Rationale

The ratings factor in Muthoot Finance Limited's (MFL) financial risk profile, characterised by its comfortable capitalisation and healthy earnings profile, notwithstanding the increasing competitive pressure in the gold loan segment in recent quarters. MFL's gold loan book has more than doubled over the last five years to Rs. 66,039 crore as of June 2023 and accounted for about 86% of its consolidated portfolio. The segment reported a slower growth of 8% in FY2023 due to intense competition, especially from banks in H1 FY2023. However, the growth improved to 18% year-on-year (YoY) as of June 2023. The ratings continue to factor in MFL's long track record and its leadership position in the gold loan segment, its established franchise with a pan-India branch network, and its efficient internal control and monitoring systems. MFL's ability to raise funds from diverse sources and the short-term nature of gold loans result in a strong liquidity profile.

ICRA, however, notes the performance of the non-gold segments, which are of a relatively lower vintage. The sustained good quality growth and earnings performance of these segments would remain a monitorable. Some of the asset segments, namely microfinance (9.1% of the consolidated AUM¹ as of June 2023), affordable housing (2.0%) and vehicle finance (0.6%), recorded gross stage 3 (GS3) of 1.6%, 4.0% and 2.5%, respectively, vis-à-vis 4.3% in the gold loan segment as of June 2023 (deteriorated from 3.8% as of March 2023 and 2.1% as of June 2022). ICRA takes note of the sizeable gold loan auctions undertaken by MFL in FY2023 and FY2022 vis-à-vis FY2021 and FY2020, largely on account of the loans originating when gold prices were high and

¹ Assets under management

there were Covid-19 pandemic-related defaults. The gold loan auctions undertaken in FY2023 and FY2022 stood at Rs. 2,203 crore and Rs. 5,211 crore, respectively, vis-à-vis Rs. 171 crore in FY2021 (Rs. 579 crore in FY2020). The average portfolio loan-to-value (LTV) stood at 68% as of June 2023 and 63% as of March 2023 (68% as of June 2022).

ICRA expects the consolidated earnings performance to remain healthy at 4.0-4.5% over the medium term as gold loans continue to account for 85-90% of the overall lending portfolio. Moreover, recoveries from gold loan overdues are expected to be good, which would keep the credit costs under control. Managing the net interest margin (NIM), going forward, in an increasing interest rate and competitive business environment, would be a monitorable. MFL's capitalisation profile, characterised by a consolidated managed gearing of 2.7 times as of June 2023 and 2.6 times as of March 2023 (2.9-3.5 times during FY2018-FY2022), would remain comfortable over the medium term, supported by healthy accruals and moderate growth expectations.

ICRA takes note of the geographical concentration of the branches and the loan book in South India. South India accounts for 59% of MFL's gold loan branches, contributing about 48% to the gold loan book. A demonstrated track record in the non-gold segments and a steady improvement in geographical diversity would be key, going forward, from a rating perspective.

The Stable outlook factors in ICRA's expectation that MFL will continue to benefit from its established operational track record in the gold loan business, which is expected to account for 85-90% of the consolidated AUM over the medium term, and the comfortable overall financial risk profile.

Key rating drivers and their description

Credit strengths

Established franchise and leadership position in gold loan segment – MFL has a track record of around two decades in the gold loan business and is India's largest gold loan focussed non-banking financial company (NBFC) with a total portfolio of Rs. 67,639 crore (of which 98% is gold loan) as of June 2023; the portfolio grew by 19.3% on a YoY basis. The consolidated loan portfolio stood at Rs. 76,799 crore as of June 2023 compared to Rs. 71,497 crore in March 2023, with gold, microfinance and housing accounting for 86.0%, 9.1% and 2.0%, respectively.

As of June 2023, MFL had an extensive pan-India network of 4,742 branches; 59% of its branches are in South India, where it has an established franchise. The strong brand value of Muthoot, its experienced promoters and senior management team, and its efficient internal controls and audit systems are expected to support the overall business growth going forward.

Healthy earnings performance, notwithstanding moderation due to significant competitive pressure in recent quarters – The company's consolidated net profitability {profit after tax (PAT)/average managed assets (AMA)} improved to 5.0% in Q1 FY2024 from 4.6% in FY2023, with better yields leading to healthy margins despite the increasing borrowing cost. However, the profitability declined from 5.5% in FY2022 (6.1% in FY2021), notwithstanding the reduction in on-balance sheet liquidity. The consolidated net profitability remained in the range of 5.5-6.5% during FY2018 to FY2022. The earnings performance continues to be supported by the low credit costs (less than 1% over the last 10 years and average of 0.5%) in the gold loan business. ICRA expects the net profitability to remain at 4.0-5.0% over the medium term.

The share of higher-ticket loans (> Rs. 3 lakh), which generally have lower yields and face higher competition, increased to 20% in September 2020 from 14% in September 2019, and stood at 27% as of June 2023. The operating profitability was also impacted by the increase in the operating cost ratio to 3.3% in FY2023 because of higher advertising costs, business promotion costs and corporate social responsibility (CSR) expenses from 3.0% in FY2022 (3.3% in FY2021; 4.3-4.6% during FY2017-FY2020).

MFL's (standalone) net profitability was 5.3% in Q1 FY2024 and 4.9% in FY2023 (5.9% in FY2022). The annualised return on average net worth (standalone) was 18.5% in Q1 FY2024 and 17.6% in FY2023 (23.5% in FY2022).

Capitalisation to remain comfortable over the medium term – MFL has a comfortable capitalisation profile with a standalone gearing of 2.4 times as of June 2023 and March 2023 (2.8 times as of March 2022), aided by good internal capital generation. The consolidated managed gearing stood at 2.7 times as of June 2023 and 2.6 times as of March 2023 (2.9 times as of March 2022). MFL's standalone net worth was Rs. 21,177.1 crore as of June 2023 and Rs. 21,061.9 crore as of March 2023 (Rs. 18,344.6 crore as on March 31, 2022). The company is expected to be comfortably placed to meet the medium-term capital requirements of its subsidiaries without affecting its own capital structure. ICRA expects MFL's consolidated managed gearing to remain below 4.0 times over the medium term.

Credit challenges

Performance of non-gold segments to remain monitorable; sizeable share of gold loans would support overall portfolio quality – MFL's standalone portfolio consists almost entirely of gold loans and it has diversified its exposure via its subsidiaries, namely Belstar Microfinance Limited (Belstar; microfinance), Muthoot Homefin (India) Limited (MHL; affordable housing) and Muthoot Money Limited (MML; vehicle finance). At present, the consolidated loan portfolio is concentrated towards gold loans, comprising 86.0% of the loan book while microfinance, affordable housing and vehicle finance accounted for 9.1%, 2.0% and 0.6%, respectively, as of June 2023. The loan books of Belstar, MHL and MML grew by 49%, 2% and 151%, respectively, on a YoY basis as of June 2023. The GS3 for the subsidiary companies, viz., Belstar, MHL and MML, stood at 1.6%, 4.0% and 2.5%, respectively as of June 2023 against 5.8%, 2.9% and 6.6%, respectively, as of March 2022. The performance of the non-gold segments was impacted by the pandemic-related disruptions because of the unsecured nature of the microfinance business and the average credit profile of the borrowers in the housing and vehicle finance segments.

MFL's GS3, however, increased to 4.3% as of June 2023 (3.8% as of March 2023) from 3.0% as of March 2022. ICRA notes the company's track record of containing credit costs in the gold segment and achieving recoveries in auctions, whereby it typically recovers the principal and a sizeable share of the accrued interest on such loans. ICRA takes note of the sizeable gold loan auctions undertaken by MFL in FY2023 and FY2022 against FY2021 and FY2020, largely on account of the loans originating when gold prices were high and there were pandemic-related defaults. The gold loan auctions undertaken in FY2023 and FY2022 stood at Rs. 2,203 crore and Rs. 5,211 crore, respectively, against Rs. 171 crore in FY2021 (Rs. 579 crore in FY2020). The average portfolio LTV stood at 68% as of June 2023 and 63% as of March 2023 (68% as of June 2022).

ICRA expects MFL's asset quality in the gold loan segment, which accounts for the bulk of the consolidated AUM, to remain under control with low credit costs. The overall asset quality and credit costs are likely to remain under control as the subsidiaries are expected to account for 15-20% of the consolidated portfolio over the medium term. MFL's ability to profitably grow its non-gold businesses while maintaining good asset quality would be crucial over the medium to long term, considering the unsecured nature of some of these businesses and the higher inherent risks in these segments compared to gold loans.

Operations concentrated in South India – MFL's operations are largely concentrated in South India, which constituted 59% of its total branch network and 48% of its total loan portfolio as of June 2023. ICRA, however, notes that the share of the portfolio in South India has reduced from 57% in March 2015. Geographical diversification is expected to improve steadily over the medium to long term with an improvement in the scale of the gold loan portfolio and the stabilisation of the performance of the non-gold asset segments.

Environmental and social risks

Environmental considerations: Given the service-oriented business of MFL, its direct exposure to environmental risks/material physical climate risks is not significant. Lending institutions can be exposed to environmental risks indirectly through their portfolio of assets, though such risks are not material for MFL as its lending operations primarily encompass gold loans. Nevertheless, there is increasing interest from policymakers towards identifying the exposure of financing companies to carbon emissions through their financing activities. This process is, however, in an early stage and ICRA expects any adverse implications to manifest only over a longer time horizon, giving financing companies adequate time to adapt and minimise the credit implications.

Social considerations: With regard to social risks, data security and customer privacy are among the key sources of vulnerability for lending institutions as material lapses could be detrimental to their reputation and invite regulatory censure. MFL has not faced any significant lapses in this regard. It serves the financing needs of a relatively underserved category of borrowers, which supports social inclusion and economic development.

Liquidity position: Strong

MFL had cash and liquid investments of Rs. 5,997 crore as on August 14, 2023, with a repayment obligation (excluding interest) of Rs. 9,391 crore between August 15, 2023 and November 30, 2023. A sizeable portion of the repayments (Rs. 3,843 crore) comprises cash credit/short-term loans from banks, which are expected to be rolled over, while the NCD and term loan repayments are Rs. 505 crore and Rs. 2,207 crore, respectively, during the above-mentioned period. Undrawn cash credit, working capital funding and term loan limits (about Rs. 674 crore) provide further support to the company's liquidity profile. The short-term nature of gold loans also support the liquidity profile.

MFL has a fairly diversified funding profile with bank/financial institution (FI) loans constituting 60% of its total borrowings as of June 2023, followed by non-convertible debentures (NCDs; 25%), commercial papers (8%) and external commercial borrowings (ECBs; 5%). The cost of funds is expected to increase slightly in the near to medium term as the majority of the bank borrowings are at floating rates.

Rating sensitivities

Positive factors – ICRA could change the outlook or upgrade the rating if MFL sustains a comfortable overall asset quality and capital profile over the medium to long term. A track record of good performance in the non-gold segments and improvement in geographical diversity would also positively impact the rating.

Negative factors – ICRA could change the outlook or downgrade MFL's ratings if the share of the unsecured asset segment goes beyond 15% or the asset quality weakens significantly, thereby impacting its earnings. The increase in the consolidated gearing beyond 4.5 times on a sustained basis would also negatively impact the ratings.

Consolidation/Standalone	To arrive at the ratings, ICRA has considered the consolidated financials of the Muthoot Finance Group. The consolidated financials of the Group include seven subsidiaries as listed in Annexure II

About the company

Muthoot Finance Limited (MFL) is the flagship company of the Kerala-based business house, The Muthoot Group, which has diversified operations in financial services, healthcare, education and hospitality. MFL was incorporated in 1997 and is India's largest gold loan focussed NBFC with total loan assets (standalone) of Rs. 67,639 crore and 4,742 branches as on June 30, 2023. The company derives a major portion of its business from South India (48% of the total gold loan portfolio as on June 30, 2023), where gold loans have traditionally been accepted as a means of availing short-term credit, although it has increased its presence beyond South India over the last few years.

MFL reported a standalone net profit of Rs. 3,474 crore on an asset base of Rs. 72,620 crore in FY2023 against Rs. 3,954 crore and Rs. 70,555 crore, respectively, in FY2022. For Q1 FY2024, it reported a net profit of Rs. 975 crore on an asset base of Rs. 74,248 crore as on June 30, 2023. The consolidated portfolio stood at Rs. 76,799 crore as on June 30, 2023 compared to Rs. 71,497 crore as on March 31, 2023 (Rs. 64,494 crore as on March 31, 2022), with gold, microfinance and housing accounting for 86%, 9% and 2%, respectively.

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)

ABOUT ICRA LIMITED

ICRA Limited was set up in 1991 by leading financial/investment institutions, commercial banks and financial services companies as an independent and professional investment Information and Credit Rating Agency.

Today, ICRA and its subsidiaries together form the ICRA Group of Companies (Group ICRA). ICRA is a Public Limited Company, with its shares listed on the Bombay Stock Exchange and the National Stock Exchange. The international Credit Rating Agency Moody's Investors Service is ICRA's largest shareholder.

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents.
