[#] Long term and short-term fund based limits include an interchangeable limit of Rs. 7,260 crore; total rated bank facilities stand at Rs. 17,665 crore (including Rs. 2,690.0 crore term loans and Rs.870 crore credit exposure limit)

^{##} Long term and short-term fund based limits include an interchangeable limit of Rs. 8,760 crore; total rated bank facilities stand at Rs. 21,515 crore (including Rs. 5,040.0 crore term loans and Rs.870 crore credit exposure limit)

Rationale

The ratings factor in Muthoot Finance Limited's (MFL) long-standing track record and its leadership position in the gold loan segment, its established franchise with a pan-India branch network, and its efficient internal controls and monitoring systems. The ratings also consider the company's comfortable capitalisation profile, its ability to raise funds from diverse sources and good profitability indicators. ICRA takes note of the Muthoot Group's portfolio diversification initiatives via its subsidiaries. MFL's ability to grow its non-gold loan portfolio profitably without any significant credit losses would be monitorable over the medium term. However, the share of the non-gold business is expected to moderate in the near term from the current levels (11%) as the growth of these asset segments is expected to be lower.

The ratings factor in the portfolio concentration in the gold loan business, MFL's geographically concentrated operations, the vulnerability of its operations to adverse gold price fluctuations and the marginal borrower profile. ICRA, however, notes that the credit cost has remained under control and modest over the past five years (average of 0.5% of total managed assets). ICRA notes that the weighted average loan-to-value (LTV) for gold loans was comfortable at 61% as on September 30, 2020 (55% as on June 30, 2020). While access to collateral (in case of gold loans) provides comfort, the ability to undertake timely recoveries in case the gold price movements turn adverse and the performance of the non-gold segments would be monitorables from a credit perspective.

The Stable outlook factors in ICRA's expectation that MFL will continue to benefit from its established operational track record in the gold loan business, which accounted for 89% of the consolidated assets under management (AUM), as of September 2020, and its comfortable overall financial risk profile.

Key rating drivers and their description

Credit strengths

Established franchise and market leadership in gold loan segment – MFL has a track record of around two decades in the gold loan business and is India's largest gold loan focused non-banking financial company (NBFC) with a total portfolio of Rs. 47,016 crore (of which 98% is gold loan) as on September 30, 2020 and Rs. 41,296 crore as on June 30, 2020 (Rs. 41,611 crore as on March 31, 2020 and Rs. 34,246 crore as on March 31, 2019). The consolidated portfolio stood at Rs. 52,286 crore as on September 30, 2020 compared to Rs. 46,501 crore as on June 30, 2020 and Rs. 46,871 crore as on March 31, 2020 (Rs. 38,304 crore as on March 31, 2019), of which gold, housing and microfinance accounted for 89%, 4% and 5%, respectively. The company operates through an extensive pan-India branch network of 4,607 as on September 30, 2020 with 60% of its branches being in South India, where it has a good franchise. The strong brand value of Muthoot, its experienced promoters and senior management team, and its efficient internal controls and audit systems are expected to support its overall business growth going forward.

Healthy profitability indicators – The company's consolidated net profitability remained healthy with the annualized PAT/AMA¹ at 6.1% in H1FY2021 (provisional) and 6.6% in FY2020. MFL's (standalone) net profitability also remained healthy with an annualised PAT/AMA of 6.4% in H1FY2021 (provisional) and 6.8% in FY2020. The annualised return on average net worth (standalone) was about 28.0% in H1FY2021 and 28.3% in FY2020 while the annualised net interest margin decreased to 11.4% in H1FY2021 from 13.2% in FY2020 largely due to the higher on-balance sheet liquidity. However, the company's profitability was supported by a decline in the operating expense ratio to 3.1% in H1FY2021 from 4.0% in FY2020 and low credit costs. The consolidated profitability is expected to be maintained at 4.5-5.0% in the medium term.

Capitalisation to remain comfortable over the medium term, notwithstanding the investments required for subsidiaries – MFL has a comfortable capitalization profile with a standalone gearing of 3.2 times as on September 30, 2020 (3.2 times as on March 31, 2020), aided by good internal capital generation. The consolidated gearing was stable and stood at about 3.4 times as on September 30, 2020. MFL's standalone net worth was Rs. 13,197 crore as on September 30, 2020 (Rs. 11,572 crore as on March 31, 2020). It is expected to be comfortably placed to meet the medium-term capital requirements of its subsidiaries without affecting its own capital structure. ICRA expects MFL's consolidated gearing to remain in the range of 3-4 times over the medium term.

Credit challenges

Vulnerability to adverse gold price movements – Notwithstanding its efforts to reduce the impact of gold price fluctuations, MFL's credit profile remains susceptible to adverse and sharp movements in gold prices. A steep decline in gold prices is expected to adversely impact the company's asset quality and business profile. ICRA notes that the weighted average gold loan LTV was comfortable at 61% as on September 30, 2020 (55% as on June 30, 2020), which provides comfort.

Concentration on gold loan segment; diversification in new asset classes is a monitorable – MFL's standalone portfolio almost entirely consists of gold loans and its consolidated portfolio is also concentrated with gold loans comprising 89% of the loan book as on September 30, 2020. The company's revenue diversification is also modest with non-interest income/average total assets of 0.4% (annualised; standalone provisional) in H1FY2021. The share of the subsidiaries

¹ Profit after Tax / Average Managed Assets

moderated to about 11% of the total AUM as on September 30, 2020 from about 13% as on September 30, 2019 (12% as on March 31, 2020). The consolidated AUM increased by 29% YoY to Rs. 52,286 crore as on September 30, 2020 (Rs. 40,390 crore as on September 30, 2019 and Rs. 46,501 crore as on June 30, 2020) due to a sharp increase in gold loan business on the back of higher gold prices.

Although the share of the subsidiaries is expected to moderate further from the current levels; MFL's ability to profitably manage its non-gold business while maintaining good asset quality would be crucial, considering the unsecured nature of some of these businesses and the higher inherent risks compared to gold loans.

Critical to control credit costs in non-gold loan segment – MFL's standalone gross stage 3 decreased to 1.3% as on September 30, 2020 from 3.4% as on September 30, 2019 (2.2% as on March 31, 2020) on the back of healthy gold prices which supported recoveries. The net stage 3 stood at 1.1% in September 30, 2020 compared to 3.1% as on September 30, 2019 (2.0% in March 2020). ICRA takes note of the provision in excess of ECL kept in books amounting to Rs. 295.4 crore (0.7% of the gold loan portfolio). This, along with the low credit cost of 0.1% (annualised) in H1FY2021 (average of 0.4% in the last 3 years) and the liquid nature of the collateral, provides comfort. The GNPA's in the housing and microfinance subsidiaries were under control at 1.7% and 0.6%, respectively, as on September 30, 2020 (1.7% and 0.9%, respectively, as on March 31, 2020). ICRA notes that MFL's (standalone) average credit cost for the last 5 years was low at 0.5%. The performance of non-gold loans may be impacted by the Covid-19 related disruptions because of the unsecured nature of the microfinance business and, the average credit profile of the borrowers in the housing segment. However, ICRA expects MFL's asset quality in the gold loan segment, which accounts for the bulk of the consolidated AUM, to remain under control with low credit costs.

Operations concentrated in South India – MFL's operations are largely concentrated in South India, which constituted 60% of its total branch network and 49% of its total loan portfolio as on September 30, 2020. ICRA, however, notes that the share of the portfolio in South India has gradually reduced from 69% in March 2012.

Liquidity position: Strong

MFL has cash and liquid investments of Rs. 6,361 crore as on October 31, 2020, with payment obligation of Rs. 15,997 crore (excluding interest) during November 2020 – March 2021. A sizeable portion of the repayments (Rs. 10,713 crore) comprises cash credit/short term loan from banks which is expected to be rolled over, while the commercial paper (CP) and NCD repayments are Rs. 4,656 crore and Rs. 297 crore respectively for the above-mentioned period. Sizeable undrawn working capital limits from banks (about Rs. 1,670 crore as of August 2020) provide further support to the company's liquidity profile.

ICRA takes note of the significant increase in overall collections and disbursements in the last 5-6 months as borrowers rolled over (after paying their accrued interest and renewing the loan basis the prevailing LTV) their existing loans in view of the high gold prices. While the share of rolled-over loans in the overall collections and disbursements, increased considerably vis-a-vis the past, MFL's fresh disbursements and, cash collections remained healthy. The funding mix remained diversified with the range of sources including bank borrowings (42%), NCDs and subordinated debt (28%), CP (11%), external commercial borrowings (17%) and other loans (2%) as on September 30, 2020.

Rating sensitivities

Positive triggers – ICRA could change the outlook or upgrade the rating if MFL demonstrates a track record of good quality and profitable performance in the non-gold asset segments while limiting the share of the unsecured asset segments to 15% of the overall AUM. A sustained asset quality, capital profile and earnings performance, as per the expected levels, would also act as positive rating triggers.

Negative triggers – ICRA could change the outlook or downgrade MFL's ratings if the asset quality weakens significantly, thereby impacting its earnings, or if the consolidated gearing increases beyond 4.5 times on a sustained basis.

Analytical approach

Analytical Approach	Comments
Applicable Rating Methodologies	ICRA's Credit Rating Methodology for Non-Banking Finance Companies
Parent/Group Support	NA
Consolidation	To arrive at the ratings, ICRA has considered the consolidated financials of the Muthoot Finance Group. The consolidated financials of the Group include seven subsidiaries as listed in Annexure-2

About the company

Muthoot Finance Limited (MFL) is the flagship company of the Kerala-based business house, The Muthoot Group, which has diversified operations in financial services, healthcare, real estate, education, hospitality, power generation and entertainment. MFL was incorporated in 1997 and is India's largest gold loan focussed NBFC with total loan assets (standalone) of Rs. 47,016 crore and 4,607 branches as on September 30, 2020. The company derives a major proportion of its business from South India (49% of the total portfolio as on September 30, 2020), where gold loans have traditionally been accepted as a means of availing short-term credit, although MFL has increased its presence beyond South India over the past few years.

MFL achieved a standalone net profit of Rs. 3,018 crore on an asset base of Rs.50,460 crore in FY2020 against a net profit of Rs. 1,972 crore on an asset base of Rs. 38,069 crore in FY2019. In H1FY21, the company witnessed standalone net profit of Rs. 1,735 crore.

The consolidated portfolio stood at Rs. 52,286 crore as on September 30, 2020 compared to Rs. 46,871 crore as on March 31, 2020 (Rs. 38,304 crore as on March 31, 2019), of which gold, housing and microfinance accounted for 89%, 4% and 5%, respectively.

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents
