## UFO Moviez India Limited: [ICRA]AA- (Negative) assigned for enhanced amount

### Summary of rating action

Instrument*	Previous Rated Amount (Rs. crore)	Current Rated Amount (Rs. crore)	Rating Action
Long-term Loans	87.0	102.6	[ICRA]AA- (Negative); assigned / outstanding
Long-term, Fund-based Facilities	30.0	75.0	[ICRA]AA- (Negative); assigned / outstanding
Short-term, Non-fund Based Facilities	10.0	10.0	[ICRA]A1+; outstanding
<b>Total</b>	<b>127.0</b>	<b>187.6</b>	

\*Instrument details are provided in Annexure-1

### Rationale

The rating factors in the well-established position of UFO Moviez India Limited (UMIL) in the digital cinema exhibition industry, with ~55% market share (in terms of number of screens digitised in the country) on a consolidated basis, and an experienced management team. The rating continues to draw comfort from the strong financial risk profile, as reflected by healthy cash accruals, low leverage and comfortable debt coverage indicators. ICRA also notes the Rs. 45.0-crore funds infused into the company through a preferential issue of equity shares (Rs. 30.0 crore) and share warrants application money (Rs. 15.3 crore) to the promoters during FY2018. The balance of Rs. 45.8 crore of the share warrants was to be received by June 2019; however, as they were not exercised, the subscription amount of Rs. 15.3 crore was forfeited by the company.

The rating is constrained by the limited tenure of D-cinema virtual print fee (VPF) income from the Hollywood studios, resulting in a gradual decline in Hollywood VPF income starting FY2016 and eventual expiry in FY2020, thereby impacting its operating profit margins (OPM). Furthermore, there is an increased uncertainty on the continuation of the D-Cinema VPF income from the Bollywood producers. Any material change in the terms of the VPF for D-Cinema or E-Cinema is a key rating monitorable. The same is, however, expected to be adequately compensated by an increase in advertisement revenues. However, total advertisement revenues witnessed a YoY de-growth of 2.6% in Q1 FY2020 primarily due to 24.3% decline in Caravan advertisement revenues. Revival of advertisement revenue growth, and thus an improvement in OPM, are key rating monitorables. The rating also takes into account the limited potential for increasing the screen base, the limited life of projection systems, which would necessitate moderate levels of maintenance / replacement capital expenditure (capex), going forward, and the vulnerability to changes in technology. ICRA further notes that UMIL's operating lease-based revenue model has required high initial investments in technology and projection systems (capex), which has historically been constraining its profitability. However, subsequent reduction in capex, coupled with continued strong growth in advertisement revenues, has aided improvement in its return on capital employed (RoCE) to 19.8% in FY2019.

The negative outlook on the long-term rating factors in the reduced financial flexibility for the company due to a sharp decline in its share price during the last six months. Furthermore, the liquidity position of the company moderated due to the high dividend payout including dividend distribution tax (DDT) of Rs. 94.0 crore in Q1 FY2020, resulting in a reduction in the available net cash surplus to Rs. 75.2 crore as on June 30, 2019 from Rs. 118.9 crore as on March 31, 2019.

Sustained growth in advertisement revenues—through higher utilisation of inventory, improving earnings per advertisement slot and generation of additional advertisement revenue streams (Nova Cinemas and Caravan Talkies)—remains key for further improvement in profitability. While UMIL’s ability to maintain commercial terms (VPF / rentals) with its clients (film producers / distributors and exhibitors) also remains key for sustained business growth, ICRA derives comfort from the large installed base of UMIL’s systems among exhibitors and the acceptance of UMIL as a digital partner by the film producers / distributors. The amount of replacement capex, going forward, remains a key rating monitorable.

In November 2017, UMIL had announced a business combination between itself and Qube Cinema Technologies Private Limited (QCTPL), through a composite scheme of arrangement and amalgamation. As a part of the arrangement, UMIL and ICICI Venture Funds Management Company Limited (ICICI Venture) were to purchase an aggregate of 53.2% stake in QCTPL from certain private equity investors. On January 21, 2019, UMIL announced that the National Company Law Tribunal (NCLT) had dismissed the petition filed by the company for the approval of the scheme citing several adverse comments. Furthermore, on February 21, 2019, UMIL informed the decision of ICICI Venture to terminate the Implementation Agreement and Share Purchase Agreement related to the scheme of amalgamation between UMIL and QCTPL. UMIL had appealed to the National Company Law Appellate Tribunal (NCLAT) challenging the order of NCLT, Mumbai, on February 25, 2019. NCLAT, in its order on October 24, 2019, allowed the appeal and set aside the NCLT Order. Furthermore, the NCLAT Order recorded that the representative of the Union of India, Ministry of Corporate Affairs, through the Regional Director, Western Region has conceded before the NCLAT that the grounds given for rejection of the Scheme in the NCLT Order were uncalled for and the NCLT was only required to notice all the requirements of Section 230-232 of Companies Act, 2013. ICRA will continue to monitor the developments with regards to the amalgamation / acquisition of QCTPL by UMIL.

## Key rating drivers and their description

### Credit strengths

**Leading digital cinema technology and infrastructure provider to film exhibitors in India** – UMIL has established a strong market position by consolidating the industry, especially through the 100% stake acquired over the years in Scrabble Entertainment Limited (SEL), a digital cinema initiative (DCI) compliant system integrator. UMIL (consolidated, i.e., combined with SEL) is the leading digital cinema technology and infrastructure provider to film exhibitors in India, with a network of 5,244 screens across the country as on June 30, 2019. These screens include 1,741 D-Cinema screens and 3,503 E-Cinema screens across single screen theatres and multiplexes. UMIL and SEL together account for ~55% of the digital cinema screens in the country.

**Wide coverage of theatres across India provides critical mass to attract advertisers** – UMIL had contracted 3,600 screens across the country, as on June 30, 2019, for in-cinema advertisement. Of these, 1,280 are multiplexes and the rest are single screen theatres. With this infrastructure in place, UMIL has been able to attract advertisers, both Government and corporate, to display their advertisements on UMIL’s cinema screens. During FY2019, 2,001 advertisers used UMIL’s in-cinema advertisement services. UMIL reported in-cinema advertisement revenues of Rs. 213.1 crore in FY2019, representing a YoY growth of 4.1% and total advertisement revenues of Rs. 237.2 crore, representing a YoY growth of 11.1%. However, its in-cinema advertisement revenues were almost flat at Rs. 40.1 crore in Q1 FY2020, and total advertisement revenues witnessed a YoY de-growth of 2.6% primarily due to 24.3% decline in Caravan advertisement revenues. Government (including public sector undertakings or PSUs) clients drove 53% of UMIL’s in-cinema advertisement revenues in FY2019 and corporate (including hyper-local) clients accounted for the rest. Revival of advertisement revenue growth, and thus an improvement in OPM, are key rating monitorables.

**Strong financial profile as reflected by healthy cash accruals and comfortable capital structure as well as debt coverage indicators** – Healthy operating cash flows coupled with the management’s ability to raise equity to fund the growth have helped the company achieve a strong financial profile. As on March 31, 2019, UMIL (consolidated) had a robust capital structure with total outside liabilities / tangible net worth (TOL/TNW) of 0.5 time. The coverage indicators remain healthy with total debt/ operating profits before depreciation, interest and tax (TD/OPBDITA) of 0.8 time and interest coverage of 15.0 times in FY2019. Furthermore, the company had net cash surplus of Rs. 75.2 crore as on June 30, 2019.

**Professional and experienced management team** – Mr. Sanjay Gaikwad, the founder and managing director of UMIL, has extensive experience in the media business. He is supported by a team experienced in various facets of the business. During UMIL’s initial years, the management was able to raise private equity to fund its growth requirements. The management’s abilities were demonstrated when they provided an exit to the investors through an offer for sale in May 2015.

## Credit challenges

**Reduced financial flexibility and moderation in liquidity profile** – The share price of the company has declined significantly in the last six months resulting in reduced financial flexibility. Furthermore, the liquidity position of the company has also moderated due to the high dividend payout including DDT of Rs. 94.0 crore in Q1 FY2020, thereby resulting in a reduction in the available net cash surplus to Rs. 75.2 crore as on June 30, 2019 from Rs. 118.9 crore as on March 31, 2019.

**Uncertainty on the continuation of the D-Cinema VPF income from Bollywood producers** - Limited tenure of D-Cinema VPF income from the Hollywood studios has resulted in a gradual decline in Hollywood VPF income starting FY2016 and eventual expiry in FY2020, thereby impacting UMIL’s OPM. Furthermore, there is an increased uncertainty on the continuation of the D-Cinema VPF income from the Bollywood producers. Any material change in the terms of the VPF for D-Cinema or E-Cinema is a key rating monitorable.

**Current high penetration levels of digital cinema in theatres limits growth prospects in terms of screen additions** – With almost full digitisation of theatres in India, there is a limited potential for increasing the screen base. While the company has taken initiatives, such as Nova Cinemas, to drive the establishment of new screens in the country, no major increase in number of screens is expected over the medium term. While the competitive intensity in the industry is moderate, with UMIL accounting for ~55% of the digitised screens in the country, the company has been witnessing some churn in its screens owing to aggressive rental terms offered (to the film exhibitors) by some of the regional players. However, it is likely that these film exhibitors return to UMIL over the longer term on the back of UMIL’s ability to provide content and generate advertisement revenues for the theatres.

**Risks of changes in technology, although partly mitigated by the strong installed base of UMIL systems among film exhibitors in India** – UMIL, being present in a technology intensive media business, is exposed to the risks associated with any technological disruptions leading to complete change in the business landscape. However, given that UMIL (along with SEL) has established a wide network of digital cinema screens across the country, and is offering theatres a sustainable business model by providing a share in advertisement revenues, it will be difficult for a new player (with new technology) to replace UMIL’s systems, unless backed by a sustainable business plan for all stakeholders.

**Operating lease-based revenue model requires high investments by UMIL; limited life of projection systems necessitates continuous investment in replacement of older projection systems** – ICRA notes that UMIL’s operating lease-based revenue model has required high initial investments in technology and projection systems, which has historically constrained its profitability. However, subsequent reduction in capex, coupled with continued growth in advertisement revenues, has aided improvement in RoCE to 19.8% in FY2019.

## Liquidity position: Strong

UMIL's liquidity is strong as reflected by a net cash surplus of Rs. 75.2 crore as on June 30, 2019. However, the same has reduced from Rs. 118.9 crore as on March 31, 2019 due to a large dividend payout including DDT of Rs. 94.0 crore in Q1 FY2020. UMIL's fund flow from operations has been positive over the years due to healthy profitability. Coupled with its low working capital intensity of operations, this has resulted in positive cash flow from operations. In the current fiscal, the capex requirement for UMIL is ~Rs. 65 crore, which is expected to be funded through a mix of term loans and internal accruals.

## Rating sensitivities

**Positive triggers:** ICRA could upgrade UMIL's rating if the company shows a sustained improvement in its profitability supported by significant growth in advertisement revenues, compensating for the loss of VPF income.

**Negative triggers:** Negative pressure on UMIL's rating could arise in case of any adverse changes in the terms of the VPF with Bollywood producers, thereby impacting its revenues and profitability, or if any major capex or debt-funded acquisition results in a deterioration in its credit metrics.

## Analytical approach

Analytical Approach	Comments
Applicable Rating Methodologies	<a href="#">Corporate Credit Rating Methodology</a>
Parent / Group Support	Not applicable
Consolidation / Standalone	For arriving at the ratings, ICRA has considered the consolidated financials of UMIL. As on March 31, 2019, the company had six subsidiaries, six step-down subsidiaries and five associates, which are all listed in Annexure-2.

## About the company

UFO India Limited (UIL) was incorporated in 2004 to provide digital cinema services in India. In 2005, UFO Moviez Limited (UML) was formed as a holding company and the majority shareholding of UIL was vested in UML. Subsequently, in May 2008, UML was amalgamated with UIL; and following the amalgamation, UIL was renamed as UFO Moviez India Limited (UMIL). UMIL was originally promoted by the Valuable Group and the Apollo Group. The promoters, over the years, diluted their stake in the company to private equity investors (3i Digital Media, or 3i, in January 2007 and Providence Equity Partners, or PEP, in May 2011) to meet the growth funding requirements. As on September 30, 2019, while the promoters held 30.09% stake and PEP held 18.52% stake in UMIL, 3i fully exited its investment in UMIL. UMIL is listed on the Bombay Stock Exchange and the National Stock Exchange.

UMIL operates as an infrastructure service provider for the film distribution and exhibition industry. UMIL receives analogue movie prints from film producers / distributors, and then digitises, compresses, encrypts and transmits the same through satellite to authorised exhibitors. It also facilitates the exhibitors to screen digital cinema by providing them with the required infrastructure—such as satellite dishes, servers, digital projectors and UPS. UMIL, thus, offers cost and time arbitrage to the film industry. UMIL also facilitates advertisers to showcase their advertisements on screen during a movie show. UMIL is currently the leading digital cinema infrastructure provider to theatres in India, with a screen market share of ~55% (consolidated level).

For the three-month period that ended on June 30, 2019, UMIL, on a consolidated basis, reported a profit after tax (PAT) of Rs. 8.2 crore on an operating income (OI) of Rs. 126.4 crore, as against a PAT of Rs. 6.9 crore on an OI of Rs. 134.4 crore for the three-month period that ended on June 30, 2018.

### Key financial indicators (audited, consolidated)

Consolidated	FY2018	FY2019
