*Instrument details are provided in Annexure I

Rationale

The ratings factor in Northern Arc Capital Limited's (NACL) track record of operations in the non-banking financial company (NBFC) lending business and its adequate earnings profile. The company's profitability indicators improved in FY2024 with profit after tax (PAT)/average managed assets (AMA) of 2.8% vis-à-vis 2.7% in FY2023, supported by higher margins. The assets under management (AUM) grew by 30% on a year-on-year (YoY) basis to Rs. 11,775 crore as of March 2024 from Rs. 9,036 crore in March 2023 (Rs. 7,111 crore in March 2022). NACL's exposures remain largely towards financial institutions (FIs) with moderate risk profiles. Its underwriting, risk management and information technology (IT) systems are adequate, stemming from the experience in its key target asset segments, which shall support its AUM growth.

Over the years, the company has been gradually reducing its exposure towards NBFCs by diversifying into the retail segment, mostly via partnership arrangements with smaller NBFCs/digital platforms, and by engaging in direct lending to the retail segments. NACL scaled up this segment with a business correspondent (BC) arrangement through its subsidiary (Pragati Finserv Private Limited; Pragati). The company is also expected to focus on secured business loans, which it started providing in the recent past. NACL's overall non-FI (other corporate and retail loans) exposure continued to increase and stood at 43.5% of the AUM as of March 2024 compared to 41.6% as of December 2023 (34.8% as of March 2023). Within the non-FI segment, corporate loans accounted for 5.6% of the AUM as of March 2024.

NACL's capital profile was characterised by a consolidated managed gearing of 4.3 times as of March 2024 (3.8 times as of March 2023) and the capital-to-risk weighted assets ratio (CRAR) was adequate at 18.6%. ICRA notes that the company received equity funding of ~Rs. 382¹ crore in April 2024, which would have brought down the leverage to adequate levels. NACL has filed a draft red herring prospectus (DRHP) and is planning to launch an initial public offering (IPO) in H1 FY2025.

ICRA takes note of the concentration of NACL's exposures, with the top 20 exposures accounting for 20% of the AUM (103% of net worth) as of March 2024 compared to 30% as of March 2022. ICRA notes that the company has focussed on gradually reducing its top 20 exposures over the last few years (60% of the AUM as of March 2015). Going forward, a steady improvement

¹ From International Financial Corporation (IFC) and others

in the concentration profile and the ability to maintain healthy asset quality, especially in the newer retail asset segments, would be key monitorables.

The stable outlook reflects company's adequate capital profile and ICRA's expectation of a rangebound asset quality and profitability profile in the near term.

Key rating drivers and their description

Credit strengths

Adequate track record in key target asset segments – NACL has a track record of more than 15 years in the placement (arranging funding for its clients via loan syndication, securitisation and assignment among others) and lending businesses. It provides diverse financing solutions to NBFCs operating in different segments and small & mid-sized corporates. NACL has built relationships with more than 1,000 investor partners, including NBFCs, banks, mutual funds, insurance companies, development finance institutions, private wealth institutions and alternative investment funds (AIFs) among others, which participate in the loan syndication and securitisation transactions facilitated by the company. It also has partnerships with more than 300 originators.

The consolidated AUM grew by 30% YoY to Rs. 11,775 crore as of March 2024 (compound annual growth rate (CAGR) of around 29% from March 2020). As of March 2024, the AUM comprised advances to NBFCs and corporates (40.9%), investment in debt instruments (13.1%; directly and via AIFs), advances to retail via partners (25.7%), direct retail loans (11.7%), managed direct assignment (DA) book (6.7%), subordinated tranches of retail loan pools and DA (1.4%) and guarantees (0.5%). On an asset class basis, NACL's exposure to the microfinance segment was 17% as of March 2024, including the direct retail book (26% in March 2023 and 24% in March 2022). Other key asset classes, namely small business loans, vehicle finance and consumer finance (including direct exposures on loans originated by partners), stood at 26%, 7% and 26%, respectively, as of March 2024.

NACL, via its subsidiary (Northern Arc Investment Managers Private Limited; NAIM), manages five AIFs with a total fund AUM of about Rs. 2,668 crore as of March 2024. Its exposure to these funds was minimal (0.1% of the fund AUM) as of March 2024, following the regulatory directive on investments in AIFs for regulated entities (REs).

The company has a nine-member board comprising four independent directors, including the Chairman, and three nominee members from the private equity (PE) investors/shareholders. NACL benefits from the experience of its senior management team across key business functions.

Nimbus, the proprietary technology system, provides a common system to NACL's originator and investor partners to access fundraising and investment opportunities and execute the entire debt transactions online. N-POS, an extension of Nimbus, is designed to support retail co-lending transactions with originator partners, including underwriting capabilities (Nu Score), as a platform service to FIs. Altifi, a bond trading platform, allows individual and small corporate investors to invest directly in fixed income instruments. Overall, NACL's technology systems are expected to provide value-added services to both investors and partners, which can support fee-based income going forward.

Share of retail segment expected to increase – NACL's retail exposures, direct and via partners, stood at 37% of the AUM as of March 2024 vis-à-vis 16% in March 2022 (10% in March 2021). It increased its retail segment exposures, namely consumer loans, small business loans and microfinance, via partnership arrangements with other NBFCs/digital platforms. These exposures are generally covered by a first loss default guarantee (FLDG) from REs, which currently limit their credit risk to an extent. The share of these loans stood at 25.7% of the AUM as of March 2024 vis-à-vis 24.2% as of December 2023 (15.4% in March 2022).

Following the acquisition of the microfinance business of SMILE on a slump sale basis in April 2022, SMILE's loan portfolio was taken over by NACL and it commenced direct retail lending in the microfinance asset segment with Pragati acting as its BC. As of March 2024, direct lending in the microfinance asset segment stood at 6.4% of the AUM (7.2% as of December 2022). NACL

also started providing secured business loans in FY2023, which stood at 5.2% of the AUM as of March 2024 (3.9% as of December 2023), spread across four states at present. This book is expected to remain regionally focussed on South India over the near-to-medium term to maintain tight control on the asset quality. While the diversification in the retail segments, at present, is largely in the unsecured asset segments, the existence of FLDGs and NACL's internal sectoral exposure cap of 30% of the AUM provide support to its risk profile.

Improvement in profitability indicators – NACL's consolidated revenue includes income from the lending portfolio, fee income from syndication services, and investment and management income from the AIFs. Its income growth accrued predominantly from balance sheet expansion with its AUM increasing at a CAGR of about 29% from March 2020. On the other hand, the contribution of placement fee income remained modest as a proportion of net interest income (5% in FY2024, 8% in FY2023 and 14% in FY2022). The yield on loans improved to 17.7% in FY2024 from 15.1% in FY2023 (13.4% in FY2022), partly supported by the increase in the proportion of the high-yielding retail segment in the AUM, thus resulting in a higher margin in FY2024 and FY2023. Correspondingly, the operating expense ratio (as a proportion of average managed assets) increased to 5.7% in FY2024 and 4.4% in FY2023 from 3.1% in FY2022 (2.3% in FY2021). NACL maintained its overall expected credit loss (ECL) provision at 1.4% and 1.3% of AUM as of March 2023 and March 2024, respectively. Accordingly, its net profitability improved further to 2.8% in FY2024 from 2.7% in FY2023 (2.6% in FY2022).

ICRA takes note of the expected increase in the share of retail loans, including the direct retail lending business. The company's ability to keep the operating and credits cost under control, in view of the above, while maintaining the margins given the increasing interest rate scenario, would be key from an incremental profitability perspective.

Credit challenges

Concentrated exposure to entities with moderate risk profiles; controlling asset quality in newer segments would be key monitorable – NACL remains exposed to moderate borrower profiles as it predominantly lends to small and mid-sized NBFCs and corporates. Its exposures are concentrated, with the top 20 entities accounting for about 20% of the AUM (103% of net worth) in March 2024 (28% in December 2022) because of the institutional nature of its exposure to NBFCs and corporates. NACL's unrated exposures stood at 21.5% (excluding co-lending, retail book, AIF, guarantees & DA) of the AUM as of March 2024. Its exposure to the microfinance segment was 17% as of March 2024, including the direct retail book (26% in March 2023 and 24% in March 2022). The company commenced direct lending in the secured business loan segment in Q4 FY2022, which had grown to 5.2% of the AUM from 2.2% as of June 2023.

ICRA notes that the company kept the asset quality under control in FY2024, with minimal incremental slippages in its wholesale book. The overall 90+ days past due (dpd) stood at 0.3% of the AUM (excluding guarantees and DA) as of March 2024 vis-à-vis 0.4% as of December 2023. The retail book originated via partnerships (25.7% of the AUM as of March 2024) has some FLDG coverage, which is typically invoked once the assets become 90+ dpd. With the 90+ dpd in this book at 0.1%, NACL is expected to be made good through the existing FLDG. Thus, the credit losses are expected to be minimal. ICRA notes that the share of pass-through certificates (PTCs; largely subordinated investments) has reduced steadily over the past few years and stood at 0.5% of the AUM in March 2024 vis-à-vis 1.4% in December 2022. It is noted that NACL has a relatively lower track record and portfolio seasoning in the retail segment, which remains a monitorable, given the average risk profile of these borrower segments.

Capital infusion critical for medium-term growth plans – With the sizeable expansion in its AUM in recent years, NACL's managed gearing (consolidated) increased to 4.3 times (3.8 times as of March 2023 and 3.6 times as of March 2022) while net worth/AUM (standalone) declined to 19.3% as of March 2024 from 20.6% as of December 2023 (24.2% as of March 2022). The capital adequacy ratio stood at 18.6% as of March 2024 compared to 19.3% in December 2023, partly impacted by the higher risk weight on consumer credit (~19% of the overall AUM).

NACL raised capital of ~Rs. 382 crore in April 2024 from a new investor. Further, it has filed a DRHP, planning to launch an IPO in H1 FY2025. This is expected to support it in maintaining its managed gearing under 4 times over the medium term. ICRA

notes that NAACL raised sizeable equity in the past (Rs. 960 crore from FY2014, including Rs. 648 crore in FY2019 and FY2020) from investors such as Leapfrog Financial Inclusion India, IIFL Special Opportunities Fund, Affirma Capital, SMBC Bank, Eight Roads, etc.

Liquidity position: Adequate

As of March 31, 2024, NAACL had positive mismatches across all the buckets of the structural liquidity statement. The average tenor of the loan/investment portfolio is 1-2 years. On the other hand, NAACL has secured a sizeable portion of its borrowings from longer-tenor loans (average tenor of ~3 years) while only 13% of the total borrowings was from short-term sources including commercial paper, cash credit and working capital demand loans as of March 2024. As of March 2024, term loans, working capital facilities from banks and FIs, NCDs (including sub-debt), external commercial borrowings, commercial paper and PTCs accounted for 66%, 7%, 11%, 8%, 5% and 3%, respectively, of the total borrowings.

NAACL had cash and liquid investments of Rs. 1,042.0 crore and undrawn bank lines of Rs. 1,405.0 crore as on April 30, 2024, against repayment obligations of Rs. 3,099.0 crore during May 2024 to October 2024. The monthly collection efficiency remained robust throughout FY2024.

Rating sensitivities

Positive factors – A significant increase in the scale and diversification to retail asset classes, while keeping tight control over delinquencies, could lead to a positive impact on the ratings. A sustained reduction in the exposure concentration could also positively impact the ratings.

Negative factors – A sustained deterioration in the asset quality (90+ dpd/AUM beyond 3.0%), impacting the earnings performance, could lead to a negative impact on the ratings. An increase in the managed gearing beyond 4.0 times on a sustained basis would also negatively impact the ratings.

About the company

Northern Arc Capital is a systemically important NBFC. It acts as a platform in the financial services sector with the objective of catering to the diverse credit requirements of underserved households and businesses by providing access to debt finance. This is done either through direct lending and investments or by providing syndication and structuring services. The company commenced its business by targeting microfinance institutions (MFIs) and has diversified into other sectors including micro, small, and medium enterprise (MSME) finance, vehicle finance (includes commercial vehicle and two-wheeler finance), consumer finance, affordable housing finance and agricultural supply chain finance. Further, over the years, NAACL has steadily diversified across products, geographies, and borrower segments. Nimbus, NAACL's proprietary technology system, forms the backbone of its growth as a platform and enables the scaling up of business operations with execution and functional efficiency and data analytics.

As of December 2023, on a fully-diluted basis, IIFL Special Opportunities Fund was the largest shareholder with a stake of 25.6% in NAACL, followed by Leapfrog Financial Inclusion India II Limited (22.5%), Augusta Investments II Pte Ltd (19.5%), Eight Roads Investments (Mauritius) (II) Limited (10.2%), Dvara Trust (7.5%), Accion (5.8%), SMBC (5.3%) and others (3.6%).

Northern Arc Investment Managers Private Limited

Incorporated in February 2014, Northern Arc Investment Managers Private Limited (NAIM) is a wholly-owned subsidiary of NACL, which provides investment management services to several AIFs. The company manages five AIFs, at present, while it has already provided full exit from four other AIFs. It also manages two portfolio management services (PMS) strategies.

Northern Arc Investment Adviser Services Private Limited

Incorporated in September 2012, Northern Arc Investment Adviser Services Private Limited (NAIAPL) is a wholly-owned subsidiary, which provides investment advisory services.

Northern Arc Foundation

It was constituted as a Section 8 company (not for profit) in FY2019. NACL holds a 100% stake in the company. Northern Arc Foundation is primarily engaged in the business of, inter alia, providing vocational training and skill training for the development of members of marginalised communities, conducting workshops, seminars and symposiums, carrying out educational programmes for social upliftment, and undertaking research to identify areas for improving the standard of living.

Pragati Finserv Private Limited

Pragati is a recently incorporated subsidiary of NACL (90% stake). In April 2022, NACL had acquired the microfinance business of SMILE. Pragati is operating as a BC for the direct MFI lending of NACL.

Northern Arc Securities Private Limited

It was established to run the bond platform – Altifi, an alternative retail debt investment platform, which facilitates fixed income investments for individuals and small corporates. The company has applied for stockbroker registration in the debt segment with the NSE and BSE.

Complexity level of the rated instrument

| Instrument | Complexity Indicator |
|-----------------------------------|----------------------|
| NCD | Simple |
| MLD | Moderately Complex |
| Long term – Fund-based limits | Simple |
| Long term – Term loan | Simple |
| Long term – Non-fund based limits | Very Simple |
| Short-term bank facilities | Simple |
| Commercial paper | Very Simple |

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents.
