Rationale

Material Event

On 18 July 2025, the European Union (EU) announced its eighteenth package of sanctions against Russia. The sanctions include lowering of the price cap on Russian crude oil exports, an import ban on refined petroleum products made from Russian crude oil and coming from any third country (with the exception of Canada, Norway, Switzerland, the United Kingdom and the United States) and several companies/entities including Nayara Energy Limited (NEL).

Impact of material event

ICRA takes note of the recent sanction by the European Union (EU) on NEL. ICRA notes that the total exports of NEL to EU remain minimal. However, ICRA will continue to monitor the developments in this regard and take appropriate rating action, if necessary.

About the company

Nayara Energy Limited (NEL), formerly known as Essar Oil Limited (EOL), was incorporated in 1989. In May 2018, it was renamed Nayara Energy Limited after it was acquired by Russian oil major PJSC Rosneft Oil Company through a subsidiary - Rosneft Singapore Pte Limited (49.13% shareholding in NEL) - and Kesani Enterprises Company Limited (49.13% shareholding in NEL) in August 2017 for an enterprise value of \$12.9 billion. Kesani is a subsidiary of investment consortium Tendril Ventures PTE Limited (Tendril), of which Trafigura owned a 49.8% stake until January 11, 2023, when it completed the sale of its interest to Hara Capital S.a.r.l, a Luxembourg-incorporated energy investment group (100% subsidiary of Mareterra Group Holding S.r.l.).

Tendril's other shareholders include Cyprus-based Russian private investment group UCP PE Investments Limited, which owns 49.8% of Tendril, and Oil Holdings Limited (0.3% shareholding).

NEL is involved in oil refining and marketing and is the owner of India's second-largest single-location oil refinery (Vadinar, Gujarat) with a capacity of 20 MMTPA (equivalent to ~405,000 barrels per day). This refinery benefits from access to a deepdraft port capable of receiving VLCC tankers. Nayara is also involved in the retail marketing of motor spirit and highspeed diesel. It has been ramping up its marketing operations with more than 6,600 retail outlets.

Complexity level of the rated instrument

Instrument	Complexity Indicator
Commercial Paper	Very Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click here](#)
