Rationale

The ratings reflect NIIF Infrastructure Finance Limited's (NIIF IFL) demonstrated track record of zero NPAs and Nil stage 2 and stage 3 loan assets since commencement of its operations in 2015 and its parentage. The ratings also reflect the strength of NIIF IFL's diversified portfolio spread across the power, transmission, and other infrastructure sectors. The ratings also consider the relatively tighter regulatory framework necessitating investment/lending only to operational infrastructure projects, the company's comfortable liquidity profile supported by regulatory restrictions on the proportion of short-term debt in the overall borrowing mix, limited interest rate risk and the good capitalisation profile. Company's capitalisation profile also remains comfortable with capital adequacy ratio of 23.5% as against regulatory requirement of 15.0% and gearing of 4.0 times as on March 31, 2022. The ratings also draw comfort from NIIF IFL's experienced management team with expertise in infra finance, stringent underwriting norms reflected in good asset quality indicators and healthy profitability indicators. Further, strength of the company is also reflected in the investors i.e. National Investment and Infrastructure Fund II (NIIF II; Strategic Opportunities Fund) acting through its investment manager National Investment and Infrastructure Limited (NIIFL), which held 39.7% stake in NIIF IFL, 30.8% stake by Aseem Infrastructure Finance Limited, which is the sponsor as per RBI guidelines (AIFL; portfolio company of NIIF II) and ~25.1% stake by GoI as on June 30, 2022 on a fully diluted basis. ICRA expects NIIF IFL to continue to report good asset quality indicators while growing its business volumes. Going forward, the company's ability to grow its loan book while maintaining prudent capitalisation levels and strict underwriting standards and hence good asset quality indicators would be a key monitorable.

Key rating drivers and their description

Credit strengths

Strong parentage and experienced management team - National Investment and Infrastructure Fund II holds significant shareholding in NIIF IFL, both directly and through portfolio company AIFL. As on 30th June 2022 NIIF II holds a 39.7%, AIFL holds 30.8%, the GoI holds 25.1% and Housing Development Finance Corporation Limited holds 4.4% on a fully diluted basis.

NIIFL is an investor-owned fund manager, anchored by the GoI in collaboration with leading global and domestic institutional investors. NIIFL is a collaborative investment platform for International and Indian investors who are looking for investment opportunities in infrastructure and other high-growth sectors of the country. GoI's strategic focus on private sector participation in infrastructure funding is also evident from its Rs.20,000 crore capital commitment to NIIF platform across 3 funds currently managed namely, Master Fund, Fund of Funds and Strategic Opportunities Fund (SOF). A similar amount is expected to be raised from external investors. Further, ICRA takes note of the committed equity infusion to the tune of Rs. 6,000 crore by GoI to the - NIIF Debt Financing Platform comprising of NIIF IFL and AIFL, to enable them to catalyse more investments into the infrastructure sector. Out of the proposed Rs. 6000 crore, around Rs. 1,700 crore has been infused till March 31, 2022 across both debt platforms. Given the strong financial flexibility and sovereign linked nature of NIIF, ICRA expects timely growth capital raise by NIIF IFL, as and when required. The rating also draws comfort from NIIF IFL's experienced senior management team with considerable experience in the infrastructure financing space.

Regulatory framework necessitates lending to operational projects supporting overall business risk - NIIF IFL's portfolio grew to Rs. 14,201 crore on March 31, 2022 from Rs. 8,461 crore as on March 31, 2021, registering a healthy YoY growth of ~68% in line with the increase in net worth (67%) and consequently the regulatory exposure limits. NIIF IFL's portfolio is spread across the power, transmission, and other infrastructure sectors. The energy generation segment had the highest share of 62% in the portfolio as on March 31, 2022 followed by transport and logistics (17%), power transmission (11%), communication (7%) and other infrastructure sectors (4%). Within the power sector also, the exposure is diversified (solar constituted around 31% of the total exposure as on March 31, 2022, wind - 14%, captive/open access power ~16% and transmission ~11%) and a large part of the exposure has strong off takers like central government owned entities. As per Board approved Risk and ESG policy, NIIF IFL does not refinance any grid connected thermal power projects. The growth in the loan book was largely driven by the growth in the solar power segment over the past few years, while the share of the road segment has gradually declined. The regulatory framework for Infra Debt Funds (IDFs) necessitates lending/investment only in infrastructure projects with at least one year of satisfactory commercial operations. Hence, construction and execution risks are nil and operating risk is low given the track record of operations, though ICRA notes that the absence of tripartite agreements (post widening of scope in FY2016) would expose the IDFs to the risk associated with the project in the event of termination. Nevertheless, asset quality of these operational projects (including projects without tripartite agreements) is expected to be stable, given lower risks as compared to under construction projects. ICRA notes that NIIF IFL has not witnessed any slippages in its loan portfolio till date as reflected by nil stage 2 and stage 3 assets. However, given the wholesale nature of the loan book, the portfolio remains vulnerable to lumpy slippages in the asset quality.

Good capitalisation profile - The company's capitalisation profile remains comfortable with net worth of Rs. 3,115 crore as on March 31, 2022 and capital adequacy ratio (CRAR) of 23.5% (Tier I – 22.8%) as against the regulatory requirement of 15% (Tier I – 7.5%) and gearing of 4.0 times as on March 31, 2022. The capitalisation profile supported by capital infusion by AIFL worth Rs. 312 crore and ~ Rs. 700 crore by Government of India (GoI) in March 2022. In November 2020, the GoI had approved the infusion of funds up to Rs 6,000 crore in NIIF's Infrastructure Debt Financing Platform comprising NIIF IFL and its sponsor company, AIFL (of which around Rs. 1,700 crore had been infused till March 31, 2022). In ICRA's opinion, prudent capitalisation levels are one of the key risks mitigants and a monitorable for a portfolio that has relatively high concentration risks. In this regard, ICRA expects NIIF IFL to maintain prudent capitalisation levels and believes support from investors/sponsors will be forthcoming if required.

Profitability supported by tax exemption status enjoyed by IDFs - The net interest margins for NIIF IFL have remained rangebound (2.3%-2.5%) with an upward bias in FY2022 due to more than commensurate decline in cost of funds as compared to decline in yield. Further, due to the wholesale nature of operations, the company's operating expenses remain low at 0.2% of average total assets in FY2022 (0.3% in FY2021); and the provisioning costs continue to be low as the loan portfolio hasn't witnessed delinquencies/slippages. The net profits for NIIF IFL increased to Rs. 233 crore in FY2022 from Rs. 132 crore in FY2021 consequently resulting in improvement in return on assets (RoA) to 1.9% in FY2022 from 1.7% on in FY2021, while RoE remained broadly stable at 9.4% in FY2022 from 9.7% on in FY2021 due to base effect from capital infusion of Rs. 1,012 crore in the month of March 2022. ICRA notes that subject to compliance with the conditions stipulated by the CDBT, an IDF-NBFC's

income is exempt from tax, which supports its profitability. ICRA notes that any regulatory changes with respect to tax exemption could have an adverse impact on the profitability of IDF-NBFCs.

Credit challenges

Relatively high concentration risk - Regulations require all IDFs to take exposure only in operational projects with at least one year of commercial operations, which mitigates the construction and execution risk. However, the inherent nature of business of infrastructure financing means that company is exposed to project risks and the exposures are concentrated. Hence, the portfolio of NIIF IFL would remain vulnerable to asset quality shocks in case of slippages in few key exposures, which in turn may adversely affect its profitability. The concentration risk is high, with its top 10 borrowers accounting for ~ 29% of the total portfolio as on March 31, 2022 as against ~26% as on March 31, 2021. Going forward, the company's ability to maintain strict underwriting standards while growing the portfolio would be a key monitorable.

Liquidity position: Strong

The liquidity profile is comfortable as IDFs can raise resources only through issue of bonds of minimum five-year maturity in line with the maturity profile of the assets; shorter tenure bonds and commercial papers are not allowed beyond 10% of the outstanding debt. Since an IDF-NBFC can invest only in projects that have completed at least one year of commercial operations, loan repayments start immediately after disbursement, thereby supporting the ALM profile. The company's ALM as on March 31, 2022 reflected marginal positive cumulative mismatch (including future interest inflows and outflows from assets and liabilities) across all buckets up to 6 months and marginal negative mismatch for one year. As of March 31, 2022, the company had available liquidity in the form of cash and liquid investments up to ~Rs. 1,240 crore, providing comfortable liquidity cover over the principal debt repayments of Rs. 1,855 crore which are due over the next one year. Further, liquidity is supported by expected cash inflow of ~Rs. 802 crore from the advances in the above-mentioned period (excluding prepayments). ICRA also derives comfort from the good financial flexibility of the company and demonstrated support of the sponsors.

Rating sensitivities

Positive factors - Not applicable.

Negative factors - Pressure on NIIF IFL's ratings could emerge on account of increase in leverage to 9 times on sustained basis and/or weakening of the asset quality leading to a deterioration in solvency on a sustained basis. Any significant change in the regulatory framework leading to an increase in portfolio vulnerability and/or a change in the likelihood of support from the sponsors or key shareholders or a deterioration in the credit profile of the sponsors or key shareholders could warrant a rating revision for NIIF IFL.

Analytical approach

Analytical Approach	Comments
Applicable Rating Methodologies	ICRA's Credit Rating Methodology for Non-Banking Finance Companies Rating approach - Implicit support from parent or group Policy on withdrawal of credit ratings
Parent/Group Support	While the ratings reflect NIIF IFL demonstrated track record of zero NPAs and Nil stage 2 and stage 3 loan assets since commencement of its operations in 2015 and its parentage, the ratings also derive significant strength from NIIF IFL's parentage with 39.7% of the shares held by NIIF II, 30.8% held by AIFL and ~25.1% by GoI as on June 30, 2022 on a fully diluted basis. With the Quasi sovereign ownership of NIIF, which is an investor-owned fund manager anchored by the GoI in collaboration with global and domestic institutional investors, ICRA expects timely growth capital and liquidity support to NIIF IFL either directly or indirectly, if needed.
Consolidation/Standalone	Standalone

About the company

NIIF Infrastructure Finance Limited (NIIF IFL; erstwhile IDFC Infrastructure Finance Limited (IDFC IFL) is an infrastructure debt fund (IDF) under the non-banking finance company (NBFC) structure, set up in March 2014 and operating after the receipt of RBI approval on September 22, 2014. It provides long-term financial assistance for various infrastructure projects which have completed at least one year of satisfactory commercial operations.

While NIIF IFL was incorporated as IDFC IFL, its name was changed to NIIF IFL post the change in ownership in March 2019. On March 12, 2019, IDFC Financial Holding Company Limited (IDFC FHCL) transferred 51.48% of shareholding in IDFC IFL to NIIF Fund II. Further, on March 15, 2019, SBI Life Insurance Company Limited transferred its entire holding in IDFC IFL to NIIF Fund II. On March 30, 2020, NIIF IFL announced that AIFL, an NBFC Infrastructure Company (NBFC-IFC), acquired 30% equity stake of NIIF IFL from IDFC FHCL, upon consummation of the 2nd tranche of the transaction in terms of the Share Purchase Agreement (SPA) entered between IDFC FHCL, IDFC Limited and NIIF Fund II on October 30, 2018. Pursuant to the acquisition of 30% stake by AIFL, sponsor of NIIF IFL had been changed from IDFC FHCL to AIFL. As on March 31, 2022 NIIF Fund II holds 39.7% shareholding in the company, while AIFL holds 30.8%, Government of India (GoI) holds 25.1%¹ and HDFC Limited holds 4.4% stake in NIIF IFL.

In FY2022, the company reported a net profit of Rs. 233 crore vis-à-vis Rs. 132 crore reported in FY2021. Its net worth stood at Rs. 3,115 crore as on March 31, 2022. The company's capital structure is characterized by a gearing of 4.0x with a portfolio size of Rs. 14,201 crore as on March 31, 2022 (3.9x gearing with a portfolio of Rs. 8,432 crore as on March 31, 2021).

Aseem Infrastructure Finance Limited

AIFL, portfolio company of NIIF II (SOF) managed by NIIF is registered as NBFC-IFC (Infrastructure Finance Company). AIFL received IFC license from RBI in January 2020 and commenced business in August 2020. It plans to fund infrastructure projects across various phases with a mix of operating, brownfield and greenfield assets within regulatory guidelines. As on March 31, 2022 the company has a book size of Rs. 7,002 crore at a gearing level of 2.2 times.

National Investment & Infrastructure Fund

National Investment and Infrastructure Fund Limited (NIIFL) is a collaborative investment platform for international and Indian investors, anchored by the Government of India, which manages funds with investments in different asset classes and diversified sectors that generate attractive risk-adjusted returns. NIIFL manages over \$4.3 billion of equity capital commitments across its three funds – Master Fund, Fund of Funds, and Strategic Opportunities Fund (SOF), each with a distinct

¹ Fully diluted basis

investment strategy committed to support the country's growth needs. GoI's aggregate contribution to NIIF is Rs. 20,000 crore and it is proposed that a similar amount will be raised from third party investors such that GoI contribution will be 49% in each fund managed by NIIFL.

Complexity level of the rated instrument

Instrument	Complexity Indicator
Non-convertible debenture programme	Simple
Market linked debenture programme	Moderately Complex
Commercial paper programme	Very Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or the complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments, are available on ICRA's website: [Click Here](#)

ABOUT ICRA LIMITED

ICRA Limited was set up in 1991 by leading financial/investment institutions, commercial banks and financial services companies as an independent and professional investment Information and Credit Rating Agency.

Today, ICRA and its subsidiaries together form the ICRA Group of Companies (Group ICRA). ICRA is a Public Limited Company, with its shares listed on the Bombay Stock Exchange and the National Stock Exchange. The international Credit Rating Agency Moody's Investors Service is ICRA's largest shareholder.

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents.
