<sup>#</sup> Long-term and short-term fund-based limits include an interchangeable limit of Rs. 8,055 crore; total rated bank facilities stand at Rs. 26,515 crore (including Rs. 10,015.0-crore term loans)

<sup>##</sup> Long-term and short-term fund-based limits include an interchangeable limit of Rs. 7,175 crore; Term loan and short-term fund-based limits include an interchangeable limit of Rs. 100 crore; Term loan, long-term and short-term fund based limits include an interchangeable limit of Rs. 1,830 crore; total rated bank facilities stand at Rs. 29,265 crore

### Rationale

The ratings factor in Muthoot Finance Limited's (MFL) healthy financial risk profile and the scale-up in its consolidated portfolio, which was largely led by the gold loan business. MFL's gold loan book has more than doubled over the last five years to Rs. 54,682 crore as of September 2021 and accounted for about 90% of its consolidated portfolio. The ratings continue to factor in MFL's long track record and its leadership position in the gold loan segment, its established franchise with a pan-India branch network, and its efficient internal controls and monitoring systems. MFL's ability to raise funds from diverse sources and the short-term nature of the loans result in a strong liquidity profile.

ICRA, however, takes note of the performance of the non-gold segments, which are of a relatively lower vintage; the sustained good quality growth and earnings performance of these segments would remain a monitorable. Some of the asset segments, namely microfinance (6% of the consolidated AUM<sup>1</sup> as of September 2021), vehicle finance (0.5%) and affordable housing (3%) recorded higher gross stage 3 (GS3) of 3.6%, 17.0% and 4.7%, respectively, vis-à-vis 1.9% in the gold loan segment as of September 2021 (GS3 at 0.9% in March 2021). ICRA takes note of the higher gold loan auctions undertaken by MFL in H1

<sup>1</sup> Assets under management

FY2022 vis-à-vis FY2021 and FY2020, largely on account of the loan origination in Q1/Q2 FY2021 when gold prices were high. Consequently, the average portfolio loan-to-value (LTV) increased to 73% in September 2021 vis-à-vis 65% in December 2020 (61% in September 2020); this is expected to moderate in H2 FY2022 on account of recovery measures to be followed by the company including auctions. ICRA expects auctions to remain elevated in the remaining part of the current fiscal in case MFL is unable to make recoveries from its overdues via normal collections.

The credit costs in the gold loan business have, however, remained under control in the past, which supported the consolidated earnings performance (PAT/AMA<sup>2</sup> in the range of 5.5-6.5% during FY2018 to H1 FY2022). Improvement in the operating efficiency also supported the earnings profile in FY2021 and H2 FY2022, while the company faced a moderation in margins. ICRA expects the consolidated earnings performance to remain healthy as gold loans would account for about 85-90% of the overall lending portfolio and recoveries from overdues are expected to be good, which would keep the credit costs under control. MFL's capitalisation profile, characterised by a consolidated managed gearing<sup>3</sup> of 3.2 times as of March 2021 (range of 3.0-3.5 times over the last 3-4 years), is expected to remain comfortable over the medium term supported by the expected healthy accruals.

ICRA takes note of the geographical concentration of the branches and the loan book in South India. South India accounts for 60% of MFL's gold loan branches, contributing about 50% to the gold loan book. A demonstrated track record in the non-gold segments and a steady improvement in geographical diversity would be key, going forward, from a rating perspective.

The Stable outlook factors in ICRA's expectation that MFL will continue to benefit from its established operational track record in the gold loan business, which is expected to account for about 85-90% of the consolidated AUM over the medium term, and its comfortable overall financial risk profile.

ICRA has also reaffirmed and withdrawn the long-term rating on the Rs. 1,685.43 crore non-convertible debenture (NCD) programme in accordance with ICRA's policy on the withdrawal of credit ratings as the instruments have matured and have been fully repaid.

## Key rating drivers and their description

### Credit strengths

**Established franchise and leadership position in gold loan segment** – MFL has a track record of around two decades in the gold loan business and is India's largest gold loan focussed non-banking financial company (NBFC) with a total portfolio of Rs. 55,147 crore (of which 99% is gold loan) as on September 30, 2021; the portfolio grew by about 17% on a year on year basis. The consolidated portfolio stood at Rs. 60,919 crore in September 2021 compared to Rs. 52,286 crore in September 2020, of which gold, microfinance and housing accounted for 90%, 6% and 3%, respectively.

As on September 30, 2021, MFL had an extensive pan-India network of 4,619 branches; 60% of its branches are in South India, where it has an established franchise. The strong brand value of Muthoot, its experienced promoters and senior management team, and its efficient internal controls and audit systems are expected to support the overall business growth going forward.

**Track record of healthy earnings performance** – The company's consolidated net profitability remained healthy with the annualised PAT/AMA at 5.6% in H1 FY2022 and 6.1% in FY2021 (6.5% in FY2020). The consolidated net profitability remained in the range of 5.5-6.5% during FY2018 to H1 FY2022. The annualised net interest margin was lower in H1 FY2022 and FY2021 at 10.6% and 11.4%, respectively, vis-à-vis ~13% and 12.9% in FY2020 and FY2019, respectively, because of the higher on-balance sheet liquidity as well as reduction in loan yields. The operating profitability, however, was supported by the

---

<sup>2</sup> Profit after Tax/ (Total assets including off-book AUM)

<sup>3</sup> Managed Gearing= (borrowings + off book AUM)/net worth

improvement in the operating cost ratio to 2.8% in H1 FY2022 (3.3% in FY2021) vis-à-vis 4.3-4.6% during FY2017-FY2020. The earnings performance continues to be supported by the low credit costs (less than 1% over the last 10 years and average of 0.4%) in the gold loan business. ICRA expects the net profitability to stabilise at 5.0% over the medium term.

MFL's (standalone) net profitability was 6.0% in H1 FY2022 and 6.5% in FY2021 (6.8% in FY2020). The annualised return on average net worth (standalone) was about 24.9% in H1 FY2022 (27.8% and 28.3% in FY2021 and FY2020, respectively).

**Capitalisation to remain comfortable over the medium term** – MFL has a comfortable capitalisation profile with a standalone gearing of 3.1 times as on September 30, 2021 and March 31, 2021 (3.2 times as on March 31, 2020), aided by good internal capital generation. The consolidated managed gearing stood at 3.2 times as of September 2021. MFL's standalone net worth was Rs. 16,372.8 crore as on September 30, 2021 (Rs. 15,238.9 crore as on March 31, 2021). The company is expected to be comfortably placed to meet the medium-term capital requirements of its subsidiaries without affecting its own capital structure. ICRA expects MFL's consolidated managed gearing to remain in the range of 3.5-4.0 times over the medium term.

## Credit challenges

**Performance of non-gold segments to remain a monitorable; sizeable share of gold loans would support overall portfolio quality** – MFL's standalone portfolio almost entirely consists of gold loans and it has diversified its exposure via its subsidiaries, namely Belstar Microfinance Limited (Belstar; microfinance), Muthoot Homefin (India) Limited (MHL; affordable housing) and Muthoot Money Limited (MML; vehicle finance). The consolidated portfolio is currently concentrated towards gold loans, comprising 90% of the loan book while microfinance, affordable housing and vehicle finance accounted for 5.5%, 2.7% and 0.5%, respectively, as on September 30, 2021. The loan books of MHL and MML declined by 15% and 39%, respectively, on a year on year basis due to the Covid-19 pandemic, while Belstar registered a growth of 25% on a year on year basis. The subsidiaries faced higher overdues with the GS3 of Belstar, MHL and MML standing at 3.6%, 4.7% and 17.0%, respectively, in September 2021 vis-à-vis 2.4%, 4.0% and 8.6%, respectively, in March 2021. The performance of the non-gold segments was impacted by the Covid-19-related disruptions because of the unsecured nature of the microfinance business and the average credit profile of the borrowers in the housing and vehicle finance segments.

MFL's GS3, however, was lower at 1.9% in September 2021 (0.9% in March 2021). ICRA notes the company's track record in containing credit costs in the gold segment and achieving recoveries in auctions where it typically recovers the principal and a sizeable share of the accrued interest on such loans. Gold loan auctions undertaken by MFL in 6M FY2022 stood at 0.6% (not annualised) of the opening portfolio vis-à-vis 0.4% in FY2021 (1.7% in FY2020). Gold prices declined in H2 FY2021 from the peak level in August 2020 and were about 15% lower as of March 2021. While the prices improved from the March 2021 level, they remained range-bound in 9M FY2022 and were lower than August 2020 by about 10%. Consequently, the share of AUM with LTV of more than 75% increased in September 2021 vis-à-vis the September 2020 levels. The weighted average LTV for gold loans increased to 73% as of September 2021 (75% as of March 2021) from about 61% as on September 30, 2020; this is expected to moderate in H2 FY2022 on account of recovery measures expected to be followed by the company including auctions. ICRA, therefore, expects auctions to remain higher in the remaining part of the year in case the company is unable to recover from its overdue loan accounts via normal repayments.

ICRA expects MFL's asset quality in the gold loan segment, which accounts for the bulk of the consolidated AUM, to remain under control with low credit costs. The overall asset quality and credit costs are expected to remain under control as the subsidiaries are expected to account about 10-15% of the consolidated portfolio over the medium term. MFL's ability to profitably grow its non-gold businesses while maintaining good asset quality would be crucial over the medium to long term, considering the unsecured nature of some of these businesses and the higher inherent risks in these segments compared to gold loans.

**Operations concentrated in South India** – MFL's operations are largely concentrated in South India, which constituted 60% of its total branch network and 50% of its total loan portfolio as on September 30, 2021. ICRA, however, notes that the share of

the portfolio in South India has reduced from 57% in March 2015. Geographical diversification is expected to improve steadily over the medium to long term with an improvement in the scale of the gold loan portfolio and the stabilisation of the performance of the non-gold asset segments.

## Liquidity position: Strong

MFL had cash and liquid investments of Rs. 5,905 crore as on January 07, 2022, with a payment obligation of Rs. 8,646 crore during January 2022-March 2022. A sizeable portion of the repayments comprises cash credit/short-term loans from banks (Rs. 5,640 crore), which are expected to be rolled over, while the commercial paper (CP) and NCD repayments are Rs. 866 crore and Rs. 774 crore, respectively, during the above-mentioned period. Undrawn working capital limits from banks (about Rs. 2,390 crore as on the above date) provide further support to the company's liquidity profile.

MFL has a fairly diversified funding profile with bank/financial institution (FI) loans constituting 47% of its total borrowings as on September 30, 2021, followed by NCDs (27%), external commercial borrowings (ECBs; 15%), CP (8%) and subordinated debt (0.4%). Diverse funding sources help the company maintain a comfortable liquidity position.

## Rating sensitivities

**Positive factors** – ICRA could change the outlook or upgrade the rating if MFL sustains a comfortable overall asset quality and capital profile over the medium to long term. A long track record of good performance in the non-gold segments and improvement in geographical diversity would also positively impact the rating.

**Negative factors** – ICRA could change the outlook or downgrade MFL's ratings if the share of the unsecured assets segment goes beyond 15% or the asset quality weakens significantly, thereby impacting its earnings. An increase in the consolidated gearing beyond 4.5 times on a sustained basis would also negatively impact the ratings.

## Analytical approach

Analytical Approach	Comments

Consolidation/Standalone	To arrive at the ratings, ICRA has considered the consolidated financials of the Muthoot Finance Group. The consolidated financials of the Group include seven subsidiaries as listed in Annexure-2

## About the company

Muthoot Finance Limited (MFL) is the flagship company of the Kerala-based business house, The Muthoot Group, which has diversified operations in financial services, healthcare, real estate, education, hospitality, power generation and entertainment. MFL was incorporated in 1997 and is India's largest gold loan focussed NBFC with total loan assets (standalone) of Rs. 55,146 crore and 4,619 branches as on September 30, 2021. The company derives a major proportion of its business from South India (50% of the total portfolio as on September 30, 2021), where gold loans have traditionally been accepted as a means of availing short-term credit, although MFL has increased its presence beyond South India over the last few years.

MFL reported a standalone net profit of 1,965 crore on an asset base of Rs. 67,460 crore in H1 FY2022 against a net profit of Rs. 3,722 crore on an asset base of Rs. 63,465 crore in FY2021.

The consolidated portfolio stood at Rs. 60,919 crore as on September 30, 2021 compared to Rs. 58,280 crore as on March 31, 2021 (Rs. 46,871 crore as on March 31, 2020), of which gold, housing and microfinance accounted for 90%, 3% and 6, respectively.

## Complexity level of the rated instruments

Instrument	Complexity indicator
NCD Programme	Simple
Bank Facilities	Simple
Sub-debt	Moderately Complex
Commercial Paper	Very Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)

## About ICRA Limited:

ICRA Limited was set up in 1991 by leading financial/investment institutions, commercial banks and financial services companies as an independent and professional investment Information and Credit Rating Agency.

Today, ICRA and its subsidiaries together form the ICRA Group of Companies (Group ICRA). ICRA is a Public Limited Company, with its shares listed on the Bombay Stock Exchange and the National Stock Exchange. The international Credit Rating Agency Moody's Investors Service is ICRA's largest shareholder.

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website [www.icra.in](http://www.icra.in) or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents.
