### Rationale

### Material Event

On February 23, 2025, Healthcare Global Enterprises Limited (HCG) informed the stock exchanges about the signing of definitive agreements between HCG, KKR group (KKR) and Aceso Company Pte Ltd. (CVC), through which KKR will become the largest shareholder in HCG and assume sole control of HCG's operations.

ICRA notes that as part of the transaction, KKR will acquire up to 54% of equity in HCG from CVC once the necessary regulatory approvals are received. Pursuant to the Securities and Exchange Board of India's (SEBI) takeover regulations, an open offer will be conducted by KKR to purchase additional equity shares in HCG from public shareholders. Upon completion of the open offer, KKR is expected to hold an equity stake of between 54-77%. ICRA also understands that Dr. BS Ajaikumar, promoter of HCG, will take on the role of Non-Executive Chairman and will be focused on driving clinical, academic and research and development going forward.

ICRA has noted the above event and expects the same to remain credit neutral for HCG. That said, ICRA will continue to monitor any development in this regard and take appropriate rating action, if necessary.

## About the company

Healthcare Global Enterprises Limited, established in 1989, is present primarily in oncology with the largest cancer care network (21 cancer care centres including Center of Excellence as on September 30, 2024) and three multi-speciality hospitals. It is promoted by Dr. B.S. Ajai Kumar, a radiation and medical oncologist with over 30 years of experience. It was started by Dr. Kumar and four other oncologists as a single cancer care centre, namely Bangalore Institute of Oncology. Thereafter, the company rapidly expanded its presence to Ahmedabad, Chennai, Nasik, Kolkata, Ranchi, Rajkot, Cuttack, Hubli, Mumbai, Nagpur, Vizag, and Vijayawada, among others. The company is present across the oncology value chain, offering services from prevention, screening, diagnosis and treatment to rehabilitation, supportive care, and palliative care.

Before the recent announcement, the company and its promoter has an investment agreement with Aceso Company Pte Ltd. (CVC Group) which was signed in June 2020. After subsequent equity infusion, a majority stake of 60.4% (on fully diluted basis) of HCG was held by the CVC Group. Following the investment, KKR, which is a leading global investment firm, will become the largest shareholder in HCG and assume sole control of HCG's operations.

HCG Medi-Surge was incorporated in 2000 in Ahmedabad and currently provides services related to cancer care. It increased the number of beds to 101 in FY2019 from 78 in FY2018. HCG and Astha Oncology Private Limited are the shareholders of the company.

### Complexity level of the rated instrument

Instrument	Complexity Indicator
Long Term – Fund based – Cash Credit	Simple
Long Term - Fund based – Term Loan	Simple
Short Term - Non-fund based	Very Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click here](#)
