RBSG Capital Private Limited: Rating reaffirmed for PTCs issued under vehicle loan securitisation transaction

Summary of rating action

Trust Name	Instrument*	Initial Rated Amount (Rs. crore)	Previous Rated Amount (Rs. crore)	Current Rated Amount (Rs. crore)	Rating Action
Bombshell 12 2024	Series A1 PTC	18.30	18.30	7.27	[ICRA]A(SO); reaffirmed

*Instrument details are provided in Annexure II

Rationale

The asset-backed securities (ABS) is backed by vehicle loan receivables originated by RBSG Capital Private Limited {Autonomy/Originator; rated [ICRA]BBB-(Stable)}. Autonomy is also the servicer for the rated transaction.

The rating reaffirmation factors in the build-up of the credit enhancement cover over the future PTC payouts on account of high amortisation and healthy pool performance. The rating also draws comfort from the fact that the breakeven collection efficiency is lower than the actual collection level observed in the pool till the March 2026 payout month.

Pool performance summary

Parameter	Bombshell 12 2024
Payout month	March 2026
Months post securitisation	15
Pool amortisation	52.04%
Series A1 ABS amortisation	60.26%
Cumulative collection efficiency ¹	96.47%
Loss cum 0+ days past due (dpd; % of initial pool principal) ²	15.61%
Loss-cum-30+ dpd (% of initial pool principal) ³	8.73%
Loss-cum-90+ dpd (% of initial pool principal) ⁴	2.12%
Breakeven collection efficiency ⁵ for Series A1 ABS	53.80%
Cumulative cash collateral (CC) utilisation (% of initial CC)	0.0%
CC (as % of balance pool principal)	14.60%
Subordination (as % of balance pool principal)	25.42%
Excess interest spread (EIS; as % of balance pool): Series A1 ABS ⁶	15.61%
Cumulative prepayment rate	10.04%

¹ (Cumulative current and overdue collections till date)/(Cumulative billing till date)

² Inclusive of unbilled and overdue principal portion of contracts delinquent, as a % of Initial pool principal

³ Inclusive of unbilled and overdue principal portion of contracts delinquent for more than 30 days, as a % of Initial pool principal

⁴ Inclusive of unbilled and overdue principal portion of contracts delinquent for more than 90 days, as a % of Initial pool principal

⁵ Breakeven collection efficiency = Balance ABS cash flows – Cash collateral available/Balance pool cash flows

⁶ (Balance pool cash flows – Balance cash flows to ABS – Originator's residual share)/Pool principal outstanding

Transaction structure

As per the transaction structure, the monthly cash flow schedule comprises the promised interest payout. The principal is expected to be paid on a monthly basis (100% of the pool principal billed) to Series A1 PTC but is promised on the final maturity date. Any surplus EIS, after meeting the promised and expected payouts, will flow back to the Originator on a monthly basis. Any prepayment in the pool would be used for the prepayment of Series A1 PTC principal

Key rating drivers and their description

Credit strengths

Build-up of credit enhancement available in the structure- The rating factors in the build-up in the credit enhancement with the subordination increasing to ~25% of the balance pool principal from 10% at the time of securitisation. Credit support is also available through cash collateral (CC) of ~15%% and excess interest spread (EIS) of ~16% of the balance pool principal.

Healthy pool performance – Performance of the pool has been strong with cumulative collection efficiency at ~96% which has resulted in low delinquencies in the pool with the 90+ days past due (dpd) being ~2.1% as on March 2026 payout month. Further, there have been no instances of cash collateral utilisation till date owing to strong collection performance.

Adequate servicing capability of RBSG –The company, which would be servicing the loans in the transaction, has an adequate track record in the lending business of more than seven years and has adequate underwriting policies and collection procedures. The company has adequate processes for servicing the loan accounts in the securitised pools.

Credit challenges

Risks associated with lending business – The pool’s performance would remain exposed to macro-economic shocks, business disruptions and natural calamities that may impact the income-generating capability of the borrowers and their ability to make timely repayments of their loans. This asset class also remains exposed to fuel price fluctuations.

Key rating assumptions

ICRA’s cash flow modelling for mortgage-backed securitisation (MBS) transactions involves the simulation of potential delinquencies, losses (shortfall in principal collection during the balance tenor of the pool) and prepayments in the pool. The assumptions for the loss and the coefficient of variation (CoV) are arrived at after taking into account the past performance of the originator’s portfolio and rated pools as well as the performance and characteristics of the specific pool being evaluated. Additionally, the assumptions may be adjusted to factor in the current operating environment and any industry-specific factors that ICRA believes could impact the performance of the underlying pool of contracts.

For the current pool, ICRA has estimated the shortfall in the pool principal collection during their tenure 7.25%. The average prepayment rate for the underlying pools is modelled in the range of 4.8% to 18.0%. Various possible scenarios have been simulated at stressed loss levels and prepayment rates and the incidences of default to the investor as well as the extent of losses are measured after factoring in the credit enhancement to arrive at the final rating for the instruments.

Details of key counterparties

The key counterparties in the rated transaction are as follows:

Transaction Name	Bombshell 12 2024
Originator	RBSG Capital Private Limited
Servicer	RBSG Capital Private Limited
Trustee	Catalyst Trusteeship Limited

Transaction Name	Bombshell 12 2024
CC bank	DCB Bank Limited
Collection and payout account bank	AU Small Finance Bank

Liquidity position: Superior

The liquidity for Series A1 ABS is superior after factoring in the credit enhancement available to meet the promised payout to the investor. The total credit enhancement is ~6.5 times the estimated loss in the pool.

Rating sensitivities

Positive factors – The sustained strong collection performance of the underlying pool of contracts (monthly collection efficiency >95%), leading to lower-than-expected delinquency levels, and an increase in the cover available for future investor payouts from the credit enhancement would result in a rating upgrade.

Negative factors – The sustained weak collection performance of the underlying pool of contracts (monthly collection efficiency <90%), leading to higher-than-expected delinquency levels and higher credit enhancement utilisation levels, would result in a rating downgrade. Weakening in the credit profile of the servicer could also exert pressure on the rating.

Analytical approach

The rating action is based on the performance of the pools till the March 2026 payout month (February 2026 collection month), the present delinquency profile of the pool, the credit enhancement available in the transaction, and the performance expected over the balance tenure of the pool.

Annexure I: Disclosure pursuant to the SEBI Circular SEBI/HO/DDHS/DDHS-PoD-2/I/4685/2026 dated February 10,2026

ICRA rated Instruments fall under regulatory purview of various Financial Sector Regulators (FSR) as under:

Sr. No.	Instrument	FSR
1	Listed/Proposed to be listed Bonds/Debentures/Preference Shares (all securities)	SEBI
2	Unlisted/Proposed to be unlisted Bonds/Debentures/ Preference share (all securities)	MCA
3	Listed PTCs / Securitisation Notes (originated by entities regulated by RBI) (*)	SEBI
4	Listed PTCs / Securitisation Notes (originated by entities not regulated by RBI) (*)	SEBI
5	Unlisted PTCs / Securitisation Notes (originated by entities regulated by RBI) (*)	RBI
6	Listed Commercial Paper and NCDs with original maturity less than 1 year	RBI
7	Unlisted Commercial Paper and NCDs with original maturity less than 1 year	RBI
8	Loan Facilities (Fund/Non-Fund Based) from Bank / NBFCs/ NHB/ FIs (\$))	RBI
9	External Commercial Borrowings/Loans from overseas branches of Indian Banks/other similar borrowings	RBI
10	Certificates of Deposit	RBI
11	Fixed Deposits raised by NBFCs, Banks, HFCs, FIs	RBI
12	Fixed Deposits raised by corporates other than NBFCs, Banks, HFCs, FIs	MCA
13	Inter Corporate Deposits/Loans extended by Corporates	MCA
14	Listed Security Receipts	SEBI
15	Unlisted Security Receipts	RBI
16	Unlisted PTCs / Securitisation Notes (originated by entities not regulated by RBI) (*)	Investor-side Regulator such as IRDAI, PFRDA (%)

(*) Includes securitisation transactions involving assignee payout, acquirer's payout.

(\$) Includes bank facilities such as liquidity facility, second loss facility that are part of securitisation transactions.

(%) These ratings were assigned prior to the introduction of SEBI CRA Circular dated Feb 10, 2026 and accordingly, investor side FSRs have been mentioned.

Other Activities offered by ICRA fall under regulatory purview of various Financial Sector Regulators (FSR) as under:

Sr. No.	Activity Name	FSR
1	Credit Ratings for Capital Protection Oriented Schemes (by Mutual Funds and AIFs)	SEBI
2	Credit quality ratings (CQRs) for Mutual Fund Schemes and Schemes of AIFs	SEBI
3	Independent Credit Evaluation (ICE)	RBI
4	Expected Loss Ratings (For Loan Facilities [Fund/Non-Fund based] from Banks/NBFCs/NHB/FIs)	RBI
5	Expected Loss Ratings (Listed / Proposed to be listed Bonds / Debentures / Preference Shares (all securities))	SEBI
6	Expected Loss Ratings (Unlisted / Proposed to be unlisted Bonds/ Debentures / Preference Shares (all securities))	MCA
7	Credit Rating of Borrowing programme	(@)

8	Issuer Ratings	(#)
9	Monitoring Agency	SEBI
10	Research activities, incidental to rating such as research for Economy & Industries (permitted by SEBI vide SEBI Master Circular for CRAs)	NA

(@) The rated instrument may involve issuance of different instruments such as debt securities (listed or otherwise), bank loans, commercial paper (listed or otherwise), etc. The regulator of the instrument can only be determined upon issuance. Accordingly, ICRA shall capture the rated quantum details along with names of respective FSR in the press release(s) after the issuance(s) of the instruments.

(#) Since no instrument is being rated, FSR is not applicable. The rating scale and definitions stipulated in SEBI Master Circular for CRAs are being followed.

Disclosure: SEBI’s grievance redressal/dispute resolution and SEBI investor protection mechanisms such as SCORES and ODR shall not be available for activities and instruments which fall under the regulatory purview of Financial Sector Regulators other than SEBI.

Complexity level of the rated instrument

Trust Name	Instrument	Complexity Indicator
Bombshell 12 2024	Series A1 PTC	Highly Complex

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA’s website: [Click Here](#)
