*Instrument Details are provided in Annexure-1

Rating action

ICRA has assigned the rating of PP-MLD[ICRA]AA (pronounced principle protected market linked debentures ICRA double A) for the Rs. 1,000 crore long term principal protected market linked debenture programme ECL Finance Limited (ECLF).

ICRA has the rating of [ICRA]A1+ (pronounced ICRA A one plus) outstanding for the Rs. 6,000 crore commercial paper programme (IPO financing) of ECLF. ICRA has rating of [ICRA]AA outstanding for the Rs. 7,350 crore non-convertible debenture programme and Rs. 1,150 crore subordinated debt programme and rating of [ICRA]A1+ outstanding for the Rs. 3,600 commercial paper programme and Rs. 100 crore short term non convertible debenture programme of ECLF. ICRA also has rating of PP-MLD[ICRA]AA outstanding for the Rs. 1,350 crore long term principal protected market linked debenture programme and for the Rs.300 crore long term principal protected market linked debenture programme (unsecured and subordinated) of ECLF. ICRA also has the rating of rating of PP-MLD[ICRA]A1+ (pronounced Principle protected market linked debentures ICRA A one plus) outstanding for the Rs. 900 crore short term principal protected market linked debenture programme of ECLF. ICRA also has rating of [ICRA]AA and [ICRA]A1+ outstanding for the Rs. 11,000 crore bank lines of ECLF. The outlook on the long term ratings is stable.

Rationale

While arriving at the rating, ICRA has taken a consolidated view of the credit profile of key Edelweiss group companies (collectively referred to as the Edelweiss group) given their common promoters and senior management team, shared brand name, and strong financial and operational synergies. The rating reflects the group's demonstrated track-record and established position in the institutional equity broking and investment banking businesses; diversified credit portfolio with presence in real estate financing, structured collateralised credit, and retail segments; and robust risk management systems. The rating also takes into account the improvement in the group's operational metrics, its adequate capitalisation and healthy liquidity position which provide it with enhanced financial flexibility. The rating also takes into account the scaling up of the credit business, which has emerged as a key revenue and profit driver for the group. The strengths are partially off-set by credit and concentration risks in wholesale lending segments like structured collateralised credit to corporates and real estate, and the exposure to volatility in capital markets, albeit to a reduced extent. However, the group's ability to maintain adequate asset quality coupled with the emphasis on risk management practices provides comfort. While the group has consistently attempted to improve and diversify its resource profile, it remains exposed to refinancing risks, owing to bunching up of repayment obligations over the next two fiscals. The early stage of some of the group's recent ventures, including insurance and agri-value, has resulted in a drag on consolidated profitability. Going forward, ICRA expects financial, managerial and operational support from EFSL to continue to be available to all the key group companies of Edelweiss group. Thus, the group's ability to scale up the new businesses, in alignment with its core strategy, earn commensurate returns from its investments while maintaining a stable asset quality remains critical from a credit perspective.

Key rating drivers

Credit strengths

- **Diversified revenue streams with presence in credit (wholesale and retail) and non-credit (broking, investment banking, asset management and wealth management) segments** - Edelweiss group is a diversified financial services player engaged in credit, capital markets and other advisory businesses. The group commenced operations in the capital markets related business, and has established its position as a leading entity in the institutional equity broking and investment banking segments over the years. In a bid to diversify its revenue streams and reduce the dependence on capital markets, the group forayed into other segments like credit (wholesale lending in FY2006 and retail lending in FY2011), distressed assets (FY2010), and life insurance (FY2012). The diversification in revenue streams has reduced the group's exposure to cyclical movements in domestic capital markets. On a consolidated basis, EFSL's net revenues¹ increased from Rs. 2,648 crore in FY2016 to Rs. 3,799 crore in FY2017, reporting a 43% growth supported by a healthy growth in investment banking, other fee income and trading income. With the scaling up of the credit business, net interest income continues to be the key revenue driver contributing 34% of the total revenues in FY2017. The group's investment banking and advisory, trading and broking businesses contributed 25%, 17% and 8% of the revenues respectively in FY2017.
- **Steady growth in loan book with growth across segments** - Over the years, the group has been able to incubate and scale-up various non-capital markets business as demonstrated by its established position and improved operational metrics in these businesses. Moreover, the credit business has emerged as the key revenue and profit driver of the group, which was traditionally a capital markets player. As on June 30, 2017, the group's loan book stood at Rs 29,869 crore (Rs. 20,014 crore as on March 31, 2016), consisting of wholesale (66% of loan book) and retail segments (34%). The wholesale segment primarily includes structured collateralised credit (24% of the overall loan book)

¹ Broking income is net of sub-brokerage commission and interest income is net of interest expense

extended to promoters and corporates, real estate financing (25%) and distressed assets credit (17%). The retail segment includes a diverse mix of retail mortgage (13% of the overall loan book), loan against shares (10%), SME and business loans (8%) and agri and rural financing (3%).

- **Comfortable asset quality of its lending portfolio and adequate security cover indicating strong risk management practices** – The group has strong risk management practices to ensure stable asset quality in the collateralised credit and real estate financing segments. The group’s reported asset quality indicators deteriorated marginally with gross non-performing assets (NPA) at 1.71% of overall advances (as compared to 1.59% as on March 31, 2017) and net NPAs at ~0.61% as on June 30, 2017. This can be partly attributed to the group shifting to 90+ DPD NPA recognition for the NBFCs. The group’s ability to maintain asset quality across business cycles while achieving targeted portfolio growth, amidst competitive pressures would be closely monitored by ICRA and would remain a key rating sensitivity.
- **Strong presence in investment banking and institutional equity broking; asset and wealth management also increasing in scale** – Edelweiss group continues to hold a leading position in the investment banking and institutional equity businesses. With average daily volume of Rs. 7,000 crore in FY2017, Edelweiss is among the leading institutional broking entities in the country. The other capital markets businesses include proprietary trading and investments, wealth and asset management. The group offers wealth management advisory to its high networth clients with assets under advice of Rs. 65,900 crore as on June 30, 2017 as compared with Rs. 29,500 crore as on March 31, 2016. The group is also engaged in asset management with assets under management of Rs. 19,700 crore as on June 30, 2017 with special focus on alternative assets.
- **Improvement in profitability in FY2017-** The group’s consolidated net interest margins moderated from 3.63% of average total assets (ATA) in FY2016 to 3.16% of ATA in FY2017, following a sharp increase in the ATA in FY2017. While the group’s net interest margins moderated in FY2017, its operating profitability improved during the year supported by a stable asset profile and improving operational efficiencies. This coupled with an increase in trading income resulted in an improvement in net profitability (PAT/ATA) to 1.35% in FY2017 from 1.00% in FY2016. During FY2017, the group reported a net profit of Rs. 609 crore (RoE of 14.07%) as compared with Rs. 414 crore (RoE of 11.28%) in FY2016. The group’s 6 years old insurance business, however, continues to be loss making resulting in a pressure on the overall profitability. In Q1FY2018, the group reported a PAT of Rs. 196 crore as compared to a PAT of Rs. 140 crore in Q1FY2017.
- **Adequate capitalisation and healthy financial flexibility at the group level, commensurate with the current scale of operations** - The group has an active treasury function which enhances its liquidity position. The group had an adequate liquidity cushion of Rs. 4,500 crore as on June 30, 2017 (~10% of total assets) in the form of undrawn bank lines, fixed deposits, government securities and liquid mutual funds, which further enhances its financial flexibility. The consolidated capital adequacy (calculated based on RBI norms for NBFCs) remained healthy at 17.05% as on June 30, 2017.

Credit weaknesses

- **Exposed to credit risk in the wholesale credit business** - The group remains exposed to credit risk given its high concentration in wholesale lending, particularly structured collateralised funding and real estate segments which are inherently risky in nature. The structured collateralised funding to corporates and real estate together contributed 49% of the credit portfolio as on June 30, 2017.
- **Given the increasing prominence of the credit business particularly wholesale lending, ability to raise long term loans, access multiple sources of funding and maintain ALM remains critical** -

The group has a diversified resource profile with the dependence on bank borrowings declining with fund raising from other sources like Masala bonds and subordinated debt. The share of long term liabilities in the total liabilities has been increasing over the years in line with the increase in the credit book, which is long term in nature. Over the past three years, the group's debt levels increased keeping pace with the scaling up of the credit business. The total borrowings at a consolidated level increased from Rs. 27,773 crore as on March 31, 2016 to Rs. 33,379 crore as on March 31, 2017. The gearing is stable at 6.32 times as on March 31, 2017 vis-a-vis 6.35 times as on March 31, 2016. The adjusted gearing, excluding the collateralised borrowing and lending operations and other liquid assets in the Balance Sheet Management Unit, would be lower at 5.20 times as on March 31, 2017. The adjusted gearing increased marginally to 5.30 times as on June 30, 2017. The group's ability to maintain a comfortable asset liability matching in future would be a key rating monitorable.

- **Exposed to the inherent cyclicality in the capital markets; while the group has successfully diversified its portfolio in the past four years, its ability to scale up operations in the non-core business and align it with the core business strategy remains critical** – The group has also expanded its presence in managing warehouses to further consolidate and improve its presence in commodity distribution and commodity financing businesses. The group entered into a life insurance joint venture with Tokio Marine Insurance in 2011, which however has been making losses and remains a drag on the group's overall profitability. Life Insurance business is expected to break even in FY2022. The group's ability to report profits in the insurance business and other new ventures like agri-value would be a key driver for its overall profitability and would remain a key rating sensitivity.

Analytical approach:

For arriving at the ratings, ICRA has taken a consolidated view for ECL Finance Limited along with its group company – Edelweiss Financial Services Limited (rated [ICRA]AA(Stable)/ A1+) – since both have operational linkages and common senior management.

About the company

Edelweiss Financial Services Limited

Edelweiss Financial Services Ltd (EFSL), the holding company of the Edelweiss group of companies, was incorporated in 1995 by first generation entrepreneurs to offer investment banking services primarily to technology companies. Currently, Edelweiss group is engaged in wholesale and retail financing, distressed assets resolution, commodity financing, corporate debt syndication and debt restructuring, institutional and retail equity broking, corporate finance advisory, wealth advisory and asset management. The group forayed into housing finance in FY2011 and into life insurance in FY2012.

EFSL reported a consolidated net profit (after tax and minority interest) of Rs. 609 crore in FY2017 as compared with a net profit of Rs. 414 crore in FY2016. In Q1FY2018, the company reported a PAT of Rs. 196 crore as compared to a PAT of Rs. 140 crore in Q1FY2017.

ECL Finance Limited

Registered as a non-deposit taking non-banking financial company (NBFC) with the Reserve Bank of India, ECL Finance is the primary wholesale lending company for the Edelweiss group. The company is currently engaged in carrying out group's financing activities like promoter funding, corporate loans, real estate financing, loans against shares and initial public offering (IPO) funding. In FY2017, the company reported a net profit of Rs. 390 crore on a total income of Rs. 2,495 crore as compared to Rs. 250 crore on a total income of Rs. 1,887 crore in FY2016. The company had a networth of Rs. 2,357 crore as on March 31, 2017.

About ICRA Limited:

ICRA Limited was set up in 1991 by leading financial/investment institutions, commercial banks and financial services companies as an independent and professional investment Information and Credit Rating Agency.

Today, ICRA and its subsidiaries together form the ICRA Group of Companies (Group ICRA). ICRA is a Public Limited Company, with its shares listed on the Bombay Stock Exchange and the National Stock Exchange. The international Credit Rating Agency Moody's Investors Service is ICRA's largest shareholder.

Contents may be used freely with due acknowledgement to ICRA

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents.
