Edelweiss Liquid Fund	-	-	[ICRA]A1+mfs; reaffirmed
<b>Total</b>	-	-	

\*Instrument details are provided in Annexure-1

### Rationale and key rating drivers

ICRA has reaffirmed the rating for Edelweiss Liquid Fund and Edelweiss Overnight Fund of Edelweiss Asset Management Limited at [ICRA]A1+mfs (pronounced ICRA A one plus m f s). ICRA has also reaffirmed the rating for Edelweiss Banking and PSU Debt Fund at [ICRA]AAAmfs (pronounced ICRA triple A m f s). The ratings have been reaffirmed following ICRA's monitoring of the credit risk profile of the month-end portfolio position of the schemes. The credit risk scores for the schemes were comfortably within the benchmark limit for the current rating levels.

Mutual fund ratings incorporate ICRA's assessment of the creditworthiness of a debt mutual fund scheme's investment portfolio. These ratings are a symbolic representation of the credit risk in the underlying investments or the degree of safety regarding the timely receipt of payments from the investments that have been made by the mutual fund schemes. The ratings do not indicate the asset management company's (AMC) and/or any of its scheme's willingness and/or ability to make timely redemptions to its investors. The ratings do not address the market risks and hence should not be construed as an indication of the expected returns, the prospective performance of the mutual fund scheme, and the ability to redeem the investments at the reported net asset value (NAV) or the volatility in its past returns as all these are influenced by market risks.

ICRA's assessment of debt mutual fund schemes is guided by the credit ratings of the individual investments, the relative share of the investments in the overall assets under management (AUM) of the scheme and the maturity schedule of such investments. The credit matrix is a tool used by ICRA for analysing the investment portfolio of the debt mutual fund schemes by assessing the portfolio's aggregate credit quality while reviewing the credit quality of each underlying debt security. The portfolio's weighted average credit quality is then measured against the appropriate benchmark credit score in the credit matrix.

Once a mutual fund scheme is rated and the rating is accepted, ICRA reviews the underlying investment portfolios for the credit scores on an ongoing basis. If the portfolio credit score meets the benchmark of the existing rating, the rating is retained. If the portfolio credit score breaches the benchmark credit matrix score for the current rating, ICRA communicates the same to the fund manager/product manager or other officials of the concerned AMC and may provide a month's time to bring the portfolio credit score within the benchmark credit score for the current rating level. If the investment composition of the fund is realigned to bring the portfolio credit score within the benchmark credit score, the rating is retained.

However, if the portfolio continues to breach the benchmark credit score for the existing rating level, the rating is revised to reflect the change in the portfolio's credit quality. In case of sharp breaches of the benchmark credit score (for instance due to a multi-notch downgrade in the underlying investment) and/or if ICRA believes that the breach may not get rectified within

a month of the ongoing review, the rating is generally corrected immediately without giving a month's time for rebalancing the portfolio.

## Liquidity position: Not applicable

### Rating sensitivities

**Positive factors** – Not applicable

**Negative factors** – ICRA could downgrade the ratings of the schemes if the credit quality of the underlying investment deteriorates or the size of the AUM declines, which may result in an increase in the share of lower rated investments, leading to a breach in the threshold for the rating level.

**Negative factors for Edelweiss Overnight Fund** – ICRA could downgrade the rating of the scheme if the credit quality of the underlying investment deteriorates, leading to a breach in the threshold for the rating level.

### About the company

Edelweiss Asset Management Limited (EAML), a subsidiary of Edelweiss Financial Services Limited, acts as the investment manager of Edelweiss Mutual Fund. Edelweiss Mutual Fund was set up as a trust under the Indian Trusts Act, 1882, and was registered on April 30, 2008 under the provisions of SEBI (Mutual Funds) Regulations, 1996. EAML acquired the fund schemes managed by JP Morgan Asset Management India Private Limited in 9M FY2017. It also offers a range of investment solutions for financial planning and wealth creation. The company's average AUM for the quarter ended June 30, 2021 was Rs. 54,406.32 crore<sup>1</sup>.

#### Edelweiss Overnight Fund

Launched in July 2019, Edelweiss Overnight Fund is an open-ended debt scheme investing in overnight securities. The stated objective of the scheme is to generate regular returns by investing in debt and money market instruments with overnight maturity. The scheme invests in instruments with a residual maturity of one business day. It predominantly invests in tri-party repos, etc. The fund's AUM stood at ~Rs. 384 crore as on August 31, 2021.

#### Edelweiss Banking and PSU Debt Fund

Edelweiss Banking and PSU Debt Fund has a stated objective of generating income by investing predominantly in a portfolio of debt securities and money market instruments issued by banks and public-sector undertakings. The fund holds a high proportion of investments with the highest credit quality rating. The scheme's AUM stood at Rs. 452 crore as on August 31, 2021 while the average maturity of the scheme was 7.81 years.

### Complexity level of the rated instrument

Instrument	Complexity Indicator
Mutual Fund	Not Applicable

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [www.icra.in](http://www.icra.in)
