Rationale

ICRA has kept the NCD rating of Rural Fairprice Wholesale Limited in the 'Issuer Not Cooperating' category. The rating is denoted as "[ICRA]D; ISSUER NOT COOPERATING."

The rating continues to remain under "Issuer Not Cooperating" is because of lack of adequate information regarding Rural Fairprice Wholesale Limited's performance and hence the uncertainty around its credit risk. ICRA assesses whether the information available about the entity is commensurate with its rating and reviews the same as per its "Policy in respect of non-cooperation by a rated entity" available at www.icra.in. The lenders, investors and other market participants are thus advised to exercise appropriate caution while using this rating as the rating may not adequately reflect the credit risk profile of the entity.

As part of its process and in accordance with its rating agreement with Rural Fairprice Wholesale Limited, ICRA has been trying to seek information from the entity so as to monitor its performance. Further, ICRA has been sending repeated reminders to the entity for payment of surveillance fee that became due. Despite multiple requests by ICRA, the entity's management has remained non-cooperative. In the absence of requisite information and in line with the aforesaid policy of ICRA, the rating has been continued to the "Issuer Not Cooperating" category. The rating is based on the best available information.

Please refer to the following link for the previous detailed rationale that captures Key rating drivers and their description, Liquidity position, Rating sensitivities, Key Financials Indicators: [Click here](#) ICRA is unable to provide the latest information because of non-cooperation by the entity.

About the company

Incorporated on September 01, 2009, Rural Fairprice Wholesale Limited was a wholly owned subsidiary of Future Corporate Resources Private Limited. With effect from April 01, 2019, Allfab Syntects and Commission Agency Private limits hold 100% stake in the company. Initially incorporated with an objective to supply Future group's products through Public Distribution System (PDS) in the rural parts of Rajasthan with Future group's another entity Future Consumer Limited (FCL). However, the same did not materialize and currently only FCL is supplying the products in Rajasthan through PDS and there were no operations in RFWL. However, the management decided to engage RFWL in the business of trading in all kinds of fashion, foods, FMCG and other related products. RFWL is engaged in bulk procurement of the products to get better discounts and the same is subsequently supplied to other Future group entities. The company started trading business in Q4 FY2018.

Complexity level of the rated instruments

Instrument	Complexity indicator
NCD	Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click here](#)
