Total	34,850.98	38,935.98	

\*Instrument details are provided in Annexure I

## Rationale

To arrive at the ratings of Sundaram Finance Limited (SFL), ICRA has taken a consolidated view of the SFL Group, given the business-level synergies, financial interlinkages, and the management overlap between the Group entities.

The ratings consider the SFL Group's demonstrated track record of steady and profitable growth across business cycles, its experienced senior management team and its established franchise. The ratings factor in the Group's comfortable funding and strong liquidity profile, backed by its ability to raise funds from diverse sources at competitive rates. The ratings also take into consideration the Group's comfortable capitalisation profile, with SFL and Sundaram Home Finance Limited (SHFL) having a Tier I capital of 17.3% and 18.3%, respectively, as of March 2025.

At the consolidated level, the SFL Group has a presence in the vehicle and mortgage (housing and non-housing) financing segments and offers various other financial services, including insurance and asset management. Its consolidated loan assets under management (AUM) stood at Rs. 68,904 crore as of March 2025, with vehicle finance (including construction equipment), mortgage finance and others accounting for 65%, 26% and 9%, respectively. The Group's growth has been driven by its focus on maintaining good asset quality while generating stable business returns.

The SFL Group's gross stage 3 (GS3) was stable at 1.4% as of March 2025 and 1.2% as of March 2024, improving from 1.8% as of March 2023 and the peak of 5.0% as of June 2021 in line with the industry, as performance improved steadily after the impact of the Covid-19 pandemic. With the improvement in the asset quality trends, provisions/AUM also moderated steadily to 1.0% as of March 2025 from 1.2% as of March 2024 and 2.1% as of March 2022.

The Stable outlook reflects the diverse business segments of the Group with steady profitability and comfortable capitalisation, which should support the growth, going forward.

ICRA has withdrawn the long-term rating on the Rs. 2,200 crore non-convertible debentures (NCDs) and Rs. 215 crore subordinated debentures in accordance with its policy on the withdrawal of credit ratings as the instruments have matured and have been fully repaid.

## Key rating drivers and their description

## **Credit strengths**

**Established track record in lending and financial services businesses; presence in diverse segments** – The SFL Group provides a wide range of financial services, including vehicle finance, housing finance, asset management and insurance among others. The Group, with its operational history of almost seven decades, has a demonstrated track record across business cycles without significant deterioration in its overall risk profile, supported by its good understanding of the target segments and experienced management team. It has established relationships with its customers [a sizeable share of the commercial vehicle (CV) borrowers comprises repeat customers], which, along with the conservative underwriting norms and robust collection and recovery mechanism, have supported its business risk profile over the past seven decades. The consolidated AUM of the lending businesses stood at Rs. 68,904 crore as of March 2025, up by 19.5% year-on-year (YoY). The Group envisages to grow its loan portfolio by around 15% in the medium term.

SFL's portfolio mix broadly remained range-bound over the past three years with CVs accounting for 45.1% of the AUM as of March 2025, followed by cars (24.4%), construction equipment (10.8%), tractors (7.1%) and others (12.6%, including commercial lending of 7.0%). The share of used vehicles increased to 18.5% as of March 2025 (18.3% as of March 2024).

SHFL, SFL's wholly owned subsidiary, is involved in housing finance. It reported an AUM of Rs. 17,428 crore as of March 2025, up 26.2% in FY2025 and 23.5% in FY2024 from 17.8% in FY2023 and 3.5% in FY2022. Housing loans (HLs) and non-housing loans contributed ~58% and ~42%, respectively, to the AUM as of March 2025. Sundaram Asset Management Company Limited {SAMCL; rated [ICRA]AA (Stable)} reported an AUM of Rs. 71,826 crore as of March 2025 vis-à-vis Rs. 70,883 crore as of March 2024.

In the lending business (SFL & SHFL), the Group is expected to focus on the existing target segments for its near-to-medium-term growth.

Adequate profitability indicators – The SFL Group's net profitability has remained range-bound with profit after tax (PAT)/average managed assets (AMA) of 2.5% in FY2025, 2.3% in FY2024 and 2.4% in FY2023. The net interest margin stood at 4.4% in FY2025 and 4.5% in FY2024 vis-à-vis 4.3% in FY2023, while credit costs also remained stable at 0.3% in FY2025 and 0.4% in FY2024 vis-à-vis 0.3% in FY2023. The Group's profitability is expected to remain stable in the near to medium term.

On a standalone basis, SFL reported a net profitability of 2.8% in FY2025 and 3.1% in FY2024 vis-à-vis 2.8% in FY2023, supported largely by lower credit costs and operating expenses.

**Comfortable capitalisation profile** – SFL's consolidated gearing stood at 4.6 times as of March 2025 vis-à-vis 4.7 times as of March 2024. The capitalisation profiles of SFL and SHFL look comfortable with the Tier I at 17.3% and 18.3%, respectively, as of March 2025. ICRA notes that the Group's internal accruals are expected to keep the capital structure at a comfortable level, sufficient for its medium-term growth expectations.

**Comfortable asset quality** – SFL has a track record of keeping its asset quality under control across business cycles. The Group's GS3 was adversely impacted by the pandemic, but it improved steadily from Q2 FY2022 to 1.4% as of March 2025 and 1.2% as of March 2024 (1.8% as of March 2023) from 2.4% as of March 2022 and the peak of 5.0% as of June 2021, in line with the industry. With the improvement in the asset quality in the recent past, provisions/AUM moderated to 1.0% as of March 2025 and 1.2% as of March 2024 from 2.1% as of March 2022 and the peak of 2.5% as of December 2021 due to provision reversals and write-offs. Overall, the Group's current provision coverage is adequate, with some cushion for incremental slippages.

#### **Credit challenges**

**Competitive business environment; regionally concentrated portfolio** – The SFL Group has a concentrated portfolio with the southern region accounting for ~60% as of March 2025. SFL and SHFL face competition from banks and other non-banking financial companies (NBFCs) in their key target asset segments, namely CV, passenger vehicle (PV) and HL, which could lead to pressure on margins. While the Group's earnings profile has remained stable, its ability to maintain the profitability indicators in a competitive business environment and keep the asset quality under control would be critical from a rating perspective.

#### **Environmental and social risks**

Given the service-oriented business of the SFL Group, its direct exposure to environmental risks/material physical climate risks is not significant. While lending institutions can be exposed to environmental risks indirectly through their portfolio of assets, such risks are not material for the SFL Group as its incremental lending operations encompass a well-diversified portfolio of products. Nevertheless, there is increasing interest from policymakers towards identifying the exposure of financing companies to carbon emissions through their financing activities. This process is, however, in an early stage and ICRA expects any adverse implications to manifest only over a longer time horizon, giving financing companies adequate time to adapt and minimise the credit implications.

With regard to social risks, data security and customer privacy are among the key sources of vulnerability for lending institutions as material lapses could be detrimental to their reputation and invite regulatory censure. The Group has not faced such lapses over the years, which highlights its sensitivity to such risks. Also, the disclosures made by the Group outline the key policies, processes, and investments made by it to mitigate the occurrence of such instances. ICRA also notes that customer preferences are increasingly shifting towards digital modes, providing the opportunity to reduce the operating costs. In this regard, the SFL Group is enhancing its processes backed by digitisation and is making investments to improve its digital interface with its customers. Moreover, while the company contributes towards promoting financial inclusion by lending to underserved segments, its lending practices remain prudent as reflected by the healthy asset quality numbers in this segment compared with its peers.

## Liquidity position: Strong

On a consolidated basis (SFL and SHFL combined), cash and liquid investments stood at Rs. 3,626 crore with undrawn bank lines of Rs. 4,955 crore, as on May 31, 2025, against debt repayment obligations of Rs. 9,417 crore (including Rs. 839 crore of securitisation payments by SFL) during June-August 2025. ICRA draws comfort from the diverse funding profile of the lending business, including NCDs and subordinated debt (31% of borrowings as of March 2025), bank loans (30%), fixed deposits (14%), portfolio sell-down (13%), commercial paper (CP; 9%) and National Housing Bank (NHB; 3%).

While a sustained improvement in collections remains monitorable, access to funds from diverse sources and the ability to secure funding at competitive rates provide good financial flexibility to the SFL Group.

#### **Rating sensitivities**

#### Positive factors – Not applicable

**Negative factors** – The ratings could be adversely impacted if there is a deterioration in the asset quality or profitability, with a rise in the GS3 beyond 3.5% or a decline in PAT/AMA to less than 1.7% on a sustained basis. A significant weakening in the Tier I capital adequacy ratio below 12%, on a consistent basis, could exert pressure on the ratings.

## **Analytical approach**

Analytical approach	Comments
Applicable rating methodologies	Non-banking Finance Companies (NBFCs) Policy on Withdrawal of Credit Ratings
Parent/Group support	Not applicable
Consolidation/Standalone	The ratings are based on the consolidated financial statements of SFL

#### About the company

SFL is the flagship company of the TSF Group. It is one of the large NBFCs in the country with AUM of Rs. 51,476 crore as of March 2025. Its primary focus is on the financing of CVs and cars. SFL has invested in various entities to provide a gamut of financial services like housing finance (SHFL), insurance (Royal Sundaram) and mutual funds (SAMCL).

SFL reported a standalone net profit of Rs. 1,543 crore in FY2025 on a managed assets base of Rs. 59,752 crore compared with a net profit of Rs. 1,454 crore on a managed assets base of Rs. 51,443 crore in FY2024.

## Complexity level of the rated instrument

Instrument	Complexity indicator
Commercial paper	Very simple
NCD	Very simple
Subordinated debt	Very simple
Fixed deposits	Very simple
Fund-based limits from banks	Simple
Long-term term loans from banks	Simple
Non-fund based limits from banks	Simple
Short-term loans from banks	Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: <u>Click Here</u>

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents.
