Rationale

Given the presence of strong operational, financial and managerial linkages, ICRA has taken a consolidated rating view for DLF Limited and its subsidiaries, namely DLF Home Developers Limited (DHDL), Aadarshini Real Estate Developers Private Limited¹ and Nambi Buildwell Private Limited² (hereinafter referred to as DLF or DLF Group). Although DLF holds 66.67% stake in DLF Cyber City Developers Limited (DCCDL; rated [ICRA]AA-(Stable)/A1+) and its subsidiaries (DCCDL Group), ICRA has not taken a consolidated rating view on DLF and the DCCDL Groups. This is on account of the presence of a strong shareholder in DCCDL (GIC Group with a 33.33% stake), which has affirmative rights for all significant decisions.

The ratings continue to factor in the reduction in the debt levels of the DLF Group over the past few quarters on the back of capital market transactions, the most recent of which include a QIP issue and warrants conversion undertaken during March-June, 2019. These transactions generated an inflow of around Rs. 5,400 crore, and the proceeds were partially utilised towards prepayment/repayment of existing debt obligations. Thus, the bank debt of the group reduced to Rs. 7,050 crore as on September 30, 2019 from Rs. 9,338 crore as on March 31, 2019. ICRA further notes that during H1FY2020, DLF also repaid the outstanding interest-bearing advances availed from DCCDL. The outstanding amount against these advances stood at ~Rs. 7,650 crore on March 31, 2019, which was settled to the extent of ~Rs. 3,400 crore through cash payment and the balance through asset transfer. However, the company also received dividend and advances towards construction from DCCDL, amounting to around Rs. 2,400 crore, which significantly reduced the net cash outflow from DLF on account of this transaction.

The ratings also factor in the committed receivables amounting to ~Rs. 2,740 crore, which, together with available unsold finished inventory of ~Rs. 10,145 crore as on September 30, 2019, provide visibility on cash flows over the near to

¹ Converted into a joint-venture from March 2019. However, given the corporate guarantee extended by DLF to the JV, ICRA continues to take a consolidated view.

² Consolidated with DLF till Q1FY2020. The entity has been transferred to DCCDL group during Q2FY2020.

medium term. However, while the overall sales in H1FY2020 stood at Rs. 1,430 crore, the same were supported by a land deal of around Rs. 270 crore. Hence, the sales velocity from residential projects witnessed a slowdown in H1 FY2020, with such sales amounting to Rs. 1,160 crore (mainly comprising sales from Crest and Camelia in DLF 5 DLF 5 (Gurgaon, Haryana)) in H1FY2020 as compared to Rs. 1,225 crore in H1FY2019. Further, the collections remained slow at Rs. 1,301 crore in H1 FY2020 compared to Rs. 1,664 crore in H1FY2019, which together with high overheads, have resulted in weak operational cash flows. Exposure to marketing risks also remained high, given the concentration of the balance inventory in the ultra-luxury segment of one micro-market of a single geography, i.e. Gurgaon, a market which witnessed demand headwinds over the last few years. ICRA notes that adequate ramp-up in sales velocity and consequent timely collections will remain critical to meet debt obligations from operational cash flows going forward. Given the maturity profile of DLF's debt, ICRA notes that the company will be dependent on refinancing. Although some comfort is drawn from the high cash balance available as on September 30, 2019, which is largely expected to take care of the immediate scheduled repayments. Additionally, committed outflows towards ongoing projects remains low, standing at ~Rs. 1,750 crore as on September 30, 2019. With most of the ongoing residential projects at intermediate or advanced stages of completion, execution risks for the ongoing projects remain limited as well. The Group also has a low cost and fully paid up land bank, with well-located parcels having diverse land-uses, which provides it with flexibility in case of any exigency. However, going forward, any significant discretionary outflows towards land or other capital expenditure will remain a key credit monitorable.

ICRA also notes that DLF has significant contingent liabilities, mainly because of matters related to income tax, service tax etc and penalty imposed by the Competition Commission of India (CCI) in August 2011. However, DLF has deposited some money at the time of filing appeals with the respective tax authority as well as Rs. 630 crore³ with the Hon'ble Supreme Court towards CCI penalty, which will provide liquidity support in case of any adverse judgment.

Going forward, continued sales momentum and improvement in collections, leading to a significant and sustained increase in cash flow adequacy thus reducing DLF's dependence on refinancing, will remain the key rating monitorables.

Key rating drivers and their description

Credit strengths

Conclusion of capital market transaction, with proceeds partly utilised to repay/prepay existing debt obligations; outstanding advances with DCCDL settled as well: The company has successfully concluded the capital market transactions in the form of QIP issue and warrants conversion during March – June, 2019. The proceeds have partially been utilised towards prepayment/repayment of the existing debt obligations. Thus, the overall debt for the DLF group to Rs. 7,050 crore as on September 30, 2019 from Rs. 9,338 crore as on March 31, 2019. ICRA further notes that during H1FY2020, DLF also repaid the outstanding interest-bearing advances availed from DCCDL. The outstanding amount against these advances stood at ~Rs. 7,650 crore on March 31, 2019, which has been settled partially through asset transfer and partially through cash transfer.

Established market position with availability of low cost, well located and diversified land bank: DLF Group has an established market position, attributable to its demonstrated track record of project execution and presence in all segments, namely residential, commercial and retail, across various locations in the country, which enables wider buyer

³ Interest-bearing (in line with prevailing FD rates)

coverage. Moreover, the Group's fully paid up land bank is characterised by low acquisition cost, good location and diversity of land use, providing it flexibility in case of any exigency.

Pending collections and finished unsold inventory provides cash flow visibility: DLF has pending receivables of ~Rs. 2,740 crore and finished unsold inventory of ~Rs. 10,145 crore as on September 30, 2019. Most of the unsold inventory comprises finished units which are expected to be handed over in the near term, which will underpin sales velocity and collections going forward, given the increasing home-buyer preference for completed inventory.

Limited execution risks; committed outflows towards ongoing projects remains low: DLF has a low pending cost towards ongoing projects amounting to Rs. 1,750 crore as on September 30, 2019. As most of the on-going projects are either at intermediate or advanced stage of completion, exposure to execution risk remains limited.

Credit challenges

Maturity profile of debt: Given the maturity profile of DLF's debt, ICRA notes that the company will be dependent on refinancing. Although some comfort is drawn from the high cash balance available as on September 30, 2019, which is largely expected to take care of the immediate scheduled repayments.

Slowdown in sales from residential projects; high inventory concentration enhances marketing risks for unsold inventory: While the overall sales in H1FY2020 stood at Rs. 1,430 crore, the same were supported by a land deal of around Rs. 270 crore. Hence, the sales velocity from residential projects witnessed a slowdown in H1 FY2020, with such sales amounting to Rs. 1,160 crore (mainly comprising sales from Crest and Camelia in DLF 5 DLF 5 (Gurgaon, Haryana)) in H1FY2020 as compared to Rs. 1,225 crore in H1FY2019. Going forward, the exposure of the company to marketing risks remains high, given the concentration of the unsold inventory in one micro-market of a single geography, i.e. Gurgaon, a market which witnessed demand headwinds over the last few years. Further, the inventory is also concentrated in ultra-luxury segment, which is expected to witness slow sales velocity.

Slow collections and high overheads impact operational cash flows: DLF witnessed slow collections in H1FY2020 at Rs. 1301 crore, which together with high overheads, led to weak operational cash flows. While ICRA notes that some reduction in overheads may be witnessed going forward, given the management focus on the same, ramp-up in the collection will remain critical to meet the capital expenditure and debt repayment requirements from operational cash flows. However, some comfort is drawn from the recent launch of Ultima which has witnessed healthy sales, with major part of the collections expected to come in FY2021.

Significant contingent liabilities and pending litigations may put cash flows under pressure in case of adverse ruling: The Group has significant contingent liabilities, mainly because of matters related to income tax, service tax etc and penalty imposed by CCI in August 2011. However, DLF has deposited some money at the time of filing appeals with the respective tax authority as well as Rs. 630 crore with the Supreme Court towards CCI penalty, which will provide liquidity support in case of any adverse judgment.

Liquidity Position: Strong

DLF has cash of Rs. 2,589 crore as on September 30, 2019 and maintains at least six months of upcoming debt repayment as cash balance, which provides further comfort. In addition, substantial inflows have been received from the recently concluded capital market transactions during March-June, 2019 of Rs. 5,400 crore. Further, the company has pending collections of ~Rs. 2,740 crore as on September 30, 2019, most of which is likely to be received over the near to medium term considering the advance stage of project execution/handover. This, together with sales generated from the available finished unsold inventory of ~Rs. 10,145 crore, is expected to support the liquidity and cash flow position of the DLF Group going forward.

Rating sensitivities

Positive triggers – ICRA could upgrade DLF’s rating if it is able to achieve better than expected sales velocity and collections, leading to significant improvement in cash flow adequacy. Further, increased diversification in its portfolio in terms of geographies as well as projects will have a positive bearing on the rating.

Negative triggers – Negative pressure on DLF’s rating could arise if weak operational cash flows lead to lower-than-expected debt reduction. Further, DLF’s policy on land acquisition as well as capital expenditure, and the mode of funding of the same may also impact the ratings.

Analytical approach:

Analytical Approach	Comments
Applicable Rating Methodologies	Corporate Credit Rating Methodology Rating Methodology for Real Estate Entities
Parent/Group Support	-
Consolidation / Standalone	For arriving at the ratings, ICRA has taken a consolidated view of DLF Limited and its subsidiaries given the close business, financial and managerial linkages among them.

About the Company:

DLF Limited is amongst the largest domestic real estate developer with more than 70 years of track record in developing real estate. The company has developed more than 250 million square feet (msf) It is credited for developing many well-known urban colonies in Delhi, including South Extension, Greater Kailash, Kailash Colony and Hauz Khas as well as one of Asia’s largest private townships “DLF City” in Gurgaon, Haryana. DLF is currently developing 2.86 msf across the country.

Source: FY2019 Audited Financial Statement

*Converted into a joint-venture from March 2019. However, given the corporate guarantee extended by DLF to the JV, ICRA continues to take a consolidated view

^ICRA has not taken a consolidated rating view on DLF and DCCDL groups. This is on account of the presence of a strong shareholder in DCCDL (GIC group with 33.33% stake), who has affirmative rights for all significant decisions. ICRA also notes that no incremental financial support is expected to be extended by DCCDL to DLF, as has been the case since the stake sale to GIC in December 2017.

All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents
