Rationale

On November 30, 2023, Kesoram Industries Limited (KIL) intimated the stock exchanges that the board of directors of KIL, at its meeting held on November 30, 2023, approved a composite scheme of arrangement among KIL, UltraTech Cement Limited (UCL) and their respective shareholders and creditors for demerger of its cement division into UCL.

The aforementioned acquisition is cash neutral. KIL's shareholders will receive 1 equity share of UCL for every 52 equity shares of KIL. The transaction is expected to be consummated within 9-12 months subject to receipt of requisite approvals from various stakeholders and regulatory bodies. UCL is the largest cement manufacturer in India with an installed capacity of 137.9 million tonnes (including 5.4-MTPA capacity overseas). As of September 2023, UCL and its subsidiaries together have 24 integrated units, 29 grinding units, one white cement and three wall putty units, five jetties and eight bulk terminals across India and overseas.

ICRA takes note of the development and has placed the rating of [ICRA]BB+ outstanding on the issuer rating, Rs. 1,549.0-crore NCD and Rs. 190-crore fixed deposits of KIL on Watch with Developing Implications. ICRA will continue to monitor the developments and will take appropriate rating action as and when further details are available.

Analytical approach

| Analytical Approach | Comments |
|---------------------------------|---|
| Applicable rating methodologies | Corporate Credit Rating Methodology Rating Methodology for Cement Companies |
| Parent/Group support | Not Applicable |
| Consolidation/Standalone | The rating is based on the standalone financial statement of the issuer. This is considering that there are restrictive clauses as per the terms of the NCDs/OCDs for extending support to Group companies without the prior approval of the debenture trustee and further, the corporate guarantee extended by the company to the debt of subsidiary, Cygnet Industries Ltd., had fallen off. ICRA is given to understand that KIL would not extend incremental support to its subsidiaries. |
