Rationale

ICRA has downgraded and moved the rating for the bank facilities of Sri Siddhartha Academy of Higher Education (SSAHE) to the 'Issuer Not Cooperating' category. The rating is denoted as "[ICRA]BB+(Stable); ISSUER NOT COOPERATING".

The rating downgrade is because of lack of adequate information regarding SSAHE's performance and hence the uncertainty around its credit risk. ICRA assesses whether the information available about the entity is commensurate with its rating and reviews the same as per its "Policy in respect of non-cooperation by a rated entity" available at www.icra.in. The lenders, investors and other market participants are thus advised to exercise appropriate caution, while using this rating as the rating may not adequately reflect the credit risk profile of the entity, despite the downgrade.

As a part of its process and in accordance with its rating agreement with SSAHE, ICRA has been trying to seek information from the entity so as to monitor its performance. Further, ICRA has been sending repeated reminders to the entity for payment of surveillance fee that became due. Despite multiple requests by ICRA, the entity's management has remained non-cooperative. In the absence of requisite information and in line with the aforesaid policy of ICRA, the rating has been moved to the "Issuer Not Cooperating" category. The rating is based on the best available information.

Please refer to the following link for the previous detailed rationale that captures key rating drivers and their description, liquidity position, rating sensitivities: [Click here](#). ICRA is unable to provide the latest information because of non-cooperation by the entity.

Complexity level of the rated instruments

Instrument	Complexity Indicator
Long-term – Fund-based – Term loans	Simple
Long-term – Unallocated limits	Not Applicable

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)
