*Instrument details are provided in Annexure I

Rationale

ICRA has reaffirmed the ratings of the various debt schemes of Nippon Life India Asset Management Limited (the asset management company; AMC). The ratings have been reaffirmed following ICRA's monitoring of the credit risk profile of the month-end portfolio position of these schemes. The credit risk scores for the schemes were comfortably within the benchmark limit for their current rating levels.

Mutual fund ratings incorporate ICRA's assessment of the creditworthiness of a debt mutual fund scheme's investment portfolio. These ratings are a symbolic representation of the credit risk in the underlying investments or the degree of safety regarding the timely receipt of payments from the investments made by the mutual fund schemes. The ratings do not indicate the AMC's and/or any of its scheme's willingness and/or ability to make timely redemptions to its investors. The ratings do not address market risks and hence should not be construed as an indication of the expected returns, prospective performance of the mutual fund scheme, and the ability to redeem investments at the reported net asset value (NAV) or volatility in its past returns, as all these are influenced by market risks.

ICRA's assessment of debt mutual fund schemes is guided by the credit ratings of the individual investments and the relative share of the schemes' allocation towards the investments, besides the maturity schedule of such investments. ICRA's mutual

fund ratings are not a reflection of the quality of the management of the AMC or its financial performance, reputation and other business practices including investment strategies, pricing, marketing and distribution activities. Furthermore, the ratings are not a reflection of whether the AMC or the fund is compliant with the applicable regulatory requirements.

The credit matrix is a tool used by ICRA for analysing the investment portfolio of the debt mutual fund schemes by assessing the portfolio's aggregate credit quality while reviewing the credit quality of each underlying debt security. The portfolio's weighted average credit quality is compared with a benchmark credit score corresponding to the higher of the weighted average maturity of the scheme's portfolio or the maturity predefined by ICRA for the scheme category. The rating outcome corresponds to the rating level for which the portfolio's weighted average credit score is less than the benchmark credit score associated with the rating level. Further, the lowest rating of the investments of the scheme acts as the floor for its rating.

Once a mutual fund scheme is rated and the rating is accepted, ICRA reviews the underlying investment portfolios for the credit scores on an ongoing basis. To this end, ICRA relies on the information provided by the AMC and/or publicly available sources. ICRA reviews the mutual fund ratings on a monthly basis or earlier, if required, which involves an evaluation of the rating corresponding to the portfolio credit score in relation to the existing rating outstanding. If the portfolio credit score meets the benchmark score for the existing rating, the rating is retained. If the portfolio credit score has a negative breach from the benchmark credit score for the existing rating, ICRA communicates the same to the fund manager/product manager or other officials of the concerned AMC and may provide a month's time to bring the portfolio credit score within the benchmark credit score for maintaining the existing rating level. If the investment composition of the fund is realigned to bring the portfolio credit score within the benchmark credit score, the rating is retained. However, if the portfolio continues to breach the benchmark credit score for the existing rating level, the rating is revised to reflect the change in the portfolio's credit quality.

In case of sharp breaches of the benchmark credit score (for instance due to a multi-notch downgrade in the underlying investment) and/or if ICRA believes that the breach may not get rectified within a month of the ongoing review, the rating is generally corrected immediately without giving a month's time for rebalancing the portfolio. If the AMC corrects its portfolio, post the rating downgrade of the scheme, or the credit score improves in any manner subsequent to the downgrade, making the scheme eligible for an upgrade, ICRA may consider a rating upgrade only if the credit score is maintained consistently for a period of at least three months.

Liquidity position: Not applicable

Rating sensitivities

Positive factors – Not applicable

Negative factors –

For Nippon India Overnight Fund – A deterioration in the credit quality of the underlying investment, leading to a breach in the threshold for the rating level, could result in a rating downgrade.

For other schemes – The ratings could face pressure on a deterioration in the credit quality of the underlying investment or a decline in the size of the assets under management (AUM), which may result in an increase in the share of lower rated investments, leading to a breach in the threshold for the rating level.

Analytical approach

About the company

Nippon Life India Asset Management Limited (NAM INDIA) is the asset manager of Nippon India Mutual Fund. As on December 31, 2024, Nippon Life Insurance Company (promoter of the company) held 72.43% of the total issued and paid-up equity share capital of NAM INDIA. As on December 31, 2024, NAM INDIA's average AUM stood at Rs. 5,81,432 crore¹.

Nippon India Floating Rate Fund

Nippon India Floating Rate Fund is an open-ended debt scheme predominantly investing in floating rate instruments (including fixed rate instruments converted to floating rate exposures using swaps/derivatives). The fund's month-end AUM stood at Rs. 7,580 crore as on December 31, 2024.

Nippon India Low Duration Fund

Nippon India Low Duration Fund is an open-ended low duration debt scheme investing in debt and money market instruments such that the Macaulay duration of the portfolio is between 6 and 12 months. The fund's month-end AUM stood at Rs. 8,514 crore as on December 31, 2024.

Nippon India Short Term Fund

Nippon India Short Term Fund is an open-ended short-term debt scheme investing in instruments such that the Macaulay duration of the portfolio is between 1 and 3 years. The fund's month-end AUM stood at Rs. 7,469 crore as on December 31, 2024.

Nippon India Corporate Bond Fund

Nippon India Corporate Bond Fund is an open-ended debt scheme predominantly investing in corporates rated AA+ and above. The fund seeks to benefit from opportunities available in the corporate bonds market at different points in time. Therefore, its investments are based on short-to-medium-term interest rate views and the shape of the yield curve. The fund's month-end AUM stood at Rs. 6,566 crore as on December 31, 2024.

Nippon India Dynamic Bond Fund

Nippon India Dynamic Bond Fund is an open-ended debt scheme investing across durations. The investment strategy is implemented through high-grade assets like Government securities (G-Secs)/state development loans (SDLs)/corporate bonds. The mandate is flexible in terms of duration rather than credit. The fund's month-end AUM stood at Rs. 4,234 crore as on December 31, 2024.

Nippon India Banking & PSU Debt Fund

Nippon India Banking & PSU Debt Fund is an open-ended debt scheme predominantly investing in the debt instruments of banks, public sector undertakings, public financial institutions and municipal bonds. The fund's month-end AUM stood at Rs. 5,706 crore as on December 31, 2024.

Nippon India Income Fund

Nippon India Income Fund is an open-ended medium-term debt scheme investing in instruments such that the Macaulay duration of the portfolio is between 4 and 7 years. The fund's month-end AUM stood at Rs. 400 crore as on December 31, 2024.

Nippon India Gilt Securities Fund

Nippon India Gilt Securities Fund is an open-ended debt scheme investing in G-Secs across maturities. The objective of the scheme is to generate optimal credit risk-free returns by investing in a portfolio of securities issued and guaranteed by the Central Government and state government. The fund's month-end AUM stood at Rs. 2,140 crore as on December 31, 2024.

Nippon India ETF Nifty 8 - 13 yr G - Sec Long Term Gilt

Nippon India ETF Nifty 8-13 yr G-Sec Long Term Gilt is an open-ended index exchange-traded fund investing in long-term G-Secs. The investment objective is to provide investment returns closely corresponding to the total returns of the securities as represented by the NIFTY 8-13 yr G-Sec Index before expenses, subject to tracking errors. The fund's month-end AUM stood at Rs. 2,278 crore as on December 31, 2024.

Nippon India Nifty AAA CPSE Bond Plus SDL - Apr 2027 Maturity 60:40 Index Fund

Nippon India Nifty AAA CPSE Bond Plus SDL - Apr 2027 Maturity 60:40 Index Fund is an open-ended target maturity index investing in the constituents of the Nifty AAA CPSE Bond Plus SDL Apr 2027 60:40 Index. The fund's month-end AUM stood at Rs. 3,569 crore as on December 31, 2024.

Nippon India Nifty AAA PSU Bond Plus SDL - Sep 2026 Maturity 50:50 Index Fund

Nippon India Nifty AAA PSU Bond Plus SDL - Sep 2026 Maturity 50:50 Index Fund is an open-ended target maturity index investing in the constituents of the Nifty AAA PSU Bond Plus SDL - Sep 2026 Maturity 50:50 Index. The fund's month-end AUM stood at Rs. 448 crore as on December 31, 2024.

Nippon India Liquid Fund

Nippon India Liquid Fund is an open-ended liquid scheme. The fund focuses on reasonable carry with a view to maximise returns while ensuring adequate liquidity through investments in various money market and debt instruments with maturity of up to 91 days. The fund's month-end AUM stood at Rs. 26,986 crore as on December 31, 2024.

Nippon India Money Market Fund

Nippon India Money Market Fund is an open-ended debt scheme investing in money market instruments like certificates of deposit (CDs), commercial papers (CPs), etc. The fund's month-end AUM stood at Rs. 15,877 crore as on December 31, 2024.

Nippon India Ultra Short Duration Fund

Nippon India Ultra Short Duration Fund is an open-ended ultra-short-term debt scheme investing in debt and money market instruments such that the Macaulay duration of the portfolio is between 3 and 6 months. The investment objective of the scheme is to generate optimal returns consistent with moderate levels of risk and liquidity by investing in debt and money market instruments. The fund's month-end AUM stood at Rs. 7,694 crore as on December 31, 2024.

Nippon India Overnight Fund

Nippon India Overnight Fund is an open-ended debt scheme investing in overnight securities. The objective of the scheme is to generate optimal returns with low risk and high liquidity by investing in debt and money market instruments with overnight maturity. The fund's month-end AUM stood at Rs. 6,843 crore as on December 31, 2024.

Complexity level of the rated instruments: Not applicable

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click here](#)
