Total	12.50	12.50	

*Issuer did not cooperate; based on best available information.

[^]Instrument details are provided in Annexure-I

Rationale

ICRA has kept the Long-Term and Short-term ratings of Marks Engineering Works in the 'Issuer Not Cooperating' category. The ratings are denoted as "[ICRA]B+(Stable); ISSUER NOT COOPERATING/[ICRA]A4; ISSUER NOT COOPERATING".

As part of its process and in accordance with its rating agreement with Marks Engineering Works, ICRA has been trying to seek information from the entity so as to monitor its performance. Further, ICRA has been sending repeated reminders to the entity for payment of surveillance fee that became due. Despite multiple requests by ICRA, the entity's management has remained non-cooperative. In the absence of requisite information and in line with the aforesaid policy of ICRA, the rating has been continued to the "Issuer Not Cooperating" category. The rating is based on the best available information.

Please refer to the following link for the previous detailed rationale that captures Key rating drivers and their description, Liquidity position, Rating sensitivities, Key financial indicators: [Click here](#). ICRA is unable to provide the latest information because of non-cooperation by the entity.

Analytical approach

Analytical Approach	Comments
Applicable Rating Methodologies	Policy in respect of non-cooperation by the rated entity Corporate Credit Rating Methodology
Parent/Group Support	NA
Consolidation/Standalone	Standalone

Complexity level of the rated instrument

Instrument	Complexity Indicator
Long Term Fund Based-Cash Credit	Simple
Term Loan	Simple
Short Term Fund Based-Cash Credit	Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments, is available on ICRA's website: [Click Here](#)
