Material Event

Sical Saumya Mining Limited (SSML) has delays in debt servicing on its term loans due for the month of August 2019. The company had sought for deferment of payment, which is yet to be received.

Impact of the Material Event

ICRA has downgraded the long-term rating assigned to Rs 41.83 crore fund-based facilities of SSML to [ICRA]D (pronounced as ICRA D) from [ICRA]B+ (Negative) (pronounced ICRA B plus) and also downgraded the short-term rating assigned to Rs. 25.00 crore fund-based facilities to [ICRA]D (pronounced as ICRA D) from [ICRA]A4 (pronounced ICRA A four). The rating action follows the delays in debt servicing of term loans within the due date.

Rationale

The rating downgrade takes into account the delays in debt servicing of term loans by SSML. The delays have been on account of weakened liquidity position post the unexpected demise of the group's promoter – Mr. V. G. Siddhartha, due to reduced financial flexibility and enhanced refinancing risks, with some of the lenders to the group also delaying the disbursement of loan installments. ICRA notes that Sical group has high repayment obligations in the near to medium term and is expected to continue to face liquidity pressure and has requested the lenders for rescheduling of loan repayments, with inclusion of short term moratorium, which if agreed upon may provide some respite on the liquidity front. ICRA also notes that both SLL and parent Coffee Day group is looking at deleveraging by raising funds through asset sales, which may include the parent's stake sale in SLL. The developments on this front will be key monitorable.

Key rating drivers

Credit challenges

Weakened financial flexibility and liquidity profile of the group – The rated bank facilities of SSML are backed by an unconditional and irrevocable guarantee provided by SLL for its due payment and an undertaking provided by the guarantor that it would ensure that the related debt obligations are serviced on or prior to the due date, irrespective of the invocation of the guarantee by the beneficiary. However, the guarantor did not service the debt since the guarantee

was not invoked by lender, despite the undertaking. The delay in debt servicing by SSML was on account of liquidity pressure at the group level, arising from delays in disbursement of loan (under another group entity – Sical Iron Ore Terminal Limited) by one of the lenders, post the unexpected demise of SLL’s promoter – Mr. V. G. Siddhartha, indicating weakened financial flexibility and enhanced refinancing risks faced by the group.

Liquidity position: Poor

The company’s liquidity profile is poor as reflected by delays in debt servicing

Rating Sensitivities

About the company:

Sical Saumya Mining Limited (SSML) is a subsidiary of Sical Logistics Limited (SLL) and is engaged in the business of overburden extraction and transportation. The company was formed as a JV with Saumya Mining Limited (SML) for the purpose of securing overburden removal contracts in association with the coal removal contracts that Sical is undertaking in Mahanadi Coalfields Limited (MCL). Currently the company is executing two contracts – the operations are handled by SLL through a subcontract.

Guarantor Profile:

Incorporated in 1955, SLL is involved in the business of mining, multi-modal logistics for bulk and containerised cargo port terminals, port handling, trucking and warehousing, ship agency, customhouse agency, offshore supply logistics and retail logistics. On a consolidated basis, SLL has investments in infrastructure including a port terminal, container freight stations, container rail and a dredger.

SLL was promoted by Mr. M. A. Chidambaram Chettiar to provide shipping and custom agency services apart from its core activity of trading. Over the years, SLL began entering areas like port handling, container terminal operations (through JV) and logistics. In 2005, SLL hived off its non-core activities and increased its focus on the logistics business. In the recent years, SLL entered mining by executing coal/overburden removal contracts for Coal India subsidiaries, which rapidly grew into one of the major revenue contributors of the company. Tanglin Retail Reality Developments (P) Limited (part of the Coffee Day Group) picked up 10% stake initially in November 2010 before raising the stake to 54.2%. The

Coffee Day Group, at present, holds a total 55.18% shareholding in SLL through its Group entities namely Tanglin (50.19%) and GiriVidyuth (India) Ltd (4.99%). The Coffee Day Group has a diversified portfolio of companies, which have presence in owning and managing coffee plantations, coffee exports and retailing of coffee, vending machines and cafes. It is also involved in leasing of commercial space, financial services, hospitality services and others.
