Total	372.00	372.00	

*Instrument details are provided in Annexure-I

Rationale

Material Event

On January 22, 2025, and January 23, 2025, Akums Drugs & Pharmaceuticals Limited (ADPL) informed the stock exchanges regarding searches initiated by the Income Tax (IT) department at few offices and manufacturing units of the company, its subsidiaries and the residences of few of its employees/key managerial personnel from January 15, 2025, till 11:00 pm on January 21, 2025. As per the company's exchange disclosure, it has not yet received any written communication from the IT department regarding the outcome of the search.

Impact of Material Event

Based on ADPL's disclosures and discussions with the management, ICRA understands that the business and operations of the company continued without any disruptions except some minor operational hiccups. Moreover, there have been no demands which have been raised on the company as of date. ICRA also notes that the company's liquidity position continues to remain adequate with minimal utilisation of working capital limits and there has been no impact on the availability of bank funding. ICRA would continue to monitor closely, any such developments related to this event and take appropriate rating action, if necessary.

Analytical approach

Analytical Approach	Comments
Applicable rating methodologies	Corporate Credit Rating Methodology Pharmaceuticals
Parent/Group support	Not applicable
Consolidation/Standalone	ICRA has taken a consolidated view of ADPL and its subsidiaries, PCHPL, MLPL and MNL, while assigning the credit ratings, given the common management and significant operational and financial linkages among the entities. For arriving at the ratings, ICRA has considered the consolidated financials of ADPL. As on March 31, 2024, the company had 14 subsidiaries and one step-down subsidiary, which are all enlisted in Annexure II.

About the company

Pure & Cure Healthcare Private Limited was incorporated in 2005 to manufacture pharmaceutical products from its facility in Haridwar (Uttarakhand), which enjoyed an excise duty exemption. In May 2013, ADPL acquired the company, making the latter its 100% subsidiary. Following the acquisition, ADPL's management shifted PCHPL's facility to a separate plot and set up units compliant with various international manufacturing practices. The upgraded plant commenced commercial production from July 2014. The company has the capacities to manufacture non-beta lactum oral solid dosage forms, injectables and dermatology formulations. Besides its facility in Haridwar, the company has also established two manufacturing facilities in Baddi for manufacturing of oral solids and liquids.

Incorporated in 2004, ADPL is a leading contract manufacturer of formulations for domestic as well as multinational pharmaceutical and wellness companies in India. ADPL has 12 manufacturing facilities in Uttarakhand and Himachal Pradesh for its formulations manufacturing business and three manufacturing units in Punjab and Haryana for its API manufacturing business. These manufacturing units are housed under ADPL and its various subsidiaries. The Group has commercialised more than 4,000 formulations across more than 60 dosage forms.

In FY2020, the company raised Rs. 500 crore from Quadria Capital in exchange for a 15.09% stake, of which Rs. 320.0 crore was infused into the company and the balance was paid to the promoters against sale of shares. Subsequently, ADPL came out with an IPO in August 2024.

Status of non-cooperation with previous CRA: Not applicable

Any other information: None

Complexity level of the rated instruments

Instrument	Complexity Indicator
Long term – fund based term loans	Simple
Long-term short-term fund based/ non fund based working capital limits	Simple
Unallocated limits	NA

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)
