Rationale and key rating drivers

The ratings are reaffirmed following ICRA's monitoring of the credit risk profile of the month-end portfolio position of the scheme. The credit risk scores for these schemes were comfortably within the benchmark limits for their current rating levels.

ICRA also has rating outstanding on Aditya Birla Sun Life NIFTY SDL Plus PSU Bond Sep 2026 60:40 Index Fund and Aditya Birla Sun Life NIFTY SDL Apr 2027 Index Fund and a provisional rating outstanding on Aditya Birla Sun Life CRISIL AAA Jun 2023 Index Fund. The provisional rating is based on the indicative portfolio of the scheme with the credit score of the indicative portfolio being comfortable at the assigned rating level. On the opening of the scheme for regular investments and after analysing the credit score of the scheme for at least three months, the investment portfolio and its credit score will be benchmarked against the credit matrix to finalise the rating. The rating would not be meaningful/applicable in the absence of the pending action, i.e. the scheme not being launched.

Mutual fund ratings incorporate ICRA's assessment of the creditworthiness of a debt mutual fund scheme's investment portfolio. These ratings are a symbolic representation of the credit risk in the underlying investments or the degree of safety regarding the timely receipt of payments from the investments made by the mutual fund schemes. The ratings do not indicate the asset management company's (AMC) and/or any of its scheme's willingness and/or ability to make timely redemptions to its investors. The ratings do not address the market risks and hence should not be construed as an indication of the expected

returns, the prospective performance of the mutual fund scheme, and the ability to redeem the investments at the reported net asset value (NAV) or the volatility in its past returns as all these are influenced by market risks.

ICRA's assessment of debt mutual fund schemes is guided by the credit ratings of the individual investments, the relative share of the investments in the overall assets under management (AUM) of the scheme and the maturity schedule of such investments. The credit matrix is a tool used by ICRA for analysing the investment portfolio of the debt mutual fund schemes by assessing the portfolio's aggregate credit quality while reviewing the credit quality of each underlying debt security. The portfolio's weighted average credit quality is then measured against the appropriate benchmark credit score in the credit matrix.

Once a mutual fund scheme is rated and the rating is accepted, ICRA reviews the underlying investment portfolios for the credit scores on an ongoing basis. If the portfolio credit score meets the benchmark of the existing rating, the rating is retained. If the portfolio credit score breaches the benchmark credit matrix score for the current rating, ICRA communicates the same to the fund manager/product manager or other officials of the concerned AMC and may provide a month's time to bring the portfolio credit score within the benchmark credit score for the current rating level. If the investment composition of the fund is realigned to bring the portfolio credit score within the benchmark credit score, the rating is retained. However, if the portfolio continues to breach the benchmark credit score for the existing rating level, the rating is revised to reflect the change in the portfolio's credit quality. In case of sharp breaches of the benchmark credit score (for instance due to a multi-notch downgrade in the underlying investment) and/or if ICRA believes that the breach may not get rectified within a month of the ongoing review, the rating is generally corrected immediately without giving a month's time for rebalancing the portfolio.

Liquidity position: Not applicable

Rating sensitivities

Positive factors – ICRA could upgrade the rating of the scheme if the credit quality of the underlying investment improves or the size of the AUM increases significantly, which may result in a decrease in the share of lower rated investments, resulting in enhanced credit quality of the portfolio.

Negative factors – ICRA could downgrade the ratings of the schemes if the credit quality of the underlying investment deteriorates or the size of the AUM declines, which may result in an increase in the share of lower rated investments, leading to a breach in the threshold for the rating level.

For Overnight Fund - ICRA could downgrade the rating of the scheme if the credit quality of the underlying investment deteriorates, leading to a breach in the threshold for the rating level.

The fund's AUM stood at Rs. 17,580 crore as on January 31, 2022 and had an average residual maturity of around 22 months as on that date.

Aditya Birla Sun Life Money Manager Fund

Launched in June 2003, Aditya Birla Sun Life Money Manager Fund is an open-ended income fund. The fund's objective is to provide a regular stream of income while minimising risks arising from interest rate fluctuations or movement by maintaining a low maturity profile of its investments by investing in money market instruments. The fund's AUM stood at Rs. 17,197 crore as on January 31, 2022 and had an average residual maturity of around 4 months as on that date.

Aditya Birla Sun Life Savings Fund

Launched in November 2001, Aditya Birla Sun Life Savings Fund is an open-ended ultra short term income scheme with the objective of providing the convenience of a savings account with the opportunity to earn higher post-tax returns. The fund aims to invest entirely in debt and money market instruments. The fund's AUM stood at Rs. 15,541 crore as on January 31, 2022 and had an average residual maturity of around 7 months as on that date.

Aditya Birla Sun Life Low Duration Fund

Launched in May 1998, Aditya Birla Sun Life Low Duration Fund is an open-ended income scheme. The scheme's key objective is to generate regular income by investing primarily in investment grade fixed income securities and money market instruments

with short to medium term maturities, and investment grade ratings. The fund's AUM stood at Rs. 15,200 crore as on January 31, 2022 and had an average residual maturity of around 14 months as on that date.

Aditya Birla Sun Life Short Term Fund (erstwhile Aditya Birla Sun Life Short Term Opportunities Fund)

Launched in May 2003, Aditya Birla Sun Life Short Term Fund is an open ended debt scheme. The scheme's key objective is to generate income and capital appreciation by investing 100% of the corpus in a diversified portfolio of debt and money market securities. The fund's AUM stood at Rs. 9,327 crore as on January 31, 2022 and had an average residual maturity of around 31 months years as on that date.

Aditya Birla Sun Life Liquid Fund

Launched in June 1997, Aditya Birla Sun Life Liquid Fund was the first open-ended liquid mutual fund scheme in India with a stated objective to provide reasonable returns at a high level of safety and liquidity through judicious investments in high quality debt and money market instruments. The fund's AUM stood at Rs. 30,652 crore as on January 31, 2022 and had an average residual maturity of around 47 days as on that date.

Aditya Birla Sun Life Income Fund

The fund predominantly focuses on long term growth, investing in low risk debt securities such as government securities. It exploits the short term opportunities for its investors without taking undue risk. By investing in fixed income investments of different tenures, the fund exploits investment opportunities and provides better returns. The fund's AUM stood at Rs. 3,129 crore as on January 31, 2022 and had an average residual maturity of around 4 years as on that date.

Aditya Birla Sun Life Corporate Bond Fund

Launched in 1997, Aditya Birla Sun Life Corporate Bond Fund is an open ended debt scheme predominantly investing in AA+ and above rated corporate bonds. The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: www.icra.in
