## Piramal Finance Limited (formerly Piramal Capital & Housing Finance Limited): Rating reaffirmed for PTCs issued under personal loans securitisation transaction

### Summary of rating action

Trust name	Instrument*	Initial rated amount (Rs. crore)	Amount O/s after last surveillance (Rs. crore)	Current rated amount (Rs. crore)	Rating action
Ved Trust PTC Dec 2024	Series A1 PTCs	68.07	NA	32.83	[ICRA]AA+(SO); reaffirmed

\*Instrument details are provided in Annexure II

### Rationale

The pass-through certificates (PTCs) are backed by personal loan receivables originated by Piramal Finance Limited (PFL {formerly known as Piramal Capital & Housing Finance Limited; rated [ICRA]AA+(Stable)}; Originator). PFL would be the servicer for the transaction.

The rating reaffirmation factors in the build-up of the credit enhancement cover over the future PTC payouts on account of amortisation of the pool. The rating also draws comfort from the fact that the breakeven collection efficiency is lower than the actual collection level observed in the pool till the March 2026 payout month.

### Pool performance summary

Parameter	Ved Trust PTC Dec 2024
Payout month	Mar-26
Months post securitisation	15
Pool amortisation (as % of initial pool principal)	47.62%
Series A1 PTC amortisation	51.76%
Cumulative collection efficiency <sup>1</sup>	96.87%
Cumulative prepayment rate	27.80%
Loss-cum-90+ days past due (dpd <sup>2</sup> ; % of initial pool)	4.34%
Cumulative cash collateral (CC) utilisation	0.00%
Breakeven collection efficiency <sup>3</sup> for Series A1 PTCs	60.59%
CC (% of balance pool)	19.09%
Excess interest spread (EIS; % of balance pool) for Series A1 PTCs <sup>4</sup>	15.50%

<sup>1</sup> (Cumulative current and overdue collections till date)/(Cumulative billing till date)

<sup>2</sup> Inclusive of unbilled and overdue principal portion of contracts delinquent for more than 90 days, as a % of Initial pool principal

<sup>3</sup> (Balance cash flows payable to investor – CC available)/Balance pool cash flows

<sup>4</sup> (Pool cash flows – Cash flows to Series A SN)/Pool principal outstanding

## Transaction structure

As per the transaction structure, the monthly cash flow schedule comprises the promised interest payout. The principal is expected to be paid on a monthly basis (92% of the pool principal billed) but is promised on the final maturity date. Any surplus excess interest spread (EIS), after meeting the promised and expected payouts, will flow back to the Originator on a monthly basis. Any prepayment in the pool would be used for the prepayment of the Series A1 PTC principal.

The transaction structure includes turbo trigger events as given below:

- a) The rating of Series A1 PTCs are **downgraded below “AA+(SO)”**
- b) The credit rating of the Seller is **downgraded by 2 (two) or more notches** below the current rating level by any SEBI accredited credit rating agency
- c) The **PAR>30 in the Pool exceeds 6.00%** of the initial Pool Principal
- d) Any Servicer’s Event of Default has occurred, which has not been cured within the cure periods mutually agreed under the Transaction Documents, including occurrence of Material Adverse Effect on the Servicer, breach of any Representations and Warranties by the Originator/Servicer and failure of the Originator/Servicer to meet its obligations.

## Key rating drivers and their description

### Credit strengths

**Build-up in credit enhancement** – There is a build-up in the credit enhancement with cash collateral and subordination increasing to ~19% and ~15% respectively of the balance pool principal for the pool compared to 10% and 8% respectively at the time of securitisation. Internal credit support is also available through scheduled EIS.

**Adequate servicing capability of PFL** - The company has adequate processes for servicing the loan accounts in the securitised pool. It has established systems for collection and recovery across a wide geography.

### Credit challenges

**High geographical concentration:** The pool has high geographical concentration with the top 3 states, viz. Maharashtra, Andhra Pradesh, and Tamil Nadu contributing ~52% to the current pool principal amount. The pool’s performance would thus be exposed to any state-wide disruption that may occur due to natural calamities, political events, etc.

**Risks associated with lending business** – The pool’s performance would remain exposed to macro-economic shocks, business disruptions and natural calamities that may impact the income-generating capability of the borrowers and their ability to make timely repayments of their loans. The pool is exposed to the inherent credit risk associated with the unsecured nature of the asset class and that recovery from delinquent contracts tends to be lower.

## Key rating assumptions

ICRA’s cash flow modelling for rating securitisation transactions involves the simulation of potential losses, delinquencies and prepayments in the pool. The losses and prepayments are assumed to follow a log-normal distribution. The assumptions for the losses and the coefficient of variation are considered on the basis of the values observed from the analysis of the past performance of the Originator’s loan portfolio as well as the characteristics of the specific pool being evaluated. The resulting collections from the pool, after incorporating the impact of the losses and prepayments, are accounted for in ICRA’s cash flow model, in accordance with the cash flow waterfall of the transactions.

For the current pool, ICRA has estimated the shortfall in the pool principal collection during its tenure at 6.75%, with certain variability around it. The average prepayment rate for the underlying pool is modelled in the range of 4.8% to 18.0% per annum. Various possible scenarios have been simulated at stressed loss levels and prepayment rates and the incidences of default to the investor as well as the extent of losses are measured after factoring in the credit enhancement to arrive at the final rating for the instrument.

## Details of key counterparties

The key counterparties in the rated transaction are as follows:

Transaction Name	Ved Trust PTC Dec 2024
Originator	Piramal Finance Limited
Servicer	Piramal Finance Limited
Trustee	Catalyst Trusteeship Limited
Cash collateral holding Bank	IDFC First Bank
Collection and payout account Bank	IDFC First Bank

## Liquidity position: Strong

The liquidity for the PTC instrument is strong after factoring in the credit enhancement available to meet the promised payout to the investor. The total credit enhancement would be 3.25 times the estimated loss in the pool.

## Rating sensitivities

**Positive factors** – The rating could be upgraded on the strong collection performance of the underlying pool (monthly collection efficiency >95%), on a sustained basis, leading to the build-up of credit enhancement cover for the remaining payouts.

**Negative factors** – The sustained weak collection performance of the underlying pool (monthly collection efficiency <90%), leading to higher-than-expected delinquency levels and higher credit enhancement utilisation levels, would result in a rating downgrade. Weakening in the credit profile of the servicer (PFL) could also exert pressure on the rating.

## Analytical approach

The rating action is based on the performance of the pool till February 2026 (collection month), the present delinquency levels and the credit enhancement available in the pool, and the performance expected over the balance tenure of the pool.

## About the originator

PFL is an upper layer NBFC with a presence in the retail and wholesale lending segment. As on December 31, 2025, its AUM stood at Rs. 96,690 crore. The retail lending business comprises housing loans to customers in the affordable and budget segments, secured and unsecured lending to small businesses, preowned car loans, loan against securities, and unsecured finance constituting microfinance, digital purchase finance, salaried personal loans, etc. In the wholesale lending space, it extends loans to real estate developers as well as corporate clients. The consolidated retail operations are backed by a network of over 518 conventional branches and 76 microfinance branches across 26 states and Union Territories as of December 2025.

The Group forayed into the financial services sector with erstwhile Piramal Capital & Housing Finance Limited (PCHFL), a housing finance company (HFC) that provided both wholesale and retail finance across segments. PCHFL was chosen as the successful resolution applicant by DHFL's Committee of Creditors for the resolution of DHFL, an HFC catering to the low-and-middle-income borrower segment. The erstwhile PCHFL was reverse merged with DHFL, with effect from September 30, 2021, and the amalgamated entity (DHFL) was rechristened PCHFL. Thereafter, with the healthy growth in its non-housing retail lending book, PCHFL did not meet the principal business criteria (PBC) set for HFCs and it applied for a non-banking financial

company-investment and credit company (NBFC-ICC) licence. It received this licence on April 4, 2025. Also, the company was rechristened Piramal Finance Limited (PFL) on March 22, 2025.

Piramal Enterprise Limited (PEL), the erstwhile holding company of the Group, received its NBFC licence as a part of a planned corporate restructuring exercise, whereby the pharma business was demerged from PEL and housed under a separate listed entity – Piramal Pharma Limited (PPL); rated [ICRA]A1+. Further, PHL Fininvest Private Limited (PFPL), a wholly-owned subsidiary of PEL and the NBFC arm of the Group, was merged into PEL w.e.f. August 12, 2022.

To simplify the organisation structure and abide by the listing requirement of an upper layer NBFC, the management proposed a reverse amalgamation of PEL with PFL in Q1 FY2025. This scheme received RBI approval on April 8, 2025 and National Company Law Tribunal (NCLT) approval on September 11, 2025, with an effective date of September 16, 2025.

The Group also has strategic partnerships with financial institutions such as the Canada Pension Plan Investment Board, APG Asset Management and Ivanhoe Cambridge (subsidiary of Caisse de dépôt et placement du Québec; CDPQ) across investment platforms. Piramal Alternatives, the fund management business, provides customised financing solutions to select corporates through Piramal Credit Fund, a performing, sector-agnostic credit fund with capital commitment from CDPQ, and IndiaRF, a distressed asset investing platform with Bain Capital Credit, which invests in equity and/or debt across non-real estate (RE) sectors. PEL also has a 50% stake in Pramerica Life Insurance (a joint venture with Prudential International Insurance Holdings) and equity investments in Shriram Group.

### Key financial indicators (Rs. Crore)

Particulars	FY2024	FY2025	9MFY2026*

### Annexure I: Disclosure pursuant to the SEBI Circular SEBI/HO/DDHS/DDHS-PoD-2/I/4685/2026 dated February 10,2026

ICRA rated Instruments fall under regulatory purview of various Financial Sector Regulators (FSR) as under:

Sr. No.	Instrument	FSR
1	Listed/Proposed to be listed Bonds/Debentures/Preference Shares (all securities)	SEBI
2	Unlisted/Proposed to be unlisted Bonds/Debentures/ Preference share (all securities)	MCA
3	Listed PTCs / Securitisation Notes (originated by entities regulated by RBI) (*)	SEBI
4	Listed PTCs / Securitisation Notes (originated by entities not regulated by RBI) (*)	SEBI
5	Unlisted PTCs / Securitisation Notes (originated by entities regulated by RBI) (*)	RBI
6	Listed Commercial Paper and NCDs with original maturity less than 1 year	RBI
7	Unlisted Commercial Paper and NCDs with original maturity less than 1 year	RBI
8	Loan Facilities (Fund/Non-Fund Based) from Bank / NBFCs/ NHB/ FIs (\$)	RBI
9	External Commercial Borrowings/Loans from overseas branches of Indian Banks/other similar borrowings	RBI
10	Certificates of Deposit	RBI
11	Fixed Deposits raised by NBFCs, Banks, HFCs, FIs	RBI
12	Fixed Deposits raised by corporates other than NBFCs, Banks, HFCs, FIs	MCA
13	Inter Corporate Deposits/Loans extended by Corporates	MCA
14	Listed Security Receipts	SEBI
15	Unlisted Security Receipts	RBI
16	Unlisted PTCs / Securitisation Notes (originated by entities not regulated by RBI) (*)	Investor-side Regulator such as IRDAI, PFRDA (%)

(\*) Includes securitisation transactions involving assignee payout, acquirer's payout.

(\$) Includes bank facilities such as liquidity facility, second loss facility that are part of securitisation transactions.

(%) These ratings were assigned prior to the introduction of SEBI CRA Circular dated Feb 10, 2026 and accordingly, investor side FSRs have been mentioned.

Other Activities offered by ICRA fall under regulatory purview of various Financial Sector Regulators (FSR) as under:

Sr. No.	Activity Name	FSR
1	Credit Ratings for Capital Protection Oriented Schemes (by Mutual Funds and AIFs)	SEBI
2	Credit quality ratings (CQRs) for Mutual Fund Schemes and Schemes of AIFs	SEBI
3	Independent Credit Evaluation (ICE)	RBI
4	Expected Loss Ratings (For Loan Facilities [Fund/Non-Fund based] from Banks/NBFCs/NHB/FIs)	RBI
5	Expected Loss Ratings (Listed / Proposed to be listed Bonds / Debentures / Preference Shares (all securities))	SEBI
6	Expected Loss Ratings (Unlisted / Proposed to be unlisted Bonds/ Debentures / Preference Shares (all securities))	MCA
7	Credit Rating of Borrowing programme	(@)

8	Issuer Ratings	(#)
9	Monitoring Agency	SEBI
10	Research activities, incidental to rating such as research for Economy & Industries (permitted by SEBI vide SEBI Master Circular for CRAs)	NA

(@) The rated instrument may involve issuance of different instruments such as debt securities (listed or otherwise), bank loans, commercial paper (listed or otherwise), etc. The regulator of the instrument can only be determined upon issuance. Accordingly, ICRA shall capture the rated quantum details along with names of respective FSR in the press release(s) after the issuance(s) of the instruments.

(#) Since no instrument is being rated, FSR is not applicable. The rating scale and definitions stipulated in SEBI Master Circular for CRAs are being followed.

**Disclosure:** SEBI’s grievance redressal/dispute resolution and SEBI investor protection mechanisms such as SCORES and ODR shall not be available for activities and instruments which fall under the regulatory purview of Financial Sector Regulators other than SEBI.

### Complexity level of the rated instrument

Trust name	Instrument	Complexity indicator
Ved Trust PTC Dec 2024	Series A1 PTCs	Highly Complex

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA’s website: [Click here](#)
