Rationale

The pass-through certificates (PTCs) are backed by small group and Jana Kisan loan receivables originated by Jana Small Finance Bank Limited {JSFBL; rated [ICRA]A-(Stable)}. JSFBL is the servicer for the rated transactions.

The rating reflects the inadequacy of the collections and the available credit enhancement for meeting the promised payouts to the PTC investors on the scheduled maturity dates. The incremental collections in the pools have remained low and the PTCs remain in default. The collections in the pools were adversely impacted due to the financial crisis faced by the underlying borrowers after the demonetisation event.

Transaction structure

For all the transactions, interest to PTC investors was promised on a monthly basis and principal was expected to be paid every month but promised on final maturity date. The residual cash flows from the pool, after meeting the promised and expected payouts, were used for the prepayment of PTC principal. Further, all prepayment in the pools was used for the prepayment of PTC principal.

Key rating drivers and their description

Credit strengths

Not applicable

Credit challenges

Sustained weak collection performance in the pools - The collection performance of the underlying loans was healthy till the October 2016 collection month. However, post demonetisation, the monthly collection levels declined significantly. Collections from overdue contracts have also been poor.

Shortfall in meeting promised payouts - Pool collections together with available credit enhancement were insufficient to meet the promised payouts to the PTC investors on their respective maturity dates. Collections were also impacted in FY2021 due to the Covid-19 pandemic and subsequent lockdowns.

Liquidity position: Poor

The CC available in the transactions has been completely utilised as of the scheduled maturity dates. Further payouts to the PTC investors are to be met through collections from the overdue loan contracts in the underlying pools. Considering the collection trend in recent months, the full repayment of the PTCs is unlikely in the near to medium term.
