Rationale and key rating drivers

ICRA has withdrawn the [ICRA]AAAmfs rating assigned to Aditya Birla Sun Life CRISIL AAA June 2023 Index Fund as the scheme has reached its maturity and has been wound up. This is in accordance with ICRA's policy on withdrawal of credit ratings.

Mutual fund ratings incorporate ICRA's assessment of the creditworthiness of a debt mutual fund scheme's investment portfolio. These ratings are a symbolic representation of the credit risk in the underlying investments or the degree of safety regarding the timely receipt of payments from the investments made by the mutual fund schemes. The ratings do not indicate the asset management company's (AMC) and/or any of its scheme's willingness and/or ability to make timely redemptions to its investors. The ratings do not address market risks and hence should not be construed as an indication of the expected returns, prospective performance of the mutual fund scheme, and the ability to redeem investments at the reported net asset value (NAV) or volatility in its past returns, as all these are influenced by market risks.

ICRA's assessment of debt mutual fund schemes is guided by the credit ratings of the individual investments and the relative share of the schemes' allocation towards the investments, besides the maturity schedule of such investments. ICRA's mutual fund ratings are not a reflection of the quality of the management of the AMC or its financial performance, reputation and other business practices including investment strategies, pricing, marketing and distribution activities. Furthermore, the ratings are not a reflection of whether the AMC or the fund is compliant with the applicable regulatory requirements.

The credit matrix is a tool used by ICRA for analysing the investment portfolio of the debt mutual fund schemes by assessing the portfolio's aggregate credit quality while reviewing the credit quality of each underlying debt security. The portfolio's weighted average credit quality is compared with a benchmark credit score corresponding to the higher of the weighted average maturity of the scheme's portfolio or the maturity predefined by ICRA for the scheme category. The rating outcome corresponds to the rating level for which the portfolio's weighted average credit score is less than the benchmark credit score associated with the rating level. Further, the lowest rating of the investments of the scheme acts as the floor for its rating.

Once a mutual fund scheme is rated and the rating is accepted, ICRA reviews the underlying investment portfolios for the credit scores on an ongoing basis. To this end, ICRA relies on the information provided by the AMC and/or publicly available sources. ICRA reviews the mutual fund ratings on a monthly basis or earlier, if required, which involves an evaluation of the rating corresponding to the portfolio credit score in relation to the existing rating outstanding. If the portfolio credit score meets the benchmark score for the existing rating, the rating is retained. If the portfolio credit score has a negative breach from the benchmark credit score for the existing rating, ICRA communicates the same to the fund manager/product manager or other officials of the concerned AMC and may provide a month's time to bring the portfolio credit score within the benchmark credit score for maintaining the existing rating level. If the investment composition of the fund is realigned to bring the portfolio credit score within the benchmark credit score, the rating is retained. However, if the portfolio continues to breach the benchmark credit score for the existing rating level, the rating is revised to reflect the change in the portfolio's credit quality.

In case of sharp breaches of the benchmark credit score (for instance due to a multi-notch downgrade in the underlying investment) and/or if ICRA believes that the breach may not get rectified within a month of the ongoing review, the rating is generally corrected immediately without giving a month's time for rebalancing the portfolio. If the AMC corrects its portfolio, post the rating downgrade of the scheme, or the credit score improves in any manner subsequent to the downgrade, making the scheme eligible for an upgrade, ICRA may consider a rating upgrade only if the credit score is maintained consistently for a period of at least three months.

ICRA has Provisional [ICRA]AAA(SO) rating outstanding on Aditya Birla Sun Life Capital Protection Oriented Fund – Series I and Series II. The provisional ratings are based on the proposed investment mix in terms of the credit quality that the fund manager intends to maintain. The ratings will be finalised after analysing the credit score of the scheme for at least three months. The ratings would not be meaningful/applicable in the absence of the pending action, i.e., if the scheme is not launched/at least three months' portfolio is not available.

Capital protection-oriented mutual fund schemes invest a part of the scheme's assets under management (AUM) in debt instruments and money market instruments with the highest investment grade rating as per Securities and Exchange Board of India (SEBI) guidelines (which would imply a long-term rating of AAA and equivalent). The debt portion is generally sized such that the maturity value of the debt investment is adequate to repay the principal to the investors after factoring in the cash flows on these instruments, a nominal return on the interim cash flows and the operating expenses for managing the scheme. Further, the maturity of the underlying debt instruments is such that it is aligned to be before the maturity of the scheme to minimise/avoid any market risks on maturity/redemption. In case of embedded put options in the debt instruments, the put option date is assumed as the maturity date for such instruments. In case of instruments with a call option, the call option is ignored and the final maturity is considered, which must be before the maturity of the scheme. The balance portion of the scheme's AUM may be invested in other instruments such as equity and equity-related instruments (including their derivatives) to achieve capital appreciation.

Rating sensitivities

Positive factors – Not applicable

Negative factors

For Aditya Birla Sun Life Capital Protection Oriented Fund – Series I and II – ICRA could downgrade the rating of the capital protection-oriented schemes, if the maturity value and interim cash flows from debt holdings of the scheme and the current assets adjusted for operating expenses for managing the scheme are lower than the amount mobilised from the investors, or the underlying investments comprise debt instruments rated below the highest rating level, on a sustained basis.

For Aditya Birla Sun Life Overnight Fund – ICRA could downgrade the rating of the scheme, if the credit quality of the underlying investment deteriorates, leading to a breach in the threshold for the rating level.

For other schemes – ICRA could downgrade the ratings of the schemes, if the credit quality of the underlying investment deteriorates or the size of the assets under management (AUM) declines, which may result in an increase in the share of lower rated investments, leading to a breach in the threshold for the rating level.

Complexity level of the rated instruments: Not applicable

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated.
