## Veritas Finance Limited: Rating reaffirmed for PTCs issued under a small business loan and home construction loan securitisation transaction

### Summary of rating action

Trust name	Instrument*	Initial rated amount (Rs. crore)	Amount O/s after last surveillance (Rs. crore)	Amount O/s after Jul-25 payout (Rs. crore)	Rating action
Vajra 011 Trust	Series A1 PTC	50.00	NA	30.18	[ICRA]AAA(SO); reaffirmed

\*Instrument details are provided in Annexure I

### Rationale

The pass-through certificates (PTCs) are backed by a pool of small business loan (SBL) and home construction loan (HCL) receivables originated by Veritas Finance Limited (Veritas/Originator). Veritas is also the servicer for the transaction.

The rating action factors in the build-up of the credit enhancement cover over the future PTC payouts on account of high amortisation and healthy pool performance. The rating also draws comfort from the fact that the breakeven collection efficiency is lower than the actual collection level observed in the pool till the July 2025 payout month.

### Pool performance summary

Parameter	Vajra 011 Trust
Payout month	July 2025
Months post securitisation	11
Pool amortisation (as % of initial pool principal)	27.4%
Series A1 PTC amortisation (as % of initial PTC principal)	40.0%
Last 3 months' average monthly collection efficiency <sup>1</sup>	99.9%
Cumulative collection efficiency <sup>2</sup>	99.9%
Cumulative prepayment rate <sup>3</sup>	15.9%
Loss-cum-0+ days past due (dpd; % of initial pool principal) <sup>4</sup>	2.1%
Loss-cum-30+ dpd (% of initial pool principal) <sup>5</sup>	0.9%
Loss-cum-90+ dpd (% of initial pool principal) <sup>6</sup>	0.5%
Breakeven collection efficiency <sup>7</sup>	
Series A1 PTC	51.4%
Cumulative cash collateral (CC) utilisation	0.00%
CC available (as % of balance pool)	5.5%
Excess interest spread (EIS; as % of balance pool) <sup>8</sup>	
Series A1 PTC	44.3%
Principal subordination (% of balance pool principal)	

<sup>1</sup> Average of (Total current and overdue collections for the month as a % of Total billing for the month) for 3 months

<sup>2</sup> Cumulative collections/(Cumulative billings + Opening overdue at the time of securitisation)

<sup>3</sup> Principal outstanding at the time of prepayment of contracts prepaid till date/Initial pool principal

<sup>4</sup> Unbilled and overdue principal portion of contracts delinquent for more than 0 days, as a % of Initial pool principal

<sup>5</sup> Unbilled and overdue principal portion of contracts delinquent for more than 30 days, as a % of Initial pool principal

<sup>6</sup> Unbilled and overdue principal portion of contracts delinquent for more than 90 days, as a % of Initial pool principal

<sup>7</sup> (Balance cash flows payable to investor – CC available)/Balance pool cash flows

<sup>8</sup> (Pool cash flows till PTC maturity month– Cash flows to PTC A1 – Originator's residual share)/Pool principal outstanding

Parameter	Vajra 011 Trust
Series A1 PTC	19.3%

## Transaction structure

As per the transaction structure, the monthly cash flow schedule comprises the promised interest payout and principal payout (86.00% of the pool principal billed) to Series A1 PTC. The balance principal (14.00% of the pool principal billed), after the replenishment of the credit enhancement, is expected to be paid on a monthly basis until the maturity of Series A1 PTC. A part of the residual cash flow from the pool (55%), after meeting the promised and expected payouts, will be used for the prepayment of the Series A1 PTC principal while the rest (45%) would be used for the payment of the equity tranche. Any prepayment in the pool would be used for the prepayment of the Series A1 PTC principal.

## Key rating drivers and their description

### Credit strengths

**Healthy pool performance** – The pool’s performance has been healthy with a cumulative collection efficiency of more than 99% till the July 2025 payout month. This has resulted in low delinquencies in the pool with the 90+ days past due (dpd) at sub-1%. Further, there have been no instances of cash collateral (CC) utilisation till date owing to the strong collection performance and the presence of excess interest spread (EIS) in the transaction.

**Considerable build-up of credit enhancement** – The rating factors in the build-up in the credit enhancement cover with the CC increasing to 5.51% of the balance pool from 4.00% at the time of securitisation. Internal credit support is also available through the scheduled EIS and subordination.

**Contracts backed by self-occupied residential properties** – The pool is mainly backed by self-occupied residential properties. This is expected to support its quality as it has been observed that borrowers tend to prioritise repayments towards such loans even during financial stress.

**Adequate servicing capability of Veritas** – The company has adequate processes for servicing the loan accounts in the securitised pool. It has an established track record of almost a decade of regular collections and recoveries across multiple geographies.

### Credit challenges

**Risks associated with lending business** – The pool’s performance would remain exposed to macro-economic shocks, business disruptions and natural calamities that may impact the income-generating capability of the borrowers and their ability to make timely repayments of their loans.

## Key rating assumptions

ICRA’s cash flow modelling for rating securitisation transactions involves the simulation of potential losses, delinquencies and prepayments in the pool. The losses and prepayments are assumed to follow a log-normal distribution. The assumptions for the losses and the coefficient of variation are considered on the basis of the values observed from the analysis of the past performance of the Originator’s loan portfolio as well as the characteristics of the specific pool being evaluated. The resulting collections from the pool, after incorporating the impact of the losses and prepayments, are accounted for in ICRA’s cash flow model, in accordance with the cash flow waterfall of the transaction.

For the current pool, ICRA has estimated the shortfall in the principal collection during the tenure at 3.00% with certain variability around it. The average prepayment rate for the underlying pool is modelled in the range of 7% to 27% per annum. Various possible scenarios have been simulated at stressed loss levels and prepayment rates and the incidences of default to

the investor as well as the extent of losses are measured after factoring in the credit enhancement to arrive at the final rating for the instrument.

## Details of key counterparties

The key counterparties in the rated transaction are as follows:

Transaction name	Vajra 011 Trust
Originator	Veritas Finance Limited
Servicer	Veritas Finance Limited
Trustee	Axis Trustee Services Limited
CC holding bank	ICICI Bank
Collection and payout account bank	ICICI Bank

## Liquidity position: Superior

The liquidity for the PTC instrument in the transaction is superior after factoring in the credit enhancement available to meet the promised payout to the investors. The total credit enhancement would be more than 10 times the estimated loss in the pool.

## Rating sensitivities

**Positive factors** – NA

**Negative factors** – The sustained weak collection performance of the underlying pool (monthly collection efficiency <90%), leading to higher-than-expected delinquency levels and higher credit enhancement utilisation levels, would result in a rating downgrade. Weakening in the credit profile of the servicer could also exert pressure on the rating.

## Analytical approach

The rating action is based on the performance of the pool till the July 2025 payout month, the present delinquency levels and the credit enhancement available in the pool, and the performance expected over the balance tenure of the pool.

## About the originator

Veritas Finance Limited (Veritas) is a non-banking financial company (NBFC) incorporated on April 30, 2015 and registered with the Reserve Bank of India (RBI). The company lends to borrowers engaged in the micro, small and medium enterprise (MSME) sector with a primary focus on providing inclusive finance to self-employed borrowers for their businesses. As on March 31, 2025, Veritas had 503 branches across 11 states, namely Tamil Nadu, West Bengal, Karnataka, Odisha, Andhra Pradesh, Telangana, Bihar, Jharkhand, Chhattisgarh and Madhya Pradesh, as well as the Union Territory (UT) of Puducherry.

Veritas had a gross loan portfolio of Rs. 7,349 crore as of March 2025 (Rs. 5,724 crore as on March 31, 2024). The company has divided the MSME loan product segment into two broad heads – MSME Rural and MSME Urban, apart from home loans. MSME Rural consists of small business loans (SBLs) and home construction loans (HCLs) while MSME Urban is focussed on unsecured business loans meant for working capital purposes. The home loan (HL) segment focusses on affordable housing. These products are differentiated on the basis of the purpose of the loan, customer segment, etc.

As on March 31, 2025, the founder (Mr. Arulmany) and his relatives held 9.86% (fully-diluted basis) while other shareholders include Norwest Venture Partners X Mauritius (21.90%), Multiples PE and affiliates (16.47%), Kedaara Capital Fund II LLP (15.30%), Lok Capital and affiliates (13.86%), British International Investments Plc. (10.48%), Avendus Future Leaders Fund (2.94%), and Caspian Impact Investment Advisers Private Limited (0.19%). The balance is held by individual shareholders and employees and their relatives.

### Complexity level of the rated instruments

Instrument	Complexity indicator
Series A1 PTC	Moderately Complex

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click here](#)
