Rationale

The ratings factors in the improvement in Northern Arc Capital Limited's (NACL) earnings profile while it scaled up its portfolio and diversified to retail asset segments. NACL's profitability indicators improved further in FY2023 with profit after tax (PAT)/average managed assets (AMA) at 2.7% vis-à-vis 2.6% in FY2022, supported by higher margins and lower credit costs. The assets under management (AUM) grew to Rs. 9,036 crore as of March 2023 from Rs. 7,111 crore in March 2022 (Rs. 5,225 crore in March 2021). The capital profile remained under control during this period as the consolidated managed gearing¹ stood at 3.8 times as of March 2023 (3.6 times as of March 2022).

However, NACL's exposures remain largely towards financial institutions (FI) with moderate risk profiles. Over the years, the company has been gradually reducing its exposure towards FIs by diversifying into the retail segment, mostly via partnership arrangements with smaller non-banking financial companies (NBFCs)/digital platforms, and by engaging in direct lending to the retail segments. NACL acquired the microfinance book of S.M.I.L.E. Microfinance Limited (SMILE) in April 2022 and scaled it up with a business correspondent (BC) arrangement through its subsidiary (Pragati Finserv Private Limited; Pragati). The company is also expected to focus on secured business loans, which it commenced in the recent past. NACL's overall non-FI exposure² continued to increase and stood at 34.8% of the AUM as of March 2023 compared to 23.4% as of March 2022 (18.6% as of March 2021). Within the non-FI segment, corporate finance accounted for 7.2% of the AUM as of March 2023.

ICRA takes note of the concentration of NACL's exposures, with the top 20 exposures accounting for 26% of AUM (118% of net worth) as of March 2023 compared to 30% as of March 2022. ICRA notes that the company has focused on gradually reducing its top 20 exposures over the last few years (60% of the AUM as of March 2015). Going forward, a steady improvement in the concentration profile and the ability to maintain healthy asset quality, especially in the newer retail asset segments, would be key monitorables.

NACL has an established underwriting and risk management system, stemming from its track record and experience in these established asset segments, which would support its growth. It is also expected to derive benefits from Nimbus, its proprietary

¹ (Total borrowings + Off-balance sheet exposures)/Net worth excluding minority interest

² Corporate finance, partnership arrangements and direct retail lending

technology system, which provides a common system for many originator partners³ and investor partners⁴ to access fundraising and investment opportunities and execute transactions online. Nimbus enables the end-to-end processing of debt transactions (from loan application, credit evaluation, generation of legal documentation to transaction execution and closure).

ICRA notes that NACL raised sizeable equity in the past (Rs. 960 crore from FY2014, including Rs. 648 crore in FY2019 and FY2020) from investors such as Leapfrog Financial Inclusion India, IIFL Special Opportunities Fund, Affirma Capital, SMBC Bank, Eight Roads, etc. NACL is expected to maintain its leverage under 4 times on a steady-state basis. Thus, managing growth and securing timely capital infusions, when required, would be crucial going forward.
