Indiabulls Housing Finance Limited

Summary of Rated Instruments

Sl.	Trust Name	Instrument*	Initial Amount (Rs. crore ¹)	Rating action
1	INNOVATION TRUST XXIX SEPT 2017	PTC Series A	609.69	Provisional rating of [ICRA]AAA(SO) confirmed as final

*Instrument details are provided in Annexure I

Rating Action

ICRA has confirmed the provisional ratings assigned to PTC Series A issued by Innovation Trust XXIX Sept 2017 trust as final, as tabulated above. In this transaction, the PTCs are backed by receivables from a Rs. 609.69 crore pool of LAP and HL loan contracts.

Rationale

In September 2017, ICRA had assigned Provisional [ICRA]AAA(SO) ratings to PTCs issued by Innovation Trust XXIX Sept 2017 trust. Since the executed transaction documents are in line with the rating conditions and the legal opinion and due diligence audit certificate for the transaction have been provided to ICRA, the said ratings have now been confirmed as final.

Key rating drivers

Credit Strengths

- The first line of support is available for the transaction through subordination of the excess interest spread (EIS) (amounting to around 23.4% of the pool principal amount); residual EIS would flow back to the originator
- Further support is available in the form of Cash Collateral of 9.50% of the total pool principal amount
- The selected pool is characterized by moderate to high seasoning, moderate LTV, low ticket size and moderate share of surrogate income scheme contracts
- There are no overdue contracts in the pool

Credit Weakness

- 10.72% of the pool contracts have a balance tenure greater than 20 years which is high compared to earlier rated pools

Description of key rating drivers highlighted above:

IBHFL would assign to an SPV (Trust), the future receivables arising from the selected pool of 4,132 loans. The transfer would be at par, i.e., the Trust will pay to the Originator the par value of the loan pool as the up-front purchase consideration. The Trust would issue one series of PTC Series A backed by the assigned LAP and HL receivables.

The first line of support for meeting any shortfall in scheduled PTC payouts is available in the form of subordination of the excess interest spread (EIS) in the structure (amounting to around 23.4% of the pool principal amount). The residual EIS (after meeting scheduled PTC payout and top up of CC, if any, in any month) will flow back to the originator. Further support is available through cash collateral stipulated at 9.50% of the total pool principal amount (Rs. 57.92 crore).

¹ 100 lakh = 1 crore = 10 million

The underlying pool consists of LAP and HL contracts. The selected pool is characterised by a moderate seasoning profile (average seasoning of around 18 months) and low ticket size loans. All loans in the pool have variable interest rate.

In ICRA's opinion, the level of credit enhancement is sufficient to protect the Investors from delinquencies and credit losses even under significantly stressed loss assumptions.

Key rating assumptions

ICRA's cash flow modeling for surveillance of MBS transactions involves simulation of potential delinquencies, losses (shortfall in principal collection during the balance tenor of the pool) and prepayments in the pool. The assumptions for loss and the Co-efficient of Variation (CoV) are arrived at after taking into account the past performance of the Originator's portfolio and rated pools, and also the performance and characteristics of the specific pool being evaluated. Additionally, the assumptions may be adjusted to factor the current operating environment and any industry specific factors that ICRA believes could impact the performance of the underlying pool contracts.

After making the aforementioned adjustments, the expected loss and prepayments during the balance tenure of the pools are as given in the table below.

Sr. No	Transaction Name	Expected Loss (% of balance pool principal)	Prepayment
1	Innovation Trust XXIX SEP-17	2.0% - 4.0%	12% - 18% p a.

Analytical approach:

The rating action is based on the trustee confirming compliance with the terms of the transaction and the executed transaction documents being in line with the terms initially shared with ICRA.
