout account Bank	ICICI Bank Limited

Liquidity position

For Series A1 PTC

The liquidity for Series A1 PTC is strong after factoring in the credit enhancement available to meet the promised payout to the investor. The total credit enhancement would be ~4.00 times the estimated loss in the pool.

For Series A2 PTC

The liquidity for Series A2 PTC is strong after factoring in the credit enhancement available to meet the promised payout to the investor. The total credit enhancement would be ~3.25 times the estimated loss in the pool.

Rating sensitivities

Positive factors – The ratings could be upgraded on the strong collection performance of the underlying pool (monthly collection efficiency >95%) on a sustained basis, leading to the build-up of the credit enhancement cover for the remaining payouts.

Negative factors – Pressure on the ratings could emerge on the sustained weak collection performance of the underlying pool (monthly collection efficiency of <90%), leading to higher-than-expected delinquency levels and credit enhancement utilisation levels. Weakening in the credit profile of the servicer (VCL) could also exert pressure on the ratings.

Analytical approach

The rating action is based on the trustee confirming compliance with the terms of the transaction and the executed transaction documents being in line with the terms initially shared with ICRA.

About the originator

Pursuant to the composite scheme of arrangement between HCIMPL, Vivriti Capital Limited (VCL), Vivriti Next Limited (VNL), Vivriti Asset Management Private Limited (VAM) and Vivriti Funds Private Limited (VFPL), which became effective from April 1, 2026, VCL's NBFC business was transferred to HCIMPL which is now renamed to VCL as per client confirmation dated 15th June, 2026. VCL was a registered non-deposit taking systemically important non-banking financial company (NBFC-ND-SI), promoted by Mr. Vineet Sukumar and Mr. Gaurav Kumar in June 2017. It provided diverse debt financing solutions including loans, working capital finance and trade finance to NBFCs and other enterprises across sectors including manufacturing, infrastructure and financial services. It also expanded its presence in the retail segment through various co-lending partnerships with other NBFCs.

In FY2025, VCL reported a net profit of Rs. 220 crore, on a standalone basis, on total managed assets of Rs. 10,868 crore while it reported a net profit of Rs. 191 crore on total managed assets of Rs. 9,521 crore in FY2024. Its net profit stood at Rs. 160 crore on total managed assets of Rs. 12,171 crore in 9MFY2026.

Key financial indicators*

Annexure I: Disclosure pursuant to the SEBI Circular SEBI/HO/DDHS/DDHS-PoD-2/I/4685/2026 dated February 10,2026

ICRA rated Instruments fall under regulatory purview of various Financial Sector Regulators (FSR) as under:

Sr. No.	Instrument	FSR
1	Listed/Proposed to be listed Bonds/Debentures/Preference Shares (all securities)	SEBI
2	Unlisted/Proposed to be unlisted Bonds/Debentures/ Preference share (all securities)	MCA
3	Listed PTCs / Securitisation Notes (originated by entities regulated by RBI) (*)	SEBI
4	Listed PTCs / Securitisation Notes (originated by entities not regulated by RBI) (*)	SEBI
5	Unlisted PTCs / Securitisation Notes (originated by entities regulated by RBI) (*)	RBI
6	Listed Commercial Paper and NCDs with original maturity less than 1 year	RBI
7	Unlisted Commercial Paper and NCDs with original maturity less than 1 year	RBI
8	Loan Facilities (Fund/Non-Fund Based) from Bank / NBFCs/ NHB/ FIs (\$)	RBI
9	External Commercial Borrowings/Loans from overseas branches of Indian Banks/other similar borrowings	RBI
10	Certificates of Deposit	RBI
11	Fixed Deposits raised by NBFCs, Banks, HFCs, FIs	RBI
12	Fixed Deposits raised by corporates other than NBFCs, Banks, HFCs, FIs	MCA
13	Inter Corporate Deposits/Loans extended by Corporates	MCA
14	Listed Security Receipts	SEBI
15	Unlisted Security Receipts	RBI
16	Unlisted PTCs / Securitisation Notes (originated by entities not regulated by RBI) (*)	Investor-side Regulator such as IRDAI, PFRDA (%)

(*) Includes securitisation transactions involving assignee payout, acquirer's payout.

(\$)

Includes bank facilities such as liquidity facility, second loss facility that are part of securitisation transactions.

(%) These ratings were assigned prior to the introduction of SEBI CRA Circular dated Feb 10, 2026 and accordingly, investor side FSRs have been mentioned.

Other Activities offered by ICRA fall under regulatory purview of various Financial Sector Regulators (FSR) as under:

Sr. No.	Activity Name	FSR
1	Credit Ratings for Capital Protection Oriented Schemes (by Mutual Funds and AIFs)	SEBI
2	Credit quality ratings (CQRs) for Mutual Fund Schemes and Schemes of AIFs	SEBI
3	Independent Credit Evaluation (ICE)	RBI
4	Expected Loss Ratings (For Loan Facilities [Fund/Non-Fund based] from Banks/NBFCs/NHB/FIs)	RBI

5	Expected Loss Ratings (Listed / Proposed to be listed Bonds / Debentures / Preference Shares (all securities))	SEBI
6	Expected Loss Ratings (Unlisted / Proposed to be unlisted Bonds/ Debentures / Preference Shares (all securities))	MCA
7	Credit Rating of Borrowing programme	(@)
8	Issuer Ratings	(#)
9	Monitoring Agency	SEBI
10	Research activities, incidental to rating such as research for Economy & Industries (permitted by SEBI vide SEBI Master Circular for CRAs)	NA

(@) The rated instrument may involve issuance of different instruments such as debt securities (listed or otherwise), bank loans, commercial paper (listed or otherwise), etc. The regulator of the instrument can only be determined upon issuance. Accordingly, ICRA shall capture the rated quantum details along with names of respective FSR in the press release(s) after the issuance(s) of the instruments.

(#) Since no instrument is being rated, FSR is not applicable. The rating scale and definitions stipulated in SEBI Master Circular for CRAs are being followed.

Disclosure: SEBI's grievance redressal/dispute resolution and SEBI investor protection mechanisms such as SCORES and ODR shall not be available for activities and instruments which fall under the regulatory purview of Financial Sector Regulators other than SEBI.

Complexity level of the rated instrument

Instrument	Complexity indicator
Series A1 PTC	Highly Complex
Series A2 PTC	Highly Complex

The Complexity indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click here](#)
