### About the company

RIL was incorporated in June 1994 by Mr. H.M. Gupta. The company cultivates tea across seven tea estates and operates seven factories, one associated with each tea estate. The tea estates are located primarily in Upper Assam, with a total mature area under tea of around 3,000 hectares. Recently, the company has announced its decision to sell the smallest garden (around 300 hectares), Bokakhat, which produced 4.85 lakh kg tea in FY2020. RIL has a support service division, known as Aerotech Services, which is involved in the installation, servicing and maintenance of products supplied by foreign OEMs, primarily to clients in the avionics system domain. The contracts for this division are going to expire by March 31, 2021, and hence the management has decided to close this division. Another unit, Rossell Techsys division, is involved in wire-harnessing engineering, custom embedded systems, design and development of test solutions for clients in aerospace and defence domains. RIL also forayed into the hospitality business in FY2013, known as the Rossell Hospitality division, by setting up several fast-food outlets in the Delhi NCR region. However, the same has been shut down with effect from October 1, 2019. Going forward the company would have two major divisions, Tea and Techsys. A wholly owned subsidiary company of Rossell India Ltd. named Rossell Techsys, Inc has been incorporated, based in Delaware, the United States. The subsidiary was incorporated on August 6, 2020 in the form of C-Corp. This company was formed to expand the operation of Rossell Techsys Division in the US.

### Complexity level of the rated instruments

Instrument	Complexity Indicator
Long-term fund-based – Term Loan	Simple
Long-term fund-based – Working Capital Facilities	Simple
Short-term non-fund based – Working Capital Facilities	Very Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analyzing an entity's financial, business, industry risks or complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments, is available on ICRA's website: [www.icra.in](http://www.icra.in)
