Rationale

In a recent ruling, the Hon'ble Supreme Court of India upheld the state governments' power to tax mineral rights and mineral-bearing lands under Entries 49 and 50 of List II in the Constitution's Seventh Schedule. On August 14, 2024, the Supreme Court ruled that states have the discretion to decide on the retrospective application of the tax. However, any tax demand will not impact transactions conducted before April 1, 2005. In case of retrospective tax demand, payments will be spread over 12 years, starting from April 1, 2026. Additionally, interest and penalties on demands for the period before July 25, 2024, will be waived for all assesses. The states are yet to come out with their decision on imposition of such retrospective tax.

ICRA will assess the impact of the Supreme Court ruling on The Sandur Manganese & Iron Ores Limited given that it is involved in mining operations and take appropriate action when further clarity emerges from the states with respect to taxation of mineral rights following the Supreme court ruling.
