| Long term – Fund-based - Term Ioan | 321.93 | 321.93 | [ICRA]AA+; placed on rating watch with developing implications |
| Long term - Fund-based - Working capital facilities | 1,825.00 | 1,825.00 | [ICRA]AA+; placed on rating watch with developing implications |
| Short term - Non-fund based - Working capital facilities | 963.44 | 963.44 | [ICRA]A1+; placed on rating watch with developing implications |
| Commercial paper* | 300.00 | 300.00 | [ICRA]A1+; placed on rating watch with developing implications |
| Total | 3,410.37 | 3,410.37 | |

* Instrument details are provided in Annexure-I; * carved out of working capital limits

Rationale

Material Event

On December 10, 2024, Triveni Engineering and Industries Limited (TEIL) announced that the board has approved a composite scheme of arrangement among TEIL (amalgamated company/demerged company), Sir Shadi Lal Enterprises Limited (SSEL; amalgamating company), Triveni Power Transmission Limited (TPTL; resulting company) and their respective shareholders/creditors.

As part of the scheme, SSEL, which is a subsidiary of TEIL¹, shall be amalgamated with TEIL. Post amalgamation, the shares held by TEIL in SSEL shall be cancelled and SSEL shall stand dissolved. For every 137 equity shares of SSEL with a face value of Rs. 10 each, the shareholders will be entitled to receive 100 equity shares with a face value of Re. 1 each in TEIL. There will be no cash consideration in the transaction.

After the amalgamation, the power transmission business (PTB) of TEIL shall be transferred to TPTL on a going-concern basis. For every 3 equity shares of Re. 1 each held in TEIL, the shareholder will be entitled to receive one equity share of Rs. 2 each of TPTL. There will be no cash consideration in the transaction. Further, TPTL shall be listed on the stock exchanges, subject to necessary approvals.

As per the company management, the rationale behind the amalgamation of TEIL and SSEL is because both the companies are in the same line of business i.e. sugar and distillery. Hence, the proposed amalgamation would lead to operational and financial synergies for the company. Further, the PTB business caters to a different market segment/customers compared to the sugar business. Hence, the demerger will enable the sugar and the PTB businesses to grow separately.

¹ TEIL holds 61.77% in SSEL

Impact of Material Event

The PTB business reported revenue of ~Rs. 292 crore (4.75% of TEIL's revenue) and profit before interest and tax (PBIT) of Rs. 107 crore (~17% of TEIL's PBIT) in FY2024. Hence, it provides a cushion against the cyclicality of the sugar business and stability to TEIL's cash flows in case of any downturn in sugar business.

However, the extent of the impact on the credit profile of TEIL would be ascertained upon successful completion of the above scheme of arrangement. The amalgamation is expected to be completed by April 2025 and the demerger is expected to be completed in 15 months, subject to the receipt of the requisite approvals. ICRA would continue to monitor the developments related to the transaction and take appropriate rating action, as required.

Analytical approach

| Analytical Approach | Comments |
|---------------------------------|--|
| Applicable rating methodologies | Corporate Credit Rating Methodology |
| Parent/Group support | Sugar Not Applicable |
| Consolidation/Standalone | For arriving at the ratings, ICRA has considered the consolidated financial statement of TEIL; the list of entities consolidated are enlisted in Annexure II |

About the company

TEIL is an integrated sugar manufacturing company with a current cane crushing capacity of 70,500 TCD (including SSEL's capacity which is a subsidiary of TEIL), a distillery capacity of 860 kilolitres per day (KLPD) (not including SSEL's distillery capacity of 100 KLPD) and a co-generation capacity of 104.5 megawatt (MW) spread across seven locations in Uttar Pradesh (UP). TEIL forayed into the production of country liquor in FY2021, thus facilitating forward integration. The company runs engineering businesses that include a gear division in Mysore, manufacturing high-speed gears. It also has a water business division in Noida, which is involved in water treatment equipment and plants.

Key financial indicators (audited)

Complexity level of the rated instruments

| Instrument | Complexity Indicator |
|--|----------------------|
| Long term – Fund-based - Term loan | Simple |
| Long term – Fund-based - Working capital facilities | Simple |
| Short term - Non-fund based - Working capital facilities | Very Simple |
| Commercial paper | Very Simple |

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: <u>Click Here</u>
