Rationale

ICRA has withdrawn the rating assigned to the bank facilities of Strides Pharma Science Limited (SPSL) at the request of the company, based on the No Objection Certificate (NOC) received from the banker and in accordance with ICRA's policy on withdrawal of ratings.

However, ICRA does not have information to suggest that the credit risk has changed since the time the rating was last reviewed. The key rating drivers, key financial indicators, liquidity position, rating sensitivities and environmental and social risks have not been captured as the rated instruments are being withdrawn. The previous detailed rating rationale is available at the following link: [Click here.](#)

About the company

Strides Pharma Science Limited, incorporated in 1990, is a medium-sized pharmaceutical company that develops, manufactures and exports a wide range of pharmaceutical products. The company has followed both organic and inorganic growth strategies over the years, that has led to its foray into new markets and the addition of new businesses, therapy segments and manufacturing infrastructure. The company's product range covers most dosage forms including soft gel capsules, tablets, capsules and semi-solids. At present, its business is broadly classified into regulated market formulations

(mainly comprising the US, the UK, Europe and Australia), emerging markets (primarily Africa) and institutional segments (tender-driven business mainly in developing markets). As on September 30, 2024, 25.84% of the company's shareholding was held by the promoter Group, with the rest held by various institutions and the public.

Complexity level of the rated instruments

Instrument	Complexity Indicator
Long-term Fund Based - Term Loans	Simple
Long-term Fund-based Facilities	Simple
Short-term Non-Fund Based Facilities	Very Simple
Unallocated Facilities	Not Applicable

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects.
