Total	25,584.00	34,434.00	

*Instrument details are provided in Annexure I

Rationale

The ratings reflect India Infradebt Limited's (Infradebt) strong asset quality and liquidity, aided by the relatively tighter regulatory framework, the limited interest rate risk, and the comfortable capitalisation profile supported by strong shareholders. The ratings also consider the experienced management team, prudent underwriting norms and healthy profitability indicators. The company's strength is reflected in its key shareholders, namely ICICI Bank Limited (rated [ICRA]AAA (Stable)/[ICRA]A1+) and Bank of Baroda (rated [ICRA]AAA (Stable)/[ICRA]A1+), while Citicorp Finance (India) Limited (rated [ICRA]AAA (Stable)/[ICRA]A1+) and Life Insurance Corporation of India Limited are the other shareholders. Given the wholesale nature of the loans, the concentration risk remains relatively high. However, ICRA draws comfort from the tighter regulatory framework and the company's good risk management systems as reflected by the strong asset quality indicators.

ICRA notes that the scope of lending and fund-raising options has been expanded for non-banking financial companies-infrastructure debt funds (NBFC-IDFs) by the Reserve Bank of India (RBI) over the years. The impact of the same on the loan and borrowing mix would be visible only over the medium term. Also, the capital requirement (minimum Tier I requirement increased to 10% from 7.5%) and exposure norms (maximum permissible single party exposure capped at 30% of Tier I capital compared with higher limits earlier) have been tightened, though Infradebt is well within the threshold for both these parameters. While portfolio vulnerability can increase, given the expansion of the scope and the requirement of tripartite agreements being made optional, the company's good underwriting and risk guardrails should help it in managing the incremental risk. Further, ICRA notes that if the RBI's draft regulations on provisioning for project finance are implemented in the current format, the impact on the reported capital adequacy of NBFC-IDFs will be marginal. Moreover, the company has sufficient buffer in its Tier I capital to absorb any impact. Going forward, Infradebt's ability to grow its loan book, while maintaining prudent capitalisation levels and strong asset quality indicators on a steady-state basis, would be the key monitorable.

The Stable outlook reflects ICRA's expectation that the company would continue to report strong asset quality indicators while growing its business volumes, supported by its robust risk management systems.

ICRA has reaffirmed and withdrawn the rating assigned to the Rs. 1,150-crore non-convertible debenture (NCD) programme as no amount is outstanding against the same. The rating has been withdrawn in accordance with ICRA's policy on the withdrawal of credit ratings.

Key rating drivers and their description

Credit strengths

Strong asset quality; regulatory framework necessitates lending to operational projects, reducing overall business risk – Infradebt's portfolio grew by 17% on an annualised basis in 9M FY2025, in line with the 4-year compound annual growth rate (CAGR) of ~16% during FY2020-FY2024, to Rs. 24,048 crore as on December 31, 2024 from Rs. 21,300 crore as on March 31, 2024. This was supported by the growth across the solar renewable and storage/logistics segments. The share of the renewable energy segment remained the highest at 72% of the portfolio as on December 31, 2024, followed by road projects (8%) and airports (8%), with the balance spread across other sectors (data centres, storage/logistics, hotels, telecom, electricity transmission and education).

The regulatory framework for IDFs necessitates lending/investment in infrastructure projects with at least one year of satisfactory commercial operations and also allows direct lending to toll-operate-transfer (TOT) projects. Hence, construction and execution risks are nil and the operating risk is low, given the track record of operations, though ICRA notes that the requirement of tripartite agreements is now optional. This exposes the IDFs to the risk of higher loss given defaults (LGDs) associated with the project in the event of termination. Nevertheless, the LGDs of the road and renewable energy sectors are likely to remain low and the asset quality of these operational projects (including projects without tripartite agreements) is expected to be stable, given the lower risks compared to non-operational projects. Overall, ICRA expects Infradebt to continue growing at a steady pace of 15-20% over the near-to-medium term. The company's ability to grow the loan book in a diversified manner would remain a key monitorable, though the renewable energy sector would continue to dominate the portfolio mix over the medium term.

Experienced management team – The ratings draw comfort from the company's experienced senior management team with considerable expertise in the infrastructure financing space. Infradebt has a demonstrated track record in underwriting and superior risk management. It is expected to follow prudent policies while increasing the scale of operations with sectoral diversification.

Strong liquidity profile – In line with the regulations for NBFC-IDFs, Infradebt can raise resources through the issuance of bonds with a minimum maturity of five years and through the loan route via external commercial borrowings (ECBs) with a minimum tenure of five years (in line with the maturity profile of the assets). Shorter-tenure bonds and commercial paper are not allowed beyond 10% of the outstanding debt. Further, since NBFC-IDFs can invest in infrastructure projects that have completed at least one year of satisfactory commercial operations, loan repayments start immediately after disbursement, supporting the asset-liability maturity (ALM) profile.

Comfortable capitalisation profile supported by strong shareholders – Infradebt's capitalisation remains comfortable with a net worth of Rs. 3,435 crore, a capital adequacy ratio (capital-to-risk weighted assets ratio; CRAR) of 20.0% (Tier I CRAR of 15.5%) against the regulatory requirement of 15% (Tier I requirement of 10%), and a gearing of 6.6 times as on December 31, 2024. Infradebt was set up by ICICI Bank Limited, Bank of Baroda, Citicorp Finance (India) Limited and Life Insurance Corporation of India Limited in October 2012. ICRA takes comfort from the company's strong key shareholders and their demonstrated financial support.

Given the healthy internal accruals and the range-bound loan book growth, the requirement for external capital remains low and ICRA expects the gearing to remain stable over the medium term. In ICRA's opinion, prudent capitalisation levels are one of the key risk mitigants and a rating sensitivity for a portfolio that has relatively high concentration risks. In this regard, ICRA expects Infradebt to maintain prudent capitalisation levels and believes support from the investors/shareholders will be forthcoming if required. However, a significant change in the shareholding (since the requirement of a sponsor has now been withdrawn) and support from the existing key shareholders will be monitorable.

Profitability supported by tax-exemption status enjoyed by IDFs – Infradebt's net interest margin (NIM; including fee income) reduced marginally to 2.2% of average total assets (ATA) in 9M FY2025 from 2.4% in FY2024 due to the higher gearing. The operating expenses remained low at 0.2% of ATA in 9M FY2025 (0.2% in FY2024) due to the wholesale nature of operations. Provisioning costs increased marginally to 0.7% in 9M FY2025 from 0.6% in FY2024 on account of higher incremental provisions with the company maintaining macro provisions over and above the regulatory requirements. Infradebt reported a profit after tax (PAT) of Rs. 347 crore in 9M FY2025 (return on assets (RoA) of 1.9%) compared with Rs. 408 crore in FY2024 (RoA of 1.9%). The profitability indicators are underscored by the tax-free status enjoyed by IDFs, subject to compliance with the conditions stipulated by the Central Board of Direct Taxes (CBDT), whereby an NBFC-IDF's income is exempt from tax. ICRA notes that any change in these regulations could have an adverse impact on the profitability.

Credit challenges

Concentration risk – Regulations require all IDFs to take exposure only in operational infrastructure projects with at least one year of satisfactory commercial operations, mitigating the construction and execution risk. However, the inherent nature of the business of infrastructure financing means that the company is exposed to project risks and the exposures are concentrated. Hence, the portfolio would remain vulnerable to asset quality shocks in case of slippages in a few key exposures, which may adversely affect its profitability. ICRA notes that Infradebt is compliant with the tightened exposure norms (maximum permissible single party exposure capped at 30% of Tier I capital by the RBI in FY2024). Nonetheless, concentration risk remains high with the share of the top 10 borrowers in the total portfolio at 27% as on December 31, 2024 (29% as on March 31, 2024). The overall asset quality remained strong with gross stage 3 assets of 0.5% and nil net stage 3 as on December 31, 2024 (0.6% and nil, respectively, as on March 31, 2024). Going forward, the company's ability to maintain strict underwriting standards while growing the portfolio would be a key monitorable.

Liquidity position: Strong

Infradebt's ALM profile, as on December 31, 2024, was characterised by positive cumulative mismatches across all buckets up to 1 year. As per the ALM profile, the company had expected principal debt repayments of Rs. 2,390 crore during the 1-year period ending December 31, 2025 against expected principal inflows from performing advances of Rs. 1,304 crore. The liquidity position is strong, supported by the regulatory requirement of raising longer-tenured liabilities against assets that start getting repaid periodically as soon as they are disbursed, cash and liquid investments of up to Rs. 2,041 crore as on December 31, 2024 and the history of sizeable prepayments, providing comfortable liquidity cover. ICRA also derives comfort from the company's good financial flexibility and the demonstrated support of the shareholders.

Rating sensitivities

Positive factors – Not applicable

Negative factors – Pressure on Infradebt's ratings could emerge on account of an increase in the leverage above 9 times on a sustained basis and/or weakening of the asset quality, leading to a deterioration in the solvency on a sustained basis. A significant change in the regulatory framework, leading to an increase in portfolio vulnerability and/or a change in the likelihood of support from the shareholder or a deterioration in the credit profile of the shareholder could warrant a rating revision for Infradebt.

Analytical approach

Analytical approach	Comments
Applicable rating methodologies	ICRA's Credit Rating Methodology for Non-banking Finance Companies Policy on Withdrawal of Credit Ratings
Parent/Group support	Demonstrated support from the parents in the form of capital infusions through equity rights issue and investment in NCDs by ICICI Bank and Bank of Baroda; ICRA expects support from the shareholders to be forthcoming as and when required

About the company

India Infradebt Limited (Infradebt) is the first infrastructure debt fund (IDF) floated in a non-banking financial company structure, set up by ICICI Bank Limited, Bank of Baroda, Citicorp Finance (India) Limited and Life Insurance Corporation of India Limited in October 2012. ICICI Bank is the largest shareholder with a 42% stake as on December 31, 2024, followed by Bank of Baroda at 41%, Citicorp Finance (India) at 10% and Life Insurance Corporation of India Limited at 7%.

Infradebt reported a PAT of Rs. 347 crore in 9M FY2025 on a total asset base of Rs. 26,678 crore as on December 31, 2024 compared to a PAT of Rs. 408 crore in FY2024 on a total asset base of Rs. 22,974 crore as on March 31, 2024. Its portfolio stood at Rs. 24,048 crore as on December 31, 2024 compared with Rs. 21,300 crore as on March 31, 2024. It had a net worth of Rs. 3,435 crore as on December 31, 2024 (Rs. 3,106 crore as on March 31, 2024). Infradebt reported gross stage 3 assets of 0.5% and nil net stage 3 as on December 31, 2024 compared with 0.6% and nil net stage 3 as on March 31, 2024.

Complexity level of the rated instrument

Instrument	Complexity indicator
Non-convertible debenture programme	Very simple (Simple* for ISIN: INE537P07679)
Subordinated debt programme	Very simple
Commercial paper programme	Very simple

* Complexity indicator is simple for ISIN INE537P07679 because of the put option for these NCDs

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)

ABOUT ICRA LIMITED

ICRA Limited was set up in 1991 by leading financial/investment institutions, commercial banks and financial services companies as an independent and professional investment Information and Credit Rating Agency.

Today, ICRA and its subsidiaries together form the ICRA Group of Companies (Group ICRA). ICRA is a Public Limited Company, with its shares listed on the Bombay Stock Exchange and the National Stock Exchange. The international Credit Rating Agency Moody's Investors Service is ICRA's largest shareholder.

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents.
