

## Power Finance Corporation Ltd.

November 05, 2018

### Summary of rated instruments

Instrument*	Previous Rated Amount (Rs. crore)	Current Rated Amount (Rs. crore)	Rating Action
Long-term borrowing programme FY2019	37,000	43,000 <sup>^</sup>	[ICRA]AAA (Stable); Assigned/Outstanding
Short-term borrowing programme FY2019	20,000	14,000 <sup>^</sup>	[ICRA]A1+; Outstanding
Overall borrowing programme FY2019	57,000	57,000 <sup>^</sup>	
Rated long-term short-term borrowings of previous FYs	3,34,505	3,34,505	[ICRA]AAA (Stable)/A1+; Outstanding
Fixed deposit programme	-	-	MAAA (Stable); Outstanding
<b>Total</b>	<b>3,91,505</b>	<b>3,91,505</b>	

<sup>^</sup> Short-term borrowings are interchangeable with long-term borrowings, subject to the total borrowings in FY2019 not exceeding Rs. 57,000 crore

\* Instrument details are provided in Annexure-1

### Rating action

ICRA has assigned a rating of [ICRA]AAA (pronounced ICRA triple A) to the Rs. 43,000-crore (enhanced from Rs. 37,000 crore) long-term borrowing programme of Power Finance Corporation Ltd. (PFC)<sup>1</sup> for FY2019. ICRA has a rating outstanding of [ICRA]A1+ (pronounced ICRA A one plus) on PFC's Rs. 14,000-crore (revised from Rs. 20,000 crore) short-term borrowing programme for FY2019. PFC's overall borrowing programme for FY2019 remains unchanged at Rs. 57,000 crore. ICRA also has a rating outstanding of [ICRA]AAA for PFC's various long-term bond and bank borrowing programmes and [ICRA]A1+ for its commercial paper/short-term bank borrowings aggregating Rs. 3,34,505 crore. ICRA also has a rating outstanding of MAAA (pronounced M triple A) for the entity's fixed deposit programme. The outlook on the long-term and medium-term ratings is Stable.

### Rationale

The ratings derive significant strength from PFC's sovereign ownership (65.65% held by the Government of India (GoI) as on September 30, 2018) and its important role as a nodal agency for various GoI power sector schemes under Ultra Mega Power Projects (UMPPs) and the Integrated Power Development Scheme (IPDS). PFC, being the largest power sector financier in India, remains strategically important to the GoI, for augmenting power capacity across the country. The ratings also continue to draw comfort from PFC's adequate capitalisation profile (CRAR of 17.71% as on June 30, 2018), its good financial flexibility, and its adequate earnings profile (annualised net profit/average total assets of 2.19% for FY2018 and 1.98% for Q1 FY2019), supported by good net interest margins (3.22% for FY2018 and 3.26% for Q1 FY2019) and low operating costs (0.15% for FY2018).

These strengths are partly offset by the company's exposure to a single sector (i.e. power) with a high concentration towards state power utilities, as well as the vulnerability of its exposure to private sector borrowers (18% of the total loan book as on June 30, 2018), as reflected by the asset quality indicators, with Stage 3 assets of 9.61% of total advances as on June 30, 2018. Overall, PFC's ability to grow its loan book while maintaining adequate profitability and controlling credit costs would be the key rating sensitivity, going forward.

<sup>1</sup> For complete rating scale and definitions, please refer to ICRA's website ([www.icra.in](http://www.icra.in)) or other ICRA rating publications

## Outlook: Stable

ICRA believes PFC will remain significantly important to the GoI and will play a major role in various GoI power sector schemes. The outlook may be revised to Negative if there is a significant deterioration in the company's asset quality or solvency profile. Also, any significant dilution in the GoI's stake, a change in PFC's strategic role or a sustained decline in the profitability and asset quality indicators could warrant a rating/outlook change.

## Key rating drivers

### Credit strengths

**Strong parentage and strategic importance to GoI** - The company is a nodal agency for various GoI schemes, such as UMPPs and IPDS, for the development of the country's power sector. Further, as one of the major power sector financiers, PFC remains strategically important for achieving the Government's objective of augmenting power capacity across the country. The GoI remains the majority shareholder in the company, with a stake of 65.65% as on September 30, 2018. PFC gained approval from the GoI to raise 54EC capital gain bonds in June 2017 and was also given permission to raise tax-free bonds in the past.

**Experienced management and operational team** - The company has an experienced management team with the senior team having an experience of more than 30 years in power financing. The company's well laid-out credit appraisal and monitoring systems have enabled it to establish itself as a preferred lender in the power sector.

**Good financial flexibility and sovereign ownership support liquidity profile** - Owing to its sovereign ownership, PFC has been able to raise funds at competitive rates. Around 83% of PFC's outstanding borrowings, as on June 30, 2018, were in the form of long-term bonds, which augur well for the maturity profile of its assets. The company received approval from the GoI in June 2017 to raise 54EC low-cost capital gain bonds, which could further reduce its cost of funds.

PFC has a comfortable asset-liability matching profile with low cumulative mismatches. Its good financial flexibility and the availability of unutilised bank lines (Rs. 9,750 crore as on October 23, 2018) are expected to keep its short-term liquidity comfortable.

**Adequate capitalisation** – PFC reported a net worth of Rs. 37,571 crore as on June 30, 2018 (Rs. 39,861 crore as on March 31, 2018). The reduction in the net worth was on account of a transition to Indian Accounting Standards (IND-AS). Overall, the transition impacted the net worth negatively by Rs. 3,020 crore on account of higher provisions for gross Stage 3 assets, creation of deferred tax assets, fair valuation of investments and other miscellaneous items including mark-to-market valuation. As on June 30, 2018, PFC's capitalisation profile was moderate with a gearing of 6.21 times and CRAR of 17.71% (Tier I - 14.66%). The company's capitalisation is expected to remain adequate over the medium term, supported by its ability to raise capital through public issues.

**Adequate profitability profile** – PFC's yield moderated to 9.91% in FY2018 from 10.91% in FY2017 on account of a decline in systemic interest rates. The cost of funds also moderated to 7.66% in FY2018 from 7.82% in FY2017, albeit by a lower extent, leading to a decline in spreads and, hence, net interest margins (NIMs), which stood at 3.22% in FY2018 compared to 3.94% in FY2017. Nevertheless, the company's profitability remained comfortable with return on assets of 2.19% and return on equity of 15.34% during FY2018. Moreover, PFC is expected to maintain a spread of 2.5-3%. However, its credit costs could increase, going forward, if it is unable to recover effectively from stressed assets, thus adversely impacting its profitability. ICRA, nevertheless, derives comfort from PFC's strong capitalisation profile and likely support from the Government, in case of need.

## Credit challenges

**High portfolio vulnerability likely to keep asset quality volatile** - The company's asset quality deteriorated in FY2017 following a change in NPA recognition norms. However, since a large proportion of the projects that were classified as NPA, as on March 31, 2017, had already achieved the date of commencement of commercial operations (DCCO), some of those were upgraded in FY2018. Consequently, the gross NPA improved to 5.71% as on December 31, 2017 (12.50% as on March 31, 2017).

However, the company's asset quality deteriorated in Q4 FY2018 after the Reserve Bank of India (RBI) made changes in the framework for the resolution of stressed assets in February 2018, whereby all the earlier schemes for stressed assets were discontinued. Though the new guidelines were not applicable to PFC, the company decided to follow them and loans under various RBI resolution schemes were classified as NPA. Consequently, the gross NPA increased to 9.57% as on March 31, 2018 (5.71% as on December 31, 2017) and the net NPA to 7.39% as on March 31, 2018 (4.23% as on December 31, 2017). Gross Stage 3 assets stood at 9.61% though net Stage 3 assets were lower at 4.53% as on June 30, 2018 on account of increased provisioning following the transition to IND-AS. Around 53% of the private sector book was recognised as a part of Stage 3 assets on which the company made provisions of 53%. PFC might have to create additional provisions if it is unable to effectively resolve the stressed assets. ICRA believes any stress in the loan book is likely to be restricted to PFC's private sector book (18% of the total portfolio as on June 30, 2018). Overall, the company's ability to grow its loan book, while maintaining adequate profitability and controlling credit costs, would be critical.

**High concentration risk** - The company's exposure to a single sector (i.e. power), large ticket size of loans, high concentration of exposure towards financially weak state power utilities and the vulnerability of its exposure to private sector borrowers (18% of the book as on June 30, 2018) increases its portfolio vulnerability. The risk is further heightened as PFC is exempt from the concentration norms applicable to non-banking finance companies, and thus has significantly concentrated exposures. PFC's independent power producer (IPP) portfolio remains impacted by concerns regarding fuel availability, disputed and competitive power sale tariffs, absence of power purchase agreements (PPAs), environmental clearance and land acquisition issues. However, with PFC not sanctioning new private sector thermal projects in the last four-five years and focussing on solar and wind projects, the vulnerability of the IPP book is expected to improve from current levels in the medium term.

**Analytical approach:** For arriving at the ratings, ICRA has applied its rating methodologies as indicated below.

## About the company

PFC was set up in 1986 by the GoI as a specialised development financial institution to fund projects in the domestic power sector. The GoI held a 65.65% stake in the company as on September 30, 2018. PFC provides loans for a range of power-sector activities including generation, distribution, transmission, and plant renovation and maintenance. It finances state sector entities including generating and distribution companies, as well as IPPs. PFC is also the nodal agency for the development of 15 UMPPs in the country.

In FY2018, PFC reported a profit after tax (PAT) of Rs. 5,855 crore against PAT of Rs. 2,126 crore in FY2017. It reported PAT of Rs. 1,373 crore in Q1 FY2019. As on June 30, 2018, PFC's reported capital adequacy was 17.71% (Tier I – 14.66%). As on June 30, 2018, PFC had a total loan book of Rs. 2,84,848 crore (Rs. 2,52,746 crore as on June 30, 2017). Its exposure to state power utilities accounted for 65% of its total advances, followed by exposure to IPPs at 18%, while its exposure to Central and joint sector entities stood at 17% as on June 30, 2018.

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website [www.icra.in](http://www.icra.in) or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents
