Retail NCD	457.7	0	[ICRA]AA (Stable); reaffirmed and withdrawn
Retail NCD	0	500	[ICRA]AA (Stable); assigned
Subordinated debt	3,785	3,785	[ICRA]AA (Stable); reaffirmed
Subordinated debt	115	0	[ICRA]AA (Stable); reaffirmed and withdrawn
Total	19,935	20,537	

*Instrument details are provided in Annexure I

Rationale

The rating continues to factor in Sammaan Capital Limited's (SCL) capitalisation and liquidity profile as well as its established and long-standing franchise in the domestic mortgage finance industry. The capitalisation trajectory has been supported by the equity raised through a rights issue of Rs. 3,693 crore and the qualified institutional placement (QIP) of Rs. 1,300 crore during FY2024-FY2025. Further, the financial leverage remains modest owing to declining on-balance sheet advances amid the transition to an asset-light business model. Notwithstanding the decline in the assets under management (AUM) in recent years, SCL remains one of the established players in the mortgage finance industry. Its consolidated AUM stood at Rs. 62,347 crore as on March 31, 2025, comprising home loans (HL; 73%), loan against property (LAP; 18%) and commercial credit (CC; 9%).

ICRA is cognisant of the company's profitability trajectory, which has remained below average in recent years due to the elevated credit provisions. It reported a net loss at the consolidated level in FY2025 due to the acquisition of the legacy loans of Sammaan Finserve Limited (SFL) amid the current restructuring exercise. Earlier, the net worth accretion was further constrained by the additional credit provisions created directly through reserves till FY2024.

The rebranding exercise, intended to reflect the institutionalised character as well as the focus towards retail mortgage lending, was concluded in June 2024 with Indiabulls Housing Finance Limited (IBHFL) being renamed Sammaan Capital Limited. Subsequently, Indiabulls Commercial Credit Limited (ICCL) was renamed Sammaan Finserve Limited with a focus on affordable housing finance. Moreover, to simplify the corporate structure, the non-operational subsidiaries would be wound up or merged with SCL, subject to the receipt of requisite approvals. Previously, as a part of the institutionalisation/de-promoterisation exercise, the company endeavoured to strengthen the governance structure and onboarded industry professionals with diverse experience.

The strengths are partially offset by the asset quality risks emanating from the legacy CC (real estate developer loan) book, notwithstanding the rundown in recent years and the adequate asset quality of the retail segment. The blended headline asset quality metrics improved as on March 31, 2025 and the solvency, characterised by net non-performing assets (NNPA)/net worth,

stood at 2.3% as on March 31, 2025 (5.0% as on March 31, 2024). The improvement in the reported asset quality and solvency metrics was aided by sizeable one-time provisions and write-offs in FY2025 as well as the sale of assets to asset reconstruction companies (ARCs), which also led to an uptick in the security receipts (SRs) held by the company. However, the adjusted metric is elevated (net vulnerable book¹/Tier I capital).

Further, the borrowing profile remains modest with bank funding, including co-lending/sell-downs, being a key source of incremental funding over the past many years. Incremental fundraising remains limited owing to the declining AUM and the slower-than-expected scale-up of the business under the revised asset-light strategy, while the borrowing cost has been elevated. Nonetheless, healthy collections from the retail portfolio have helped SCL maintain adequate liquidity and manage its asset-liability profile.

ICRA has reaffirmed and withdrawn the rating assigned to SCL's Rs. 325-crore NCDs, Rs. 457.7-crore retail NCDs and Rs. 115-crore subordinated debt programmes as no amount is outstanding against the rated instruments. This is in line with ICRA's policy on withdrawal of credit ratings.

The Stable outlook reflects ICRA's expectation that SCL will continue to maintain adequate capitalisation, notwithstanding its ambitious growth plans for the near to medium term, while the rundown of the residual legacy book is unlikely to have a material impact on the capitalisation profile. Further, the company is expected to draw on its established presence in the domestic mortgage finance industry in pursuit of its asset-light strategy.

Key rating drivers and their description

Credit strengths

Adequate capitalisation – SCL remains adequately capitalised with a consolidated net worth of Rs. 21,822 crore and a consolidated CRAR of 34.8% (Tier I – 34.5%) as on March 31, 2025. This provides sufficient cushion for near-term growth while maintaining a comfortable cushion over the regulatory capital adequacy requirement (15%). The net worth was supported by the equity raised through a rights issue of Rs. 3,693 crore and a QIP of Rs. 1,300 crore during FY2024-FY2025. Further, the financial leverage remains modest owing to declining on-balance sheet advances amid the transition to an asset-light business model. The capital structure is characterised by an improving total debt/net worth ratio, which stood at 2.0 times as on March 31, 2025 (managed gearing² of 2.6 times) compared to 2.4 times as on March 31, 2024 (managed gearing of 3.1 times). The headline solvency ratio (NNPA/net worth) too improved to 2.3% as on March 31, 2025 from 5.0% as on March 31, 2024. However, the adjusted metric is still elevated (net vulnerable book/Tier I capital), notwithstanding the improvement from the levels seen till FY2022.

SCL's track record of raising capital has supported its capitalisation notwithstanding the impact on net worth accretion due to the sizeable impairment provisions (on loan book and related to alternative investment funds; AIFs³) debited to the profit & loss (P&L) account as well as those directly routed through the net worth. Capitalisation has remained adequate despite sizeable write-offs in recent years as the provisions have been recalibrated following the improvement in the operating environment and the portfolio's performance. Provisions being carried on the balance sheet moderated to 1.7% of the loan book as on March 31, 2025 from 2.5% as on March 31, 2024 and the highs of 4.5% as on December 31, 2021 and 5.1% as on March 31, 2020. Despite the ambitious growth plans for the near to medium term, ICRA expects the capitalisation to remain adequate, given the shift to the asset-light business model.

¹ Net vulnerable book includes net stage 2 loans, net stage 3 loans, SRs and restructured assets

² Managed gearing = Borrowings + Off-balance sheet advances/Net worth

³ SCL, at the consolidated level, had sizeable investments in subordinated units of AIFs. It made provisions of Rs. 837 crore, in line with the RBI circular of December 2023. It debited Rs. 610 crore under special additional reserves and the balance was debited in the P&L account

Established track record in domestic mortgage finance industry – SCL has a long track record and established franchise in the housing finance business. Notwithstanding the downward AUM trajectory in recent years, the company remains one of the largest players in the mortgage finance space in the country. It had an AUM of Rs. 62,347 crore as on March 31, 2025 (Rs. 65,335 crore as on March 31, 2024), comprising HL (73%), LAP (18%) and CC (9%). The retail loan segment has consistently accounted for over 85% of the AUM since March 2020. AUM growth remained elusive in recent years, first due to the delays in tech integration with partner banks and subsequently with the rundown in the legacy book outpacing the increase in growth AUM.

SCL has segregated its AUM into legacy⁴ and growth⁵ AUM. Legacy AUM has run down in recent years due to collections/prepayments as well as asset monetisation while incremental disbursements are limited. Legacy AUM stood at Rs. 24,894 crore (40% of consolidated AUM) as on March 31, 2025 (compared to the peak of Rs. 1,20,525 crore as on March 31, 2019). In line with the management's stated intent, it is expected to reduce further to less than Rs. 15,000 crore by March 2026. Growth AUM, which stood at Rs. 37,453 crore as on March 31, 2025 (60% of the consolidated AUM), is estimated by the management to scale up to Rs. 1,00,000 crore by March 2027, comprising SCL's standalone AUM of ~Rs. 70,000 crore, AIF AUM of ~Rs. 15,000 crore and SFL's AUM of ~Rs. 15,000 crore.

The company would continue to focus on the mortgage finance space wherein it has experience, though under an asset-light model. A sizeable portion of the lending would be off-balance sheet at SCL (only ~20% would be on the books). SFL would retain a higher share of loans on its book (~40%). Incremental wholesale lending, primarily towards commercial real estate (CRE), would be undertaken through the AIF route in partnership with foreign private credit funds. SCL's share in the AIF AUM would be 10-20%. It also intends to increase the number of co-lending relationships to 12 in the near to medium term (9 as on March 31, 2025). Co-lending disbursements stood at Rs. 9,766 crore in FY2025 compared to Rs. 9,560 crore in FY2024 and Rs. 7,845 crore in FY2023. In this regard, the evolving guidelines related to the co-lending framework and the impact of the same on SCL's disbursement trajectory, if any, will remain monitorable. ICRA notes that the company has tested the systems for possible scenarios while engaging with partner banks on the possibilities and required adjustments to shift to the specific models, if required. Nonetheless, a meaningful scale-up of the AUM would remain critical for the profitability metrics.

Credit challenges

Asset quality risks, notwithstanding recent improvement in headline asset quality metrics – SCL's asset quality remains susceptible to the risks emanating from its legacy CC portfolio. Given the large ticket size and the high inherent risks associated with these exposures, the CC book remains exposed to concentration risks. The segmental NPA improved to 5.9% as on March 31, 2025 (10.3% as on March 31, 2024), supported by collections/asset monetisation and write-offs. In the past, the increased challenges for the real estate sector due to the Covid-19 pandemic-related lockdowns heightened the portfolio vulnerability, sharply increasing the segmental NPA to 10.8% as on March 31, 2021 and 13.3% as on March 31, 2022, partly exacerbated by a declining AUM. The asset quality of the retail portfolio remains steady with gross NPAs (GNPAs) of 0.9% as on March 31, 2025 compared to 1.7% as on March 31, 2024. Overall, the headline asset quality metrics remain stable with GNPAs and NNPA's of 1.3% and 0.8%, respectively, as on March 31, 2025 compared to 2.7% and 1.5%, respectively, as on March 31, 2024. The headline numbers are supported by large write-offs in the past with the cumulative write-off pool at more than Rs. 10,000 crore⁶. Adjusted for this, the asset quality numbers would be weaker.

ICRA notes that SCL acquired SFL's legacy loans (wholesale and retail) in Q2 FY2025 amid a corporate restructuring exercise. This also led to sizeable one-time fair valuation provisions and management overlay, aggregating Rs. 6,007 crore at the consolidated level, besides write-offs of Rs. 518 crore in FY2025. Further, SCL sold loans amounting to Rs. 3,504.4 crore⁷ for a purchase consideration of Rs. 2,344.1 crore in FY2025. Total SRs outstanding was Rs. 3,783.0 crore as on March 31, 2025

⁴ Legacy loans comprise wholesale and retail loans disbursed before March 2022 that do not align with the company's asset-light strategy, being ineligible for sell down or for any other reason

⁵ Growth AUM refers to SCL's core business and comprises the loans disbursed after March 2022, primarily under the asset-light model.

⁶ Pertaining to loans written off between FY2020 and FY2024

⁷ Net book value of loans transferred; aggregate principal outstanding on the loans transferred was Rs. 3,634.3 crore

compared to Rs. 1,140.8 crore as on March 31, 2024. However, some comfort is derived from the recoveries of Rs. 2,491 crore in FY2025 pertaining to the legacy loans written off previously. The management estimates further recoveries of ~Rs. 3,600 crore during FY2026-FY2027, the actual realisation of which would remain monitorable. ICRA has also taken note of the provisions created through direct debits to additional reserves as well as through other comprehensive income over the years. Going forward, the company's ability to maintain healthy asset quality under the new business model will remain imperative.

Subdued profitability, given slower-than-expected ramp-up of business under the revised strategy and modest borrowing profile – SCL reported a net loss of Rs. 1,807 crore in FY2025 on a consolidated basis owing to sizeable one-time fair valuation provisions, management overlay and write-offs amid the acquisition of SCL's legacy loans. Prior to that, the consolidated profitability remained under pressure with the company resorting to asset securitisation/sell-down as a source of liquidity since H2 FY2019. This resulted in a decline in the on-balance sheet loan book from March 2019 and the slower-than-anticipated scale-up of the asset-light model, impacting the operating leverage and hence the earnings profile from FY2020. The accelerated refinancing of developer loans also contributed to the decline in the loan book and the overall portfolio yield. This, coupled with the higher cost of funds and cost of negative carry, led to a moderation in the net interest margin (NIM). Operating expenses also remained elevated due to the expansion of the retail franchise. Along with higher provision expenses (including provisions taken directly against the net worth), this further impacted the profitability. Nonetheless, SCL repriced its loans in recent quarters, partially offsetting the impact on NIMs. ICRA expects the near-term profitability to remain subdued, given the slower-than-expected growth as well as the constrained operating leverage. The company's ability to scale up the new business model meaningfully would remain critical from a profitability perspective.

SCL's borrowing profile is moderate. As on March 31, 2025, bank loans (38%) and non-convertible debentures (NCDs; including sub-debt; 32%) were its primary funding avenues, followed by securitisation (11%), sub-debt (10%) and external commercial borrowing (ECB; 7%). While some comfort is drawn from the increasing share of co-lending/sell-downs as a source of funds in recent quarters, the ramp-up has been slower than initially expected. Incremental fundraising remains limited owing to the declining AUM and the slower-than-expected scale-up of the business under the revised asset-light strategy, while the cost of funds is marginally elevated due to the hardening of the systemic interest rates. The company expects an improvement in the cost of funds in FY2026, following the series of rate cuts by the Reserve Bank of India (RBI). Its ability to continue to raise funds from diverse sources at competitive rates remains imperative for fuelling near-to-medium-term growth.

Environmental and social risks

Given the service-oriented nature of its business, SCL's direct exposure to environmental risks/physical climate risks is not material. While lending institutions can be exposed to environmental risks indirectly through their portfolio of assets, the company's exposure to environmentally sensitive segments remains low. Hence, indirect transition risks arising from changes in regulations or policies concerning the underlying assets are not material.

With regard to social risks, data security and customer privacy are among the key sources of vulnerability for lending and investment banking institutions as any material lapses could be detrimental to their reputation and could invite regulatory censure. SCL has not faced such lapses over the years and its disclosures outline the key policies, processes, and investments made by it to mitigate the occurrence of such instances. It also promotes financial inclusion by lending to the affordable housing segments.

Liquidity position: Adequate

SCL's consolidated liquidity profile is characterised by positive asset-liability gaps (based on asset-liability management profile as on March 31, 2025), supported by the sizeable on-balance sheet liquidity comprising an unencumbered cash and bank balance of Rs. 3,350 crore and liquid investments of ~Rs. 10,000 crore as on March 31, 2025 (~30% of the borrowings outstanding as on that date). Against this, the debt repayment obligations between June 2025 and January 2026 stood at Rs. 5,181 crore. Further, the liquidity coverage ratio was 232% as on March 31, 2025 compared to the regulatory requirement of 100%. ICRA also notes that the track record of healthy collections from the retail segment supports the liquidity position. Going forward, the company would recalibrate its liquidity policy amid the improved operating environment and utilise the surplus funds for loan book growth. Nonetheless, it would endeavour to maintain on-balance sheet liquidity sufficient to cover the repayments falling due in the ensuing 12 months.

Rating sensitivities

Positive factors – A significant improvement in the earnings profile and resource mobilisation with access to well-diversified sources at competitive rates, while maintaining healthy asset quality (GNPA including 1-year write-offs of less than 3%), would have a positive impact.

Negative factors – A prolonged delay in scaling up the planned asset-light business model over the medium term or a material deterioration in the asset quality, affecting the financial profile, would be a negative factor. Sustained weakness in resource mobilisation from diversified sources, which would restrict its ability to lend or would lead to a deterioration in its liquidity profile, could also be a credit negative.

About the company

SCL was incorporated in 2005. Previously known as IBHFL, it operated as an HFC registered with National Housing Bank (NHB). In June 2024, it received a new certificate of registration as a NBFC-ICC from the RBI. It was subsequently renamed Sammaan Capital Limited as a part of a rebranding exercise, which was intended to reflect its institutional character and delink it from the erstwhile promoter entities with the 'Indiabulls' branding.

SCL is the listed holding company of the Sammaan Group⁸. It provides HL and LAP/micro, small and medium enterprises (MSME) loans. The Group also provides affordable HL and semi-urban MSME loans/LAP through its wholly-owned subsidiary – SFL. Besides mortgage-backed retail lending, the Group will foray into commercial real estate (CRE) lending through the AIF platform planned to be launched in FY2026. As on March 31, 2025, its consolidated AUM stood at Rs. 62,347 crore comprising HLs (73%), LAP (18%) and CC (9%) while the off-balance sheet book stood at Rs. 13,346 crore.

SCL has a pan-India presence, catering to over 1.5 million customers through a network of more than 200 branches and over 8,000 channel partners as on March 31, 2025. Over the last few years, the company shifted its focus towards an asset-light business model. It had co-lending partnerships with 9 banks as on March 31, 2025 and plans to increase the same to 12 by March 2026. These partnerships would largely be with mid-sized public and private sector banks. Going forward, SCL would operate as an upper layer mortgage-focused NBFC as well as a holding company for an affordable housing finance subsidiary and a real estate-

⁸ SCL and its subsidiaries are collectively referred to as the Sammaan Group

focused AIF. Further, as part of the ongoing corporate simplification, the non-operational entities would be merged into the parent entity – SCL.

Status of non-cooperation with previous CRA: Not applicable

Any other information:

SCL faces prepayment risk, given the possibility of debt acceleration upon the breach of covenants, including financial covenants, operating covenants and rating-linked covenants. Upon failure to meet the covenants, if the company is unable to get waivers from the lenders/investors or the lenders/investors do not provide it with adequate time to arrange for alternative funding to pay off the accelerated loans, the rating would face pressure. In this regard, ICRA notes that the recent developments have not resulted in a breach of the covenants.

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)

ABOUT ICRA LIMITED

ICRA Limited was set up in 1991 by leading financial/investment institutions, commercial banks and financial services companies as an independent and professional investment Information and Credit Rating Agency.

Today, ICRA and its subsidiaries together form the ICRA Group of Companies (Group ICRA). ICRA is a Public Limited Company, with its shares listed on the Bombay Stock Exchange and the National Stock Exchange. The international Credit Rating Agency Moody's Investors Service is ICRA's largest shareholder.

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents.
