### Rating Action

ICRA has reaffirmed the [ICRA]BBB- (pronounced ICRA triple B minus) rating assigned to the Rs. 698.9 crore<sup>1</sup>, non-convertible debenture programme; the Rs. 2,554.7 crore, long-term loans; Rs. 600.0 crore, long-term, non-fund based and the Rs. 645.0 crore (reduced from Rs. 761.0 crore), long-term, fund based bank facilities of Jet Airways (India) Limited (Jet Airways)<sup>2</sup>. The outlook on the long-term rating is stable. ICRA has also reaffirmed the [ICRA]A3 (pronounced ICRA A three) rating assigned to the Rs. 3,950.0 crore (increased from Rs. 3,719.0 crore), short-term, non-fund based bank facilities of Jet Airways.

ICRA has also withdrawn the [ICRA]BBB- rating, with stable outlook, assigned to the Rs. 601.1 crore, non-convertible debenture programme of Jet Airways, as the company has not raised funds against the rated instrument. ICRA has also withdrawn the [ICRA]BBB- rating, with stable outlook, assigned to the Rs. 2,554.7 crore, long-term loans and the [ICRA]A3 rating assigned to the Rs. 84.0 crore, short-term, non-fund based bank facilities of Jet Airways, as the company has fully redeemed the instruments on maturity. There is no amount outstanding against these rated instruments.

**Rationale**

The ratings reaffirmation takes into account the improving liquidity and credit profile of the company, as characterised by reducing debt levels on the back of ongoing accruals. Jet Airways witnessed significant improvement in operating performance in FY2016, partly on account of reduced jet fuel prices as well as the support from its strategic partner–Etihad Airways PJSC. While the jet fuel prices started increasing from March 2016 onwards, impacting the cost per available seat kilometer (CASK) of airlines, they have not been able to adequately pass on the same due to continued competitive pressures on industry-wide pricing power. Nonetheless, Jet Airways has reported an operating margin of 7.7% in 9M FY2017 (11.7% in FY2016), on the back of the strategic initiatives being undertaken together with its strategic partner in reshaping its business so as to enable it to return to sustainable profitability and improve cash flows. This strategic alliance between the two airlines has benefitted Jet Airways across all areas, including network growth, code sharing, operational synergies and cost improvement through maintenance contract renegotiations, co-ordination of flights, leasing of spare aircraft, procurement of fuel and other services, resulting in cost savings. Furthermore, Jet Airways has been benefitting from the profit being booked towards the sale of Jet Privilege Frequent Flyer programme (JPFFP) to Jet Privilege Private Limited (JPPL) entered into in FY2015.

ICRA notes that addition of new players as well as capacity enhancements by the existing players coupled with Jet Airways' increasing focus on international routes has resulted in moderation in Jet Airways' domestic market share over the past four years. Furthermore, the overall credit profile of the Company continues to remain stretched, characterised by negative networth and high leverage, partly mitigated by the several liquidity initiatives undertaken by the Company, and other ongoing initiatives with banks to raise funds. Timely funds tie-up is a key rating sensitivity.

ICRA notes that the upturn in the jet fuel prices has eradicated the pricing cushion available with the airlines and therefore sustainable improvement in the Company's performance hinges on recovery in the underlying demand. Furthermore, with a considerable portion of the Company's expenses, including financial / operating lease payments, fuel expenses and a significant portion of aircraft and engine maintenance expenses, being denominated in US\$, the Company is exposed to foreign exchange risk. Debt funded office space purchase (~Rs. 400 crore) at Bandra-Kurla Complex (BKC) under its project with Godrej Buildcon Private Limited is also expected to result in an increase in borrowings.

Continued support from Etihad Airways is fundamental towards turning Jet Airways around and further improving its liquidity profile.

**Key Rating Drivers****Credit Strengths**

- Strategic initiatives planned by Jet Airways together with Etihad in reshaping its business has helped improvement in profitability and cash flows
- Continued reduction in debt levels with ongoing accrual to reserves
- Gains from the sale of JPFFP to JPPL support cash flows and liquidity
- Of the 114 aircraft operated by Jet Airways (consolidated), 15 are owned, providing opportunities for monetisation (sale and lease back) and thus debt reduction

**Credit Weakness**

- Credit profile of the company continues to remain stretched, characterised by negative networth and high leverage
- Moderation in domestic market share of Jet Airways over the last four years
- The Indian airline industry continues to be faced with competitive pressures on industry-wide pricing power despite increasing jet fuel prices
- Debt-funded space purchase (~Rs. 400 crore) at BKC under its project with Godrej Buildcon Private Limited to result in an increase in borrowings

**Description of key rating drivers highlighted above:**

Post its alliance with Etihad, Jet Airways has enhanced its international connectivity with addition of new destinations and additional flights to various countries, especially in the Gulf Region. During the current year, the Company has undertaken sale of three aircraft, and sale and lease back for another six aircraft, resulting in a net gain of ~Rs. 133 crore. With these, though Jet Airways' fleet size has declined in the current year, the company has received back six aircraft which were sub-leased to Etihad, and the same have been deployed towards its own fleet. Furthermore, there has been an improvement in the utilisation of the aircraft (to 13.14 hours a day as compared to ~12 hours earlier). The above combined have resulted in a YoY increase of 6.3% in the available seat kilometers (ASKMs) for Jet Airways during 9M FY2017.

With the Company reporting net profits since FY2016 and expectations of continued net profits going forward, the funding requirement is expected to reduce, but for the ~Rs. 400 crore payment towards space purchase under its project at BKC. The Company also has 90 aircraft deliveries between FY2019 and FY2025. While the management has indicated entering into pre-delivery sale and lease back for these aircraft, the overall debt requirement will be highly contingent on the Company's ability to achieve the same. The Company also owns 15 of its 114 aircraft (as on December 31, 2016), providing opportunities for monetisation (sale and lease back) and thus debt reduction.
