Non-convertible debentures	0.0	1,000.0	[ICRA]AAA (Stable); assigned
	4,450.0	4,450.0	[ICRA]AAA (Stable); reaffirmed
	1,500.0	1,500.0	[ICRA]AAA (Stable); reaffirmed
Commercial paper	1,800.0	1,800.0	[ICRA]A1+; reaffirmed
Total	14,546.5	15,546.5	

*Instrument details are provided in Annexure I

Rationale

The ratings consider Toyota Financial Services India Limited's (TFSIN) strong parentage, given its position as a wholly-owned subsidiary of Toyota Financial Services Corporation (TFSC), which is a wholly-owned subsidiary of Toyota Motor Corporation (TMC/ultimate parent; rated A1 (Positive) by Moody's). TFSIN receives significant financial and management support from TFSC and TMC by virtue of its parentage. Its board of directors and senior management team have representatives from TFSC. This, together with the shared brand name and integration with the TMC Group, reflects TFSIN's significance to the Group.

The ratings also factor in TFSIN's comfortable capitalisation profile, supported by timely equity support from the parent, robust underwriting practices and risk management policies, and diversified borrowing profile. However, the margins remain under pressure on account of the competitive scenario. This resulted in the net profitability {profit after tax (PAT)/average managed assets (AMA)} remaining depressed at 0.24% in Q1 FY2026 and 0.04% in FY2025 vis-à-vis 0.44% in FY2024. TFSIN's profitability is expected to stabilise in FY2026, supported by some incremental improvement in its cost of funds.

The Stable outlook on the [ICRA]AAA rating reflects ICRA's opinion on TFSIN's comfortable capitalisation and strong liquidity position and the expectation that it would continue to benefit from the support of the TMC Group.

Key rating drivers and their description

Credit strengths

Strong parentage with track record of support – TFSIN derives substantial financial and management support from TFSC and TMC owing to its parentage. TFSC exercises managerial control in TFSIN, which reflects its significance to the Group. Regular operational reporting and monitoring by TFSC's regional headquarters in Singapore, periodic reviews and senior management engagement indicate a high level of integration within the Group. Moreover, TFSIN receives regular guidance from TFSC in matters pertaining to treasury, debt raising and risk management. It has adequate risk management policies and benefits from TFSC's global best practices.

Comfortable capitalisation profile – TFSIN's capitalisation remains comfortable with a capital adequacy ratio (capital-to-risk weighted assets ratio; CRAR) of 21.8% as of June 30, 2025, supported by regular equity infusions from TFSC. TFSC has infused equity capital of Rs. 3,950 crore in TFSIN since its inception, of which Rs. 1,000 crore was infused recently in Q1 FY2026. ICRA notes the track record of timely aid from TFSC to keep TFSIN comfortably capitalised well in advance to support the loan book growth. The company's gearing stood at 3.7 times as on June 30, 2025 (4.7 times as on March 31, 2025, 4.3 times as on March 31, 2024).

Adequate asset quality – TFSIN's gross and net stage 3 assets remained stable at 3.0% and 1.3%, respectively, as of June 2025, consistent with the levels reported in March 2025. Credit costs, however, witnessed some increase to 1.2% in FY2025 from 0.6% in FY2024, mainly due to losses from small-ticket loans and incremental provisioning on the stressed exposure in the leasing segment. The company operates an outsourced collection model, with its in-house collection team actively overseeing and monitoring the performance of external agencies to ensure effective recovery and risk management.

TFSIN's overall provisions stood at 2.6% of the loan book as of June 2025, marginally higher than 2.5% reported in March 2025 and March 2024, and down from 3.3% as of March 2023, in line with the reduction in delinquencies; however, the same remains adequate. Given its healthy growth plans for the near-to-medium term, the company's ability to maintain strict underwriting standards, and hence asset quality indicators, would be monitored.

Credit challenges

Competitive business segment and modest profitability – The domestic passenger vehicle sales volume witnessed a healthy pickup in FY2025. Toyota Kirloskar Motors (TKM) also recorded a 28.1%¹ growth in sales volume in the past one year. With TFSIN's financing penetration increasing to around 19% and given the rising ticket size, its loan book grew by 38.7% year-on-year (YoY) to Rs. 18,760.2 crore as of March 2025. Further, the assets under management (AUM) rose by 6.3% sequentially in Q1 FY2026 to Rs. 19,934.2 crore as of June 2025. TFSIN is expected to continue to scale up its loan book through the existing models as well as the launch of new variants by TKM. It is also likely to diversify its presence into used cars loans, though the share of AUM derived from this segment would remain modest in the near-to-medium term. Moreover, it is expected to derive benefits from its agreement with Maruti Suzuki India Limited (MSIL), under which it has been providing financial services to MSIL's retail customers in select locations.

The auto financing space is highly competitive and comprises large banks and non-banking financial companies. This has resulted in modest lending spreads over the years. Going forward, TFSIN's ability to offer lending services at competitive rates would be a key monitorable. Its return on average managed assets (RoMA) was depressed at 0.24% in Q1 FY2026 and 0.04% in FY2025 vis-à-vis 0.44% in FY2024, mainly on account of the decline in the interest margins. Operating expenses were under control and stood at 1.4% in FY2025 vis-à-vis 1.7% in FY2024; the company will continue to invest to support its incremental digitisation initiatives. Going forward, TFSIN's ability to improve its margins while keeping the operating expenses and credit costs under control, amid steep portfolio growth expectations, would be crucial.

Liquidity position: Strong

The company's asset-liability management statement, as on July 31, 2025, reflected positive cumulative mismatches across all buckets. As on July 31, 2025, TFSIN's liquidity position remained strong, supported by free cash and liquid investments of Rs. 1,378.0 crore and unutilised sanctioned funding lines of Rs. 10,714.0 crore (including Rs. 2,452.5 crore of committed bank lines). The company has debt repayments of Rs. 1,447.1 crore

¹ Source: Society for Indian Automobile Manufacturers (SIAM) data as of March 2025

within the next five months. TFSIN also enjoys strong financial flexibility for mobilising funds at competitive rates on the back of its track record and strong parentage.

As on June 30, 2025, the total borrowing of Rs. 16,088.0 crore was fairly diversified across bank lines (39.0%), non-convertible debentures (35.0%), commercial paper (8.0%) and external commercial borrowing loans (18.0%).

Rating sensitivities

Positive factors – Not applicable

Negative factors – A significant deterioration in the credit profile of the TMC Group or lower-than-expected support from the Group could lead to a rating downgrade.

Complexity level of the rated instruments

Instrument	Complexity indicator
Long-term/Short-term bank facilities	Simple
Non-convertible debentures	Simple
Commercial paper	Very Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click here](#)
