### Rationale

Vide a release in the stock exchanges dated June 09, 2024, Suprajit Engineering Limited (SEL/the company) has announced that it has signed a share and asset purchase agreement for the acquisition of the business of Stahlschmidt Cable Systems (SCS), out of insolvency proceedings in Germany. Headquartered in Germany, SCS is a light duty cable maker with plants in Morocco, Canada and China. The acquisition is subject to compliance of certain precedents and will be completed in two tranches in FY2025. The enterprise value of the acquisition is pegged at €13.5 million (~ Rs.122 crore<sup>1</sup>) and the transaction is being funded by internal accruals and cash in SEL's books. SCS is expected to add €50 million (~ Rs. 452 crore<sup>1</sup>) in revenues to SEL on an annual basis, once the transaction is complete.

ICRA notes that the acquisition is in line with the company's strategy to strengthen its global footprint and is unlikely to have any material impact on SEL's credit profile. ICRA would continue to monitor the turnaround and integration of the acquired entity, and its impact on SEL's consolidated operating profit margins.

#### Complexity level of the rated instruments

Instrument	Complexity Indicator
Long-term Fund-based – Cash Credit	Simple
Long-term Fund-based – Term Loan	Simple
Short-term – Non-fund Based Working Capital Facilities	Very Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects.
