DMI Finance Private Limited: Rating confirmed as final for PTCs backed by personal loan receivables issued by PLUM 26-3

Summary of rating action

Trust Name	Instrument*	Rated Amount (Rs. crore)	Rating Action
PLUM 26-3	PTC Series A1	122.57	[ICRA]AA(SO); provisional rating confirmed as final

*Instrument details are provided in Annexure II

Rationale

In March 2026, ICRA had assigned Provisional [ICRA]AA(SO) rating to Pass Through Certificate (PTC) Series A1, issued by PLUM 26-3. The PTCs are backed by a pool of a personal loan (PL) receivables originated by DMI Finance Private Limited (DMI/Originator) (rated [ICRA]AA(Stable)/[ICRA]A1+)¹ with an aggregate principal outstanding of Rs. 140.89 crore (pool receivables of Rs. 172.76 crore). DMI would also be the servicer of the rated transaction.

Since the executed transaction documents are in line with the rating conditions and the legal opinion for the transaction has been provided to ICRA, the said rating has now been confirmed as final.

Pool performance summary

Parameter	PLUM 26-3
Payout month	May 2026
Months post securitisation	1
Pool amortisation	7.9%
PTC Series A1 amortisation	9.1%
Cumulative prepayment rate	3.9%
Cumulative collection efficiency ²	99.59%
Loss-cum-0+ days past due (dpd) ³	0.4%
Loss-cum-30+ dpd ⁴	0.0%
Loss-cum-90+ dpd ⁵	0.0%
Cumulative cash collateral utilisation	0.0%

Transaction structure

As per the transaction structure, the monthly cash flow schedule comprises the promised interest payout. The principal is expected to be paid on a monthly basis (100% of the pool principal billed) but is promised on the final maturity date. Any surplus excess interest spread (EIS), after meeting the promised and expected payouts, will flow back to the equity tranche investor (in this case the Originator) on a monthly basis (in case there are no EIS trigger events). In case of an EIS trigger event, the EIS available will be used for accelerated redemption of PTC Series A1. Any prepayment in the pool would be used for the prepayment of PTC Series A1 principal.

¹ The current rating rationale of the originator, available at this [link](#), provides its detailed rating history and rating transitions.

² (Cumulative current collections and overdue collections)/(Cumulative billings + Opening overdues at the time of securitisation)

³ Unbilled and overdue principal portion of delinquent contracts as a % of Initial pool principal

⁴ Unbilled and overdue principal portion of contracts delinquent for more than 30 days as a % of Initial pool principal

⁵ Unbilled and overdue principal portion of contracts delinquent for more than 90 days as a % of Initial pool principal

The credit enhancement available in the structure is in the form of (i) a cash collateral (CC) of 5.00% of the initial pool principal, amounting to Rs. 7.04 crore, to be provided by the Originator, (ii) principal subordination of 13.00% of the initial pool principal for PTC Series A1 in the form of an equity tranche, and (iii) the EIS of 15.34% of the initial pool principal for PTC Series A1.

Key rating drivers and their description

Credit strengths

Granular pool supported by presence of credit enhancement – The pool is granular, consisting of 10,628 obligors, with top 10 obligors forming only 0.31% of the initial pool principal, thereby reducing the exposure to any single borrower. Further, the credit enhancement available in the form of the CC, subordination and EIS would absorb some amount of the losses in the pool and provide support in meeting the PTC payouts.

No overdue contracts in the pool –The pool has been filtered in such a manner that there are no overdue contracts as on the cut-off date. Also, ~77% of the contracts have never been overdue since origination while the peak dpd in the balance contracts is up to one month.

Adequate servicing capability of the originator- The company has adequate processes for servicing of the loan accounts in the securitised pool. It has a moderate track record of over five years of regular collections across a wide geography.

Credit challenges

Moderate share of self-employed borrowers – The self-employed category accounts for ~37% of the borrowers in the initial pool (in terms of the principal amount outstanding on the cut-off date). This increases the risks to some extent, given the uncertain nature of the cash flows generated by such borrowers vis-à-vis salaried borrowers.

Risks associated with lending business – The pool’s performance would remain exposed to macro-economic shocks, business disruptions and natural calamities that may impact the income-generating capability of the borrowers and their ability to make timely repayments of their loans. The pool is exposed to the inherent credit risk associated with the unsecured nature of the asset class and that recovery from delinquent contracts tends to be lower.

Key rating assumptions

ICRA’s cash flow modelling for rating securitisation transactions involves the simulation of potential losses, delinquencies and prepayments in the pool. The losses and prepayments are assumed to follow a log-normal distribution. The assumptions for the losses and the coefficient of variation are considered on the basis of the values observed from the analysis of the past performance of the Originator’s loan portfolio as well as the characteristics of the specific pool being evaluated. The resulting collections from the pool, after incorporating the impact of the losses and prepayments, are accounted for in ICRA’s cash flow model, in accordance with the cash flow waterfall of the transaction.

For the current pool, ICRA has estimated the shortfall in the pool principal collection during its tenure at ~5.75% of the pool principal with certain variability around it. The average prepayment rate for the underlying pool is modelled in the range of 5% to 18% per annum. Various possible scenarios have been simulated at stressed loss levels and prepayment rates and the incidences of default to the investor as well as the extent of losses are measured after factoring in the credit enhancement to arrive at the final rating for the instrument.

Details of key counterparties

The key counterparties in the rated transaction is as follows:

Transaction Name	PLUM 26-3
Originator	DMI Finance Private Limited
Servicer	DMI Finance Private Limited
Trustee	Catalyst Trusteeship Limited

Transaction Name	PLUM 26-3
CC holding bank	DCB Bank Limited
Collection and payout account bank	ICICI Bank Limited

Liquidity position: Strong

The liquidity for PTC Series A1 is strong after factoring in the credit enhancement available to meet the promised payouts to the investor. The total credit enhancement would be ~4.5 times the estimated loss in the pool.

Rating sensitivities

Positive factors –The rating could be upgraded on strong collection performance of the underlying pool (monthly collection efficiency >95%) on a sustained basis, leading to the build-up of credit enhancement cover for the remaining payouts.

Negative factors – Pressure on the rating could emerge on any sustained weak collection performance (monthly collection efficiency <90%) of the underlying pool leading to higher-than-expected delinquency levels and credit enhancement utilisation levels. Weakening in the credit profile of the servicer (DMI) could also exert pressure on the rating.

Analytical approach

The rating action is based on the trustee confirming compliance with the terms of the transaction and the executed transaction documents being in line with the terms initially shared with ICRA.

About the originator

DMI Finance Private Limited (DMI), incorporated in 2008, is a private financial services company registered as a non-banking financial company (NBFC) with the Reserve Bank of India (RBI). While it was mainly engaged in secured corporate lending (largely to real estate builders) till a few years ago, it has shifted its focus to digital lending wherein it provides consumption loans, personal loans and micro, small and medium enterprise (MSME) loans. This is a completely digital technology-driven business with API-based origination, underwriting and loan management systems. Herein, DFPL predominantly works through front-end partnerships with other fintech companies, original equipment manufacturers (OEMs) and technology-driven aggregators.

Annexure I: Disclosure pursuant to the SEBI Circular SEBI/HO/DDHS/DDHS-PoD-2/I/4685/2026 dated February 10,2026

ICRA rated Instruments fall under regulatory purview of various Financial Sector Regulators (FSR) as under:

Sr. No.	Instrument	FSR
1	Listed/Proposed to be listed Bonds/Debentures/Preference Shares (all securities)	SEBI
2	Unlisted/Proposed to be unlisted Bonds/Debentures/ Preference share (all securities)	MCA
3	Listed PTCs / Securitisation Notes (originated by entities regulated by RBI) (*)	SEBI
4	Listed PTCs / Securitisation Notes (originated by entities not regulated by RBI) (*)	SEBI
5	Unlisted PTCs / Securitisation Notes (originated by entities regulated by RBI) (*)	RBI
6	Listed Commercial Paper and NCDs with original maturity less than 1 year	RBI
7	Unlisted Commercial Paper and NCDs with original maturity less than 1 year	RBI
8	Loan Facilities (Fund/Non-Fund Based) from Bank / NBFCs/ NHB/ FIs (\$))	RBI
9	External Commercial Borrowings/Loans from overseas branches of Indian Banks/other similar borrowings	RBI
10	Certificates of Deposit	RBI
11	Fixed Deposits raised by NBFCs, Banks, HFCs, FIs	RBI
12	Fixed Deposits raised by corporates other than NBFCs, Banks, HFCs, FIs	MCA
13	Inter Corporate Deposits/Loans extended by Corporates	MCA
14	Listed Security Receipts	SEBI
15	Unlisted Security Receipts	RBI
16	Unlisted PTCs / Securitisation Notes (originated by entities not regulated by RBI) (*)	Investor-side Regulator such as IRDAI, PFRDA (%)

(*) Includes securitisation transactions involving assignee payout, acquirer's payout.

(\$) Includes bank facilities such as liquidity facility, second loss facility that are part of securitisation transactions.

(%)These ratings were assigned prior to the introduction of SEBI CRA Circular dated Feb 10, 2026 and accordingly, investor side FSRs have been mentioned.

Other Activities offered by ICRA fall under regulatory purview of various Financial Sector Regulators (FSR) as under:

Sr. No.	Activity Name	FSR
1	Credit Ratings for Capital Protection Oriented Schemes (by Mutual Funds and AIFs)	SEBI
2	Credit quality ratings (CQRs) for Mutual Fund Schemes and Schemes of AIFs	SEBI
3	Independent Credit Evaluation (ICE)	RBI
4	Expected Loss Ratings (For Loan Facilities [Fund/Non-Fund based] from Banks/NBFCs/NHB/FIs)	RBI
5	Expected Loss Ratings (Listed / Proposed to be listed Bonds / Debentures / Preference Shares (all securities))	SEBI

6	Expected Loss Ratings (Unlisted / Proposed to be unlisted Bonds/ Debentures / Preference Shares (all securities))	MCA
7	Credit Rating of Borrowing programme	(@)
8	Issuer Ratings	(#)
9	Monitoring Agency	SEBI
10	Research activities, incidental to rating such as research for Economy & Industries (permitted by SEBI vide SEBI Master Circular for CRAs)	NA

(@) The rated instrument may involve issuance of different instruments such as debt securities (listed or otherwise), bank loans, commercial paper (listed or otherwise), etc. The regulator of the instrument can only be determined upon issuance. Accordingly, ICRA shall capture the rated quantum details along with names of respective FSR in the press release(s) after the issuance(s) of the instruments.

(#) Since no instrument is being rated, FSR is not applicable. The rating scale and definitions stipulated in SEBI Master Circular for CRAs are being followed.

Disclosure: SEBI’s grievance redressal/dispute resolution and SEBI investor protection mechanisms such as SCORES and ODR shall not be available for activities and instruments which fall under the regulatory purview of Financial Sector Regulators other than SEBI.

Complexity level of the rated instrument

Instrument	Complexity indicator
PTC Series A1	Highly Complex

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA’s website: [Click Here](#)
