## **Rating action**

ICRA has assigned a rating of [ICRA]A1+ (pronounced ICRA A one plus) to the Rs. 9,000 crore commercial paper programme (IPO financing) of L&T Finance Limited (erstwhile Family Credit Limited) (LTF)<sup>1</sup>. ICRA has also withdrawn the rating of [ICRA]A1+ outstanding on the Rs. 9,000 crore commercial paper programme (IPO financing) assigned earlier. The withdrawal is at the request of the company.

ICRA has a rating outstanding of [ICRA]AA+ (pronounced ICRA double A plus) for the Rs. 6,519-crore non-convertible debenture (NCD) programme, the Rs. 681.70-crore NCD programme (public issuance) and the Rs. 1,325-crore subordinated debt programme of LTF. ICRA also has a rating outstanding of [ICRA]AA (pronounced ICRA double A) for the Rs. 600-crore perpetual debt programme and a rating outstanding of [ICRA]A1+ for the Rs. 18,500-crore commercial paper programme of LTF. The outlook on the long-term ratings is Stable.

The one notch lower rating assigned to the company's perpetual debt programme compared to the [ICRA]AA+ rating for the other long-term debt programmes reflects the specific features of these instruments wherein the debt servicing is additionally linked to meeting the regulatory norms on capitalisation and reported profitability. The domestic regulatory norms for hybrid debt capital instruments include regulatory approvals from the Reserve Bank of India (RBI) for debt servicing (including principal repayments) if the company reports a loss and is not liable to service the debt if it breaches the minimum regulatory capitalisation norms.

### Rationale

The ratings continue to draw substantial support from the strategic leverage the company derives from its ultimate parent – Larsen & Toubro Limited (L&T, rated [ICRA]AAA with Stable outlook) – and the funding, liquidity and capital support it receives from its immediate parent – L&T Finance Holding Limited (LTFHL, rated [ICRA]AA+(Stable)). The ratings also take into consideration the change in LTFHL's business profile during FY2017, following a rationalisation of product offerings, the amalgamation of L&T FinCorp Limited and L&T Finance Limited with Family Credit Limited (FCL), and the dissolution of the two former entities. FCL was subsequently rechristened L&T Finance Limited. While the combined entity, along with L&T Housing Finance Limited, is the Group's primary vehicle for retail financing, it will also provide non-infrastructure related financing to corporates. The ratings also factor in the capital funding, management, systems and infrastructure support that the company receives from LTFHL and other Group companies. ICRA expects the company to be adequately capitalised in relation to its growth plans over the medium term, supported by timely capital infusion by LTFHL.

#### **Outlook: Stable**

ICRA believes LTF will continue to benefit from being a part of L&T Financial Services Group, its demonstrated track record of scaling its operations and its ability to raise funds at competitive rates. Any change in the risk profile of L&T Financial Services Group will affect LTF's rating given their close linkages. The outlook may be revised to Positive if there is a substantial and sustained improvement in the company's financial risk profile supported by an improvement in its asset quality indicators. The outlook may be revised to Negative if there is a significant deterioration in LTF's asset quality and profitability indicators, thereby adversely affecting its financial risk profile.

## **Key rating drivers**

## **Credit strengths**

Expectation of continued support from the ultimate parent; experienced management team with strong leadership - LTF is a wholly-owned subsidiary of LTFHL, which, in turn, is majority owned by L&T. LTFHL and its subsidiaries, while operating independently, benefit from L&T's brand name. LTF also receives capital and management support from its parent. Thus, LTF's ratings draw significant strength from L&T and LTFHL and any change in the rating of the parent and/or support from the Group could warrant a rating change. LTF also has a strong management team with considerable experience across functions in retail lending.

Diversified product mix with portfolio growth supported by well-established franchise, superior market knowledge and standing as part of L&T Group - LTFHL undertook a rationalisation of its product offering in FY2017 following which, certain product segments (including four-wheeler financing, commercial vehicles, construction equipment, leases, SME term loans and receivable discounting) were discontinued. Nonetheless, LTF's product offering remains extensive. Also, as part of the restructuring, L&T Finance Limited and L&T FinCorp Limited were merged with Family Credit Limited with the merged entity being rechristened L&T Finance Limited. Going forward, LTF along with L&T Housing Finance, will be one of the Group's primary vehicles for retail financing, while it will also extend non-infrastructure loans to corporates. LTF's portfolio stood at Rs. 39,146 crore as on March 31, 2018 (Rs. 29,246 crore as on March 31, 2017). LTF benefits from the brand name of L&T, which it has leveraged to grow its corporate and retail portfolios while maintaining adequate profitability. L&T has an extensive track record in the Indian corporate space.

Comfortable capitalisation levels with committed financial support from parent – LTF's capital adequacy ratio stood at 17.99% as on March 31, 2018, above the 15% level stipulated by the RBI. The gearing, as on March 31, 2018, was 4.05 times. While internal capital generation is likely to be subdued in the medium term due to the proposed amortisation of goodwill of Rs. 2,826 crore (as on March 31, 2017) over five years starting March 2017, the strategic importance of the company to the Group and the track record of capital infusion from LTFHL (equity infusion of Rs. 1,400 crore by LTFHL in Q4FY2018) to its subsidiary companies supports capitalisation. ICRA's opinion is that the capital support from the parent should remain forthcoming as and when required.

Strong financial flexibility enables company to raise funding at competitive rates; comfortable liquidity position – LTF has a fairly-diversified funding mix with 50% of the funding as on March 31, 2018 raised from the capital markets (NCDs, subordinated debt, perpetual debt and commercial papers). Given its operational track record and the strong parentage, LTF is able to raise funding at competitive rates, which supports the overall profitability. The company also maintains a healthy liquidity profile with small negative mismatches in the 6-months bucket. However, the cumulative mismatch upto one year remains positive. Further, unutilised bank limits, and liquidity support from the immediate parent adds to the comfort.

## **Credit challenges**

Improvement in asset quality indicators despite challenging operating environment – LTF's asset quality indicators improved during FY2018 even after migration to stricter NPA recognition norms and slippages in a few product segments during the year. The improvement was supported by healthy collections and continuous risk monitoring. Gross and net NPAs were 6.1% and 2.8% (recognised at 90+ dpd), respectively, as on March 31, 2018, compared to 6.5% and 4.0% (recognised at 120+ dpd), respectively, as on March 31, 2017. Going forward, the company's ability to improve its asset quality and maintain its credit costs would remain a key monitorable.

**Modest profitability indicators** – During FY2018, the company reported return on asset (RoA) of 0.71% and return on net worth (RoNW) of 3.75% (vis-à-vis RoA of 0.08% and RoNW of 0.43% during FY2017) supported by an improvement in yield on account of increased retailisation of the portfolio and improved credit cost. ICRA expects improvement in the profitability indicators, provided the company is able to maintain its credit cost.
